CARPENTER TO BOX IN ST. JOHN

Imperial's Refined Society Drama, "The Wonder Man," Has Four Whirlwind Rounds Monday.

Georgia Carpenter (pronounced Carpen-thay), the great French war hero, gentleman heavy-weight boxer and the only man who stands between Dempsey and the coveted world's title, will fight four whirlwind rounds with Heavy-weight Bob Barrett of United States as a grand climax to the brilliant and wondrously staged social-political drama "The Wonder Man" at Imperial Theatre Monday.

It will not be a case of introducing a "duh" actor into a story for the sake of his athletic prowess for Carpenter is a finished actor, a handsome dandy, a fellow who wears a dress suit like a tailor's model and smiles the smile of a trained courtier. His dramatic fire is second only to his physical punch and as the engrossing story works up to a high pitch the sensational bout in the ring (no parlor stuff about this) brings watchers to their feet with sporting enthusiasm.

Since Mon. Carpenter—France's medal-bedecked hero aviator—made this wonderful picture for the Robertson-Cole Corporation of New York, he has been thrust more conspicuously into the eye of the world as a challenger for the pugilistic preeminence of the world. In fact he will sign articles in a very few days, sport demonstrated by clean-jiving gentlemen, will have the extraordinary opportunity of seeking the possible future champion in action.

"Reckless Eve," a miniature musical comedy, scored a hit in the Opera House last evening. The bright, beautiful stage, a pleasing plot, plenty of catchy musical numbers, a pretty and strong singing chorus, and a general amount of comedy throughout. The scenic effects, the magnificent costumes of the lady members of the cast, and the musical renditions won commendation from all. It is one of the brightest hits presented in action here.

While the work of the entire cast was good that of Cecil Sumner, Jack West, Florence Warren and Edva Eddy was outstanding. The cast and musical numbers follow:

WARM YOUR BLOOD.

A poet has said that "the owl for all his feathers was a cold." Some people for all their wraps are a-cold whenever they go out-doors even in normal winter weather.

It is plain they need the warmth there is in pure, rich, red blood, which reaches through artery and vein, from head to foot, all over the body. They could be told by many people, from experience, to have this good blood they should take Hood's Sarsaparilla. This great medicine has really made it possible for men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens the system, and its benefits are as lasting as those of any tonic possibly can.

If there is biliousness or constipation, which often occurs as a result of the purifying effect of cold, Hood's Pills are perfect. They are perfectly compatible with Hood's Sarsaparilla, and are gentle and thorough.

LANDIS SENDS CLERK HOME AND CRITICIZES BANK

Chicago, Feb. 12.—After pleading guilty of embezzling \$96,600 from the National City Bank of Chicago, Ill., Francis J. Carey, 20, former receiving teller of the bank, yesterday was released on his own recognizance by Federal Judge Landis, who criticized officials of the bank for the small salary paid the defendant.

When Carey said his pay was \$90 a month, Judge Landis exclaimed: "This is astounding. It puts the responsibility on the directors of the bank. You were not getting any more than the elevator operators in the Federal building and they are notoriously underpaid. Francis you go on home. I'll send for you again."

It is not likely that the Boys' Industrial Home will be moved from St. John, Mayor Schofield told a Times reporter this morning. He said that the D. S. C. R. hospital at Fredericton, which was under consideration, had a capacity of three hundred occupants, and as there were only fifty-one boys in the industrial home here it would hardly pay to take over the whole Fredericton plant.

He said that he had suggested to the commissioners of the general public hospital that they look into the possibility of having the patients from the provincial hospital in Lancaster and the annex thereto transferred to the Fredericton building, and utilize the provincial hospital buildings as an addition to the public hospital equipment here.

The plan was of the opinion that opportunity for expansion of the general public hospital in its present location was limited. While the arrangement suggested was quite an undertaking, he thought it was worthy of consideration, particularly on account of the fact that before long the D. S. C. R. hospital in Fredericton will be unoccupied.
