

# Threw Away \$100

Eugene Queneau, of Montreal, was suffering from kidney trouble and had suffered for five years. This is his letter:

"I could not sleep nights and on some occasions could hardly walk. I had been treated by some of our best physicians but without relief. I lost over 15 pounds and was very weak, and friends who knew me before were astonished. One day I met one of our leading hotelkeepers who had been cured by your famous Gin Pills. He advised me to try them. I bought two boxes and before I had used one box I felt a big change. Before I finished the second one I was completely cured, and I can assure you if I had only known what I know now, I would not have spent one hundred dollars for nothing—when two boxes of Gin Pills cured me."

Gin Pills are the finest preparation for kidney and bladder trouble ever produced. At the first warning of pain in back or side, get Gin Pills. They work like magic, reducing congestion, soothing, inflamed, enervated tissues, building them into normal and active condition and relieving pain. At all drug stores and dealers. 50c. Money refunded if not satisfied. Free sample on request.

## WOMEN AND INSURANCE.

To the Editor of the Times:—Sir, My attention has been drawn to an article which appeared in your paper, also the September issue of the Economist, re an address by Nellie L. McClung at the Life Underwriters' Convention recently held at Calgary, Alta.

She said in part: "The Insurance Companies do not want to insure women. They frankly tell you why. To them womanhood is a disease." Also, "The insurance risk need only to be healthy and of the male sex, to enjoy all the protection and privileges."

The above is equivalent to saying that the life insurance companies discriminate between male and female. Some companies may do so, but for the information of the public, and the women particularly, I wish to state that one of the oldest standard outline life insurance companies doing business, makes no discrimination between male and female regarding "equal rates for men and women," but grant absolutely the same privileges to both men and women.

It was very much surprised that the insurance men (?) at that convention did not put Mrs. McClung who is a woman, to the test.

Trusting you will kindly insert this article in your next issue, and thanking you for your valuable space.

Yours truly,  
A. J. MACHIN, Manager,  
Union Mutual Life Ins. Co.,  
St. John, N. B., Oct. 23, 1919.

Dr. C. S. Elliott,

## Whatever You Do Don't Neglect Your Eyes, Says Dr. Lewis, Who Tells How to Strengthen Eyesight 50% in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa.—Do you wear glasses? Are you a victim of eye strain or other eye weakness? Do you feel that you are losing your eyesight? Dr. Lewis has a real hope for you. He says neglect causes more eye trouble than any other cause. He says that many of those who are losing their eyesight are doing so because they are not using the principle of this wonderful free prescription. One man says after trying it: "I was almost blind, could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night my eyes do not burn and I feel fine. I feel fine. It was like a miracle to me." A lady who used it says: "The eye trouble seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can now read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of

## LONDON IN THE DAYS OF THE GREAT RAILWAY STRIKE

(Continued from page 11.)  
The general aspect of the transport workers of the country. And only by this process of starvation could "direct action" be successful. The bubble has been pricked.

London Street Scenes.  
It must be difficult for people overseas to form any conception of the scenes in and about London while the strike was in progress. Those who were privileged to visit the battlefields in France while the war was in progress marvelled greatly at the manner in which the British army was provided with all its needs. It was a matter of a few days, but in a few hours the roads were covered with lorries and transport columns, for some two or three million souls had to be fed.
