

GOOD THINGS COMING TO THEATRES OF ST. JOHN

NEW FILM SERVICE. New films are to be seen at the Palace Theatre, beginning tomorrow. "The Lone Trail," a wonderful five part Pathe play will be presented with splendid orchestra music, and Friday and Saturday the new Universal Serial "Liberty," a twenty episode story of war, intrigue and love, featuring Marie Walcamp, Eddie Bohn and Jack Holt, three of the most renowned stars of the Universal city, combined in absolutely the best story yet produced in serial form by the famous Universal Company.

TOMORROW AT THE IMPERIAL. Tomorrow the Imperial will present the wonderful little Ella Hall and good-natured Bob Leonard, the stars of the favorite serial story "The Master Key" in a most elaborate five-reel Bluebird production entitled "The Crippled Hand." This film will introduce numerous surprises, such as trick photography of an artistic character, which used to be seen in the early French pictures about eight or ten years ago and which caused such wonderment and delight. "The Crippled Hand" is a sort of modern fantasy, devoid of tragedy—very sweet and lovely.

AT THE GEM. Last two chances tonight to see the great DeWolf Hopper in "Crazy at the Hat" and "Fatty" at "The Walters' Ball," a rousing good program. An absorbing chapter of "The Yellow Menace" and another big feature are billed for Wednesday and Thursday.

MIRAMICHI GIRLS ARE READY FOR WAR

The interest stirred up in recruiting for the Killies campaign has aroused not only the young men, but the young ladies of the Miramichi. Six Chatham young women have offered their services to serve their king and country in any capacity in which they can be of use; if they should be unable to get places with the Canadian hospital as nurses, they will join the imperial service.

ADD TO THE JOY OF LIVING

It isn't alone the deliciously sweet nut-like taste of Grape-Nuts that has made the food famous, though taste makes first appeal, and goes along way. But with the zealous flavor there is in Grape-Nuts the one true nutrient of finest wheat and barley. And this includes the rich mineral elements of the grain, necessary for vigorous health—the greatest joy of life. Every table should have its daily ration of Grape-Nuts. "There's a Reason"

Pure Rich Blood Prevents Disease

Bad blood,—that is, blood that is impure or impoverished, thin and pale,—is responsible for more ailments than any other disease. It affects every organ and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings and worse troubles. It is responsible for run-down conditions, and is the most common cause of disease.

PATRIOTIC CAUSES

Tomorrow Afternoon. The monthly meeting of the Soldiers' Comfort Association will be held in the Centenary church parlors at three o'clock on Wednesday afternoon.

Catarrh Cannot Be Cured with local applications as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts through the blood on the mucous surfaces of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Cure is what produces such wonderful results in catarrhal conditions. Send for testimonials free.

"Banking interests are inclined to take a calm view of the submarine situation." Representative market circles of the street appear to expect a trading market until the present excitement calms down. They expect further liquidation, but no overvaluing sales in view of the big margins provided.

Attention is being directed to the point that the present prosperity is not all due to the war supply business, but that a large part is now owing to domestic requirements which are increasing on account of the spreading influence of nervous war expenditures.

Big speculative interests in certain large institutions of the street are under scrutiny. There may be investigations as to market activities. Manipulation of certain developments has been charged, and much heated conversation is noted in this connection among bankers. Several active and influential commission houses are advising their clients about the standard street issues, especially U. S. Steel, Lackawana, and Great Northern Ore, saying the feverish market is providing good buying opportunities not to be neglected.

Easy money conditions are operating for continued investment absorption despite the submarine war. In private banking offices this fact is brought out prominently as an argument against any prolonged or important setback from present levels in the standard issues, especially rails.

There is a good demand from active investment circles for preferred industrial stocks which are looked upon as being in a very solid position. Mention is made of good buying in Central Leather Pfd., Railway Pfd., U. S. Rubber 1st Pfd., A. B. S. Pfd., A. F. Pfd., and W. Y. Pfd.

LIQUOR IN HALIFAX

(Halifax Echo) Intoxicating liquor is being sold openly, in the streets, on the wharves and in a hundred and one places which could and should be ferreted out. But Mayor Martin and his colleagues are making no move. Instead, by defeating every movement aimed at the proper enforcement of the law and by doing nothing in the face of the most flagrant violation of the law, they have in effect rendered notice on the boot-leggers, the blind-peddlers and the hole-in-the-wall men that they are not to be molested unless somebody "splitts" on them, in the police court.

And so we have the spectacle of the men who have sworn to enforce the law, aiding and abetting in its violation. What is official Halifax coming to, anyway?

THEY TELL IT IN NEWARK

Story of a Man Who Couldn't Remember His Own Name. Chester R. Hoag tells of an old-time citizen of Newark, who, though he could remember figures and business details with startling clearness, had a wretched memory for names. It was in the days before letter carriers. One day Mr. Hoag's hero, whom he may call Jones, called at the post office for his letters.

"My mail please," said he. "What is the name?" asked the man behind the window. "You see, I'm a new clerk here."

The man outside tried hard to think, but after a moment, without a word, he turned and went away. Half a block down the street he met an acquaintance.

"Good morning, sir," said he. "Good morning, Mr. Jones," said the acquaintance. "Ah, thank you," said Mr. Jones, and went back to the post office.—Newark News.

A record of 487 feet penetration in 27 days was recently made by the forces working on the Roosevelt drainage tunnel near Cripple Creek, Col. The best previous record of 400 feet a day was made in January, 1909. The tunnel is four miles long and 1800 feet below the surface. Its width is nine feet and its height eight feet. The workmen have to wear rubber boots and clothing, as water is coming out of the fissures at the rate of 10,000 gallons a minute.

FISHERMEN BLOWN OUT TO SEA BY A GALE

A sudden gale caught the fishing fleet at Colombus and blew nearly 200 native fishermen out to sea. Many were saved by incoming steamers in addition to those rescued by tugboats which were sent out the next day. Photo shown them just before they were hauled aboard a rescue ship. The men were badly bruised and could not stand.
