Elgin—
The Spirit of Reconstruction

Accuracy

EVEN on time again! This working to Elgin schedule is certainly all right. I wonder why more Canadian industries don't work to schedule? They would get better results all along the line.

The greatest essential in modern business is—Accuracy. Speed without accuracy is wasted effort, wasted money and wasted time. Our Reconstruction problems demand increased production—and in production accuracy is vital.

The Elgin which stood as the symbol of accuracy—directing the dash of the charge, timing mighty barrages and synchronizing the movement of the stupendous Allied War Machine—should be our guide to-day.

Work to schedule, accurately and efficiently—to the tick of the Elgin.

Accurate time makes possible working to schedule. Working to schedule guarantees greater production. Depend on the Elgin as the register of your schedule. It will serve as accurately and as efficiently in Peace as it did in War.

There is a jeweler in your vicinity who is equipped to help you safeguard your Time.

Agreeable to Everybody

Ivory Soap has every quality you can wish for in a toilet and bath soap. It is pure. It is mild. It is white. It floats. Its perfume is the natural fragrance of pure, high grade materials.

Ivory is everything that a soap can be because it is nothing but pure soap, non-injurious and thoroughly cleansing. It isn't possible to make a better or more universally likeable soap.
