Noes-the mayor, Ald. Cameron, Hayward, Humphrey, Ald. Brydon then moved as an amendment \$300,000, but Ald, Beckwith consulted with Messrs. Belyea and Renouf, and returning to his seat moved that the committee rise. This would have disposed of the by-law but Ald. Beckwith found no one to vote with him and was in a minority of one. Finally, before any other amendment

> again, was carried and the council adjourned at 10:50. A SURE CURE FOR CROUP.

The first indication of croup is hoarse-ness, and in a child subject to that dis-ease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it twenty-five years' constant use without a failure. For sale by Henderson Bres., Wholesale Agents, Victoria and Van-

VICTORIA TIMES, FRIDAL, DECEMBER 29, 1899.

Outlook a Very Promising One in the klondike District.

The provide second state and the second and the second second second second second second second second second

Will Be Better the Next Two or Three Years Than Ever.

Contraction of the second

According to J, H, Emery, a late arrival from Dawson, there is no inducement in Dawson for men who are looking for labor. The matter has gone so far that some who want to earn a stake have surned their backs on the Klondike and arc-mushing out to the extension of the White lass & Yukon railroad, where they hope to find work.

to find work. I have interests in the Klondike, owning 23 helviv discovery on the left limit of Honanza, and can say from extensive ab-servations and injulries and prospecting that the country will be better the next two or three years than ever. The highlands along the richest creeks which for a time were supposed to be no-thing but elevated uscless heaps of old mother earth are now proving to be valu-nble, and chains that would be prized by ansance are stated those. It access that anyone are stated there. It seems that old creeks and river channels which long are rolled their waters to the Yukon. crossed and recrossed the highlands, and that their beds are row the resting places of rich anriferous deposits. These old channels are 150 to 250 feet wide, and overlook the present creek bottoms. A chemist who has assayed the hedrock on some of these old channels has found that the very rock carries gold. Some of this bedrock from a place on the left limit of Bonanza ran as high as \$100 to the ton, the bedrock from the beds is peculiar.

It is soft at first, almost like a clay. The
