Paris in a Turmoil All Day Sunday -Many Wounded in Free Fights

Mounted Guards and Police Patrolling Part of the C.ty-Many Arrests Made.

Paris, Oct. 3.-Revisionists and antirevisionists seem to be spoiling for a fight. Captain Dreyfus, whether guilty innocent, has certainly caused a vertable cyclone of passion to be let loose. Paris was in a turmoil all Sunday. crowds, scuffle, uproar and arrests was the programme of the last 24 hours. At midnight the mounted republican guard were patrolling certain parts of the city and all of the police were on the alert, About a score of people are said to have been seriously wounded in the various free fights which have broken the ous free lights with the parisian Sunday. In one quarter alone over 40 arrests have been made. Of these 13 have been kept and e others liberated.
Among the latter is Francis De Pre-

Among the latter is Francis De Presenze, one of the first authorities on foreign politics in France and a leading writer of the Temps. With him were arrested M. Ernest Vaughan, director of the Aurore, and M. Mohardt, another of the Temps editorial staff. All three were to have addressed a meeting in favor of revision in the Dreyfus case. This manifestation was announced to be held in the Salle Wagram.

"We have now one of the greatest railways on the continent in point of safety and comfort. Since the line was opined for traffic between Winnipeg and North Bay we have spent nearly \$11,000,000 in making the roadbed permanent, and we are well satisfied with the roadbed. Travellers often wonder where we get all the money to spend in these improvements along the north shore. They see \$50,000 going in at one point, \$100,000 at another; and no traffic along the way to help us out. It is like maintaining a bridge 1,200 miles long. That is a point overlooked by the people of the Northwest. There is a great nathe Northwest. There is a great na-tional highway to keep up to a high standard, but we are pleased to be in a position to say that we are now getting some help in the way of traffic points where we received no return in the past.
