

MINING INDUSTRY GAINS IN VOLUME IN THE DOMINION

Statistics For First Half of
1922 Show Increasing
Recovery From De-
cline of Last
Year

(Canadian Press Despatch)
Ottawa, Sept. 20.—That the recovery in the mining industry which made its appearance in the early months of the year has gained momentum is evidenced by statistics covering production during the first six months of 1922, says the Dominion Bureau of Statistics. Available data collected from various sections of the industry show a gradual increase from the decline of 1921.

Partially offsetting this was a decline in the output of coal and decreases in the production of copper and nickel. The iron and steel industry, although much below the 1921 record for the first quarter, had commenced to show improvement towards the end of the period. The coal strike and the tie-up of the railroads in the United States have proved unfavorable factors in the Canadian production of iron and steel. But for the stoppage in coal mining in British Columbia and Alberta, and greatly decreased shipments from Nova Scotia, the total value of the mineral production would have been considerably increased.

The total estimated value of the mineral production during the first six months of 1922 was \$57,682,944, of which \$26,475,544 represented the value of the metal production and \$31,207,400 the non-metals. As compared with the same period in 1921 the value of the metals is seen to have increased about \$2,000,000, or 9.1 per cent.

Standing By Provinces.
The standing of the different provinces in the Dominion, according to the returns for the half year, was as follows: Ontario, \$18,883,577; British Columbia, \$16,153,307; Alberta, \$10,062,318; Nova Scotia, \$8,792,799; Quebec, \$2,054,445; Yukon, \$1,652; New Brunswick, \$890,459; Saskatchewan, \$266,041; Manitoba, \$215,389.

eral industry in Canada during the period, in the value assigned, were: Coal, \$24,346,959; gold, \$12,110,242; silver, \$5,990,199; lead, \$2,882,047; natural gas, \$2,448,729; copper, \$2,337,093; asbestos, \$1,694,232; nickel, \$1,401,820; zinc, \$1,370,460; and salt, \$849,133.

subjected to control by a rational modification of the physical environment. Manufacturers whose privilege it is to market sanitary products which in their finished form represent the last word in utility, simplicity, and general adaptability to the purpose served, are often staggered by their slight appeal to the average mind. The average person is content to "muddle along through" with outgrown methods and inadequate or antiquated equipment principally because he does not see the cause and effect relationship between daily habit and individual or community health. For health is a habit. The functions of the body, both mental and physical, are rhythmic. Whatever mode of action is accepted today tends to be repeated tomorrow. Right practices, oft repeated, in the long run spell normal function. Personal hygiene sufficiently extended becomes community health. By the same token, rooms that are dark and corners that are musty, personal habits that will not bear repeating and imitation are not mere matters of individual concern. As a small focus of infection soon undermines the whole physical economy, so will an unthinking tolerance of insanitary domestic conditions breed a general indifference to community housekeeping.

J. C. Chesley, local agent for the marine and fisheries department, left last evening for Ottawa, where he will consult with other officials of the department in regard to taking over one of the sheds at West St. John for the use of potato shippers.

Natural History Women Hold Meeting

The executives of the Ladies' association, Natural History Society, met yesterday afternoon in the society's rooms in Union street and made preparations for the annual meeting which will be held next month. Mrs. W. H. Shaw, the president, was in the chair. The outline of the winter programme of lectures was drawn up, and the course promised to be most interesting and appealing. Those who were to give addresses were: Mrs. George Parker, Mrs. Richard O'Brien, Mrs. John Sealy, Mrs. W. Edmond Raymond and Mrs. Harold Lawrence. One of the afternoons in the lecture course was to be given over to a musical programme, and Mrs. Harold Lawrence received. The funds of the association were shown to be at a low ebb and means of raising money were discussed. The holding of a conversation in November was decided upon, and it was planned to make that event a star number in the year's activities.

AN AUTOMOBILE SERVICE CLINIC

A service clinic for all the sub-dealers and chief mechanics of the McLaughlin Motor Car Limited in the maritime provinces will be held early next month at the offices of the company in Union street and it is expected that between fifty and sixty will be in attendance. The clinic will be held at the gathering of its kind held by the company in St. John and the three days during which the sessions will be held are expected to be filled with interest. Experts from the United States and Canada will give addresses on such subjects as ignition equipments for cars, servicing of cars after sale to a customer, garage equipment, financing, both wholesale and retail and all matters pertaining to the conduct of the McLaughlin business in these provinces.

The company first conducted a carriage business in the maritime provinces but for the last twelve years has been handling the automobile business and six years ago the carriage business was sold out. W. J. McAlary, the present manager, who has held that office for fourteen years has been with the company for twenty-four years.

MUST PAY TAXES OR GIVE UP CARS

(Canadian Press Despatch)
Sydney, Sept. 20.—Unless their owners pay their arrears in taxes within the next two days, forty-one automobiles owned in Sydney will be seized by Tax Collector Malcolm Mackay. Alderman W. H. Manson, chairman of the finance committee thought it strange that certain citizens were unable to pay their taxes but could afford to ride about in high-powered cars. Then he ordered a survey of the books and today has discovered more than forty cases of this kind. The order to seize the cars followed.

HON. J. H. KING SUMMONED BACK TO THE CAPITAL

(Canadian Press Despatch)
Vancouver, B. C., Sept. 20.—Hon. J. H. King, federal minister of public works, who is in the province on departmental business, was in receipt of a telegram today from Premier King recalling him to Ottawa. He will leave for the east tomorrow morning. Hon. Dr. King had planned to remain in British Columbia until the end of the month. While refusing to divulge the contents of the telegram from the premier, Hon. Dr. King intimated that it was of such a nature that he felt it his duty to return to Ottawa immediately. It is expected here that Ottawa is in receipt of information bearing on the Near East situation from London that requires early action by the Canadian government.

D. C. Clark, West St. John, accompanied by his daughter, Miss Ella, and Miss Bertha Estabrooks, arrived home yesterday from Fairbanks, Alaska, where he had spent some time. Mr. Clark left St. John on June 28 and saw Alaska at its best. His brother, Frank Clark, well known here, is a prosperous merchant at Fairbanks. He went to the country while the gold rush of '98 was on, and after the greatest activity in mining was past went into the drug business. This was the first meeting of the brothers in twenty-two years.

BIG TREAT FOR CHILDREN BY MR. O'CONNELL

The orphans of this city are to be the guests of J. D. O'Connell at the Imperial Theatre on Friday afternoon, and he is preparing the usual treat of candy, peanuts and such like for them. Mr. O'Connell decided yesterday to hold this special entertainment for the benefit of the orphans, as he said that he had not held his usual picnic here this year owing to the fact that the date that he had arranged for was taken up with another picnic for the orphans given by C. Tilley, and he could not stay then as his schedule was filled for several weeks.

Yesterday, Mr. O'Connell said, he learned that not all the orphans in the city had been invited to the other picnic, and he at once decided that he would have some kind of a treat for them. He postponed his trip to Bangor, where he intended to give a picnic on Saturday, until the first of the week, and made arrangements with the management of the Imperial Theatre to have all the orphans invited to the second show on Friday afternoon, where, in addition to the regular run of pictures, a 1,000 feet of films showing an O'Connell picnic held in this city two years ago, and another held in Sussex during the same summer, will be displayed to the children. In addition, Mr. O'Connell will be busy today filling bags with good things for distribution at the theatre.

The time for arranging the affair is so short, Mr. O'Connell said last night, that he would not be able to secure automobiles to carry the children from the various orphanages to the theatre. He declared, however, that the children from all the institutions in the city could

Vacuette Suction Cleaner

easily walk, and he thought that those in charge of the orphanage on the West Side and the one at Silver Falls should be able to procure machines from interested parties to bring the children to those institutions to the theatre.

She found again the glow and sparkle of perfect health

Sparkling eyes—vivid coloring—that charm of personality which fairly radiates from a superbly healthy body—

Why do so many women who could possess these natural powers let them slip by?

Health and vigor are normal, not exceptional. Thousands lose them because they neglect the body's two most vital needs:

—Building up the worn-down tissues from day to day.

—Removing daily the poisonous waste.

The fresh, living yeast plant in Fleischmann's Yeast cake contains a natural food—with the very elements which help the body perform these two vital functions.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"—not dried or "killed." Fleischmann's Yeast is the highest grade living yeast—always fresh. It is not a medicine, it is a natural food. It helps to "tone" up the whole system and assures regular daily elimination. Results cannot be expected unless it is eaten regularly.

Everywhere physicians and hospitals are prescribing Fleischmann's Yeast to correct constipation, skin disorders and to restore appetite and digestion.

"And now I never need laxatives"

A business girl writes that the extra work of a busy summer had exhausted her. "I was run down and badly constipated," she says, "and had one boil after another."

For several months she added 2 to 3 cakes of Fleischmann's Yeast to her diet every day, "the boils disappeared after the first week and now I never need laxatives."

Eat two or three cakes a day regularly—plain, or spread on crackers, or mixed with water or milk. If you prefer, get six cakes at a time. They will keep in a cool, dry place for two or three days. Begin at once to know what real health means. Be sure you get Fleischmann's Yeast.

GOOD HEALTH WEEK OCT. 23

The week of Oct. 23-30 has been set aside by a large merchandising group as a period for national emphasis on health, especially as it may be interpreted as dependent upon ventilation, sanitation and personal hygiene and as it may be

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Hardy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture or Monopoli of the Bayer Company. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Use Cuticura and Have Lustrous Hair

Regular shampoos with Cuticura Soap will keep your scalp clean and healthy. Before shampooing touch spots of dandruff and itching, if any, with Cuticura Ointment. A healthy scalp means thick, glossy hair.

Soap 25¢. Ointment 25¢ and 50¢. Taken 25¢. Sold throughout the Dominion. Canadian Depot: Cross, Limited, 244 St. Paul St., W., Montreal.
