GETS A LIFE JOB

Barbers Fittingly Recognize Services of Their Retiring Secretary, W. E. Klapetzky.

At the opening of the Journeyman Barbers' International Union in London, Ky., President John Young, of Local 45, took the chair and in a few well-chosen words, introduced Mayor Charles G. Granger, of Louisville, who welcomed the delegates assembled in a manner which brought forth hearty applause. A handsome gavel was then presented to General President Frank X. Noshong, who called the congeving to order.

After the appointment of the committee on credentials, a solemn and impressive memorial service was held in honor of deceased members of the union.

Many changes were made in the constitution. Weekly sick benefits were extended, and the death benefits raised according to the length of membership in the union.

A donation of \$500 was given to the Western Federation of Miners to assist them in their Colorado fight. The American shaving soap was placed on the unfair list. An important change made was that of holding conventions every five years, instead of triennially, before, therefore, and Milwaukee, Wis., was selected as the place for holding the next convention, which will convene on the first Tuesday in October, 1910.

United effort and fraternal assistance have shown marked effect in the growth and development of the organization since the previous convention held in Saginaw three years ago which was attended by 151 delegates, representing a total membership of 10,185. The Louisville convention was attended by 465 delegates, and there are now 23,386 members, an increase of more than 100 per cent. The bond of the general secretary and treasurer was increased to \$10,000. Officers were elected as follows:

General President—F. X. Noshong, Albany, N.Y.

Vice Presidents—First, T. M. Leahy, Portland, Ore.; second, John Young, Louisville, Ky.; third, Edw. N. Connelly, St. Thomas, Ont.; fourth, J. J. Delaney, Northampton, Mass.

General Secretary and Treasurer—Jacob Fisher, Anderson, Ind.

General Organizer—Wm. Hubbell, Cleveland, O.

Delegates to the American Federation of Labor—W. E. Klapetzky, Indianapolis; F. X. Noshong, Albany; J. C. Shanahan, St. Louis, Mo.; George H. Smith, Oakland, Cal.

The retiring secretary-treasurer, W. E. Klapetzky, who has been in active service for 15 years, and having resigned, was voted a life member of the A. I. U. of A. and elected as managing editor of the Journeyman Barber, the official organ of the union.

Resolutions were adopted extending the thanks of the convention to Hon. Chas. H. Granger, Mayor of Louisville, and to Barbers' Union No. 45, of that city, for their good will and kind hospitality shown the convention. A general good time was had, the Louisville barbers doing their utmost to make it pleasant for the delegates and visiting brothers. A grand banquet and ball, smoker and social were indulged in, and as the brothers departed for their respective homes, each cherished the memory of the good time enjoyed amid the hospitality of the South.

So far as the outcome of the present contest is concerned, it is just about over at the present writing. The great majority of the electors have made up their minds as to whom they will record their votes. All the advice which this or any other paper may give will have but little effect upon the general result. We would just like to announce, however, that regardless of how the vote may turn out, the question of public ownership will still be a live issue, and the next attempt to get a pronouncement upon the question will be decided without caring with it the defeat of a strong government.

The Council, at the request of the Northwest Taxpayers' Association, endorsed the by-law to provide for the Lansdowne subway. The subway is in the interests of the people in that section of the city, and the delegates were unanimous in deciding to throw in their influence to have this by-law passed.

The Labor Temple report was, as usual, of interest to the delegates, and the interest is still at fever heat.

The Metal Trades Section have decided to hold their meetings in the Labor Temple after December 1st.

The Label Section report dealt with the question of labels on the bread, and the action of the master bakers in re-

suming to handle the union label. The bakers ask that union men at all times demand the label upon the bread they use.

The Cigarmakers asked unions to keep their eyes open for the two large labels on the market, viz., the light green one and the yellow one; both labels are unfair.

The Woodworkers asked the Barbers to use their influence with their employers to have them use other chairs than those manufactured by Jones Brothers, because they are not paying the wages and working the hours asked for by the manufacturer.

The Legitimates Committee's report was presented dealing with the immigration question, and condemned the policy of assisted immigration.

The Political Action Committee reported that the labor can be organized under a separate and distinct title, that of the Canadian Labor League, and it is going to start right away to organize the workers for future elections.

THE \$500 DEPOSIT.

Editor Toiler—Allow me through the columns of your paper to call the attention of your readers to an unfair discrimination in the Dominion Election Act in favor of the old political parties, thereby making them the nervousness of candidates.

Let us demand every candidate for House of Commons to deposit a sum of two hundred dollars on nomination day, and unless such candidate receives half the number of votes of the elected candidate, he forfeits his deposit.

It does not take much intelligence to see that the result bars out all new parties and principles held by them.

There are a number of people who have no opportunity to vote for their principles, such as temperance, labor, socialism, or single tax, but must vote

THE TOILER

for candidates who are foisted on them by the party machines, and the mass of the electorate has no option in the matter.

Why should people like Free Canadians be barred on their from voting for principles dear to them, and have to submit to the political tricksters and their candidates of the old parties?

The act should be amended, so that all parties (not individuals) with avowed principles might have a candidate for the House of Commons without making the sacrifice of \$200 in order to express their opinion on election day.

I would suggest that it is better to prevent a multitude of individual candidates representing no parties, than that they should obtain at least five per cent. of the bona fide electors of the constituency on a petition before their names could be placed on the ballot paper.

John Gibbons.

INDUSTRIAL REFORM

(By a Workingman)

OUR UNPOPULAR SLOGAN.

Editor Toiler—Allow me through the columns of your paper to call the attention of your readers to an unfair discrimination in the Dominion Election Act in favor of the old political parties, thereby making them the nervousness of candidates.

THE POPULAR SLOGAN TO-DAY.

The products of the labor of the toilers for the capitalists, as small a wage as possible for the toilers. Political economy.

ONE IS YOUR MASTER.

I am waiting, calmly waiting. For the message clear and plain That my Master wants me to serve To profit humanity, in His Name.

As I'm waiting and I listen, I can hear the sweet refrain, Christ to earth His Kingdom brought us, And o'er our hearts Christ's peace shall reign.

I am waiting, calmly waiting.

Trusting, Faith in His Name, That man on earth will live as brothers, And in their hearts Christ's peace shall reign.

THE KINGDOM.

I listened to a sermon the other day on the "Kingdom of God is Within You," and I thought of what King does it. It consists of men thoughts. God my Father, an every man is my brother. When these two thoughts are applied to our industrial affairs, we will witness the greatest industrial reformation the world has ever seen.

HOW TO APPLY.

How to apply Christ's command standard of "Love thy neighbor as thyself" to our industrial affairs is the work for Christians in this, the twentieth century.

CHRISTIAN ECONOMY

Is two-fold—that which pertains to God and heaven, and that which pertains to humanity and this world.

OF ALL THE BOOKS

That have been written on all the various subjects that have engaged the minds of men, it does not as yet seem to have reached the mind of the followers of Christ that we need today an economy for humanity based on Christian principles.

THE SEVEN STEPS.

Toward industrial freedom that the following are taking:

Labor Temple, Economic, Labor Legislative League, Labor Unions, Labor Paper, Labor Industries, Labor Cabinet.

When the above have been established in all the provinces and to our Dominion, then the toilers will be nearer the time when we can celebrate industrial freedom than we are now.

THE COMING LARGER VISION

For trades unionists will be when its members turn their attention towards establishing industries governed by the principle of "the products of the labor of the toilers for the toilers."

RESULTS.

It is by the results produced that we must judge any great enterprise, and we must admit, for the energy, money and time expended by the trades union movement, that the results have not been as great as they could be.

AND WHY?

Because to a large degree it is misguided by concentrating their forces to make the wealthy owners of our great industrial institutions adopt principles which are the very opposite to those on which our present industrial system is founded.

PROFIT.

Our present industrial institutions are run on the principle of making a profit out of the toilers and the consumers.

WHEN THE FACTORY WHISTLE BLOWS.

In the interest of humanity, you will have entered on a great industrial reform. The benefit of such a change as living man with his finite mind can measure.

HOW SIMPLE.

When men can once see it, they will see how simple it is, when factories run to make clothes for humanity, when our soldiers grow food for humanity, when our miners dig coal to warm humanity, when our telephones, telegraphs and postal service are run for humanity. We will see that to do this is as far in advance of running them to-day as for a profit as the locomotive is in advance of the stagecoach.

ONLY THUS.

For further information address J. W. HARMON, Secretary, 58 Laplace Ave., Toronto.

It just means only this: By man on

A Union Store with Union-Made Clothing

Gough Bros. sympathies are with Trade Unions, hence we carry the best Union-Made Clothing, and employ none but courteous and gentlemanly Union Salesmen, who are heart and soul with their Union brothers.
