

NOTICE TO SUBSCRIBERS.

When ordering the address of your WEEKLY SUN to be changed, send the NAME of the POST OFFICE to which the paper is going as well as that of the office to which you wish it sent.

Remember! The NAME of the Post Office must be sent in all cases to ensure prompt compliance with your request.

TO CORRESPONDENTS.

Correspondents are requested to keep their news letters down to the smallest possible limit during the session of Parliament.

CITY NEWS.

The Chief Events of the Week in St. John.

Together with Country Items from Correspondents and Exchanges.

A FOX visited the barn of A. W. Johnson at St. John, N. B., a few nights ago, and killed four chickens.

SOME of the finest beef seen in the country market for a long time is to be found in the stall of Thos. Dean. It was raised by John H. Smith of Port Lawrence, N. S.

EXCURSION TO GAGETOWN. — Dominion Lodge, No. 141, L. O. A., will hold an excursion to Gagetown on July 12th. An effort will be made by members of the lodge to give all attending a good time.

RAILWAY SUMMER TIME TABLES. — The summer time table of the Intercolonial railway went into effect on Monday last, and, as previously stated, the running of trains will be the same as last year. The night express for Halifax will not put on until Monday, July 2nd, as the Canadian Pacific does not put on the Flying Yankee from Boston until that day.

THE WHARF AT WILLIAMS' LANDING. St. John river, is now being repaired by Mill & Appleby. The residents think the marine department should improve this opportunity to place the light house on a safe basis, a permanent job being cheaper than repeated repairs, the light having been already twice carried away.

FIRE ON ADELIADE ROAD. — A house and barn, owned and occupied by John Hancock on Adelaide road, were burned Friday afternoon. It is not known how the fire originated, but the supposition is that a defective fuse was the direct cause of it. The furniture was nearly all saved. The barn contained only one cow. The house was looted before the fire reached her. The buildings were partially insured.

AFTER LONG SUFFERING. — The death took place Friday of Alfred L. Bonnell of Sutton, who was severely injured some two years ago by being thrown from a carriage, his horse having been frightened by Dr. Walker's dog. The effects of that accident Mr. Bonnell suffered long and severely. A wife and seven children are left to mourn the loss of a loving husband and affectionate father.

INFORMATION WANTED. — Michael Landry of Upper Pocomoke, Gloucester Co., is anxious to hear from any one who can tell him whether the Michael Landry who was recently drowned near Port George was from Gloucester Co. A young man of that name left Pocomoke a few years ago for Philadelphia, where he remained until this spring, when he wrote home that he was about to be married, but did not tell where he intended going.

IT BROUGHT THE CHIMNEY DOWN. — The huge chimney of the mill blown up at South Bay some years ago has been standing solitary there ever since. A young man of that name left Pocomoke a few years ago for Philadelphia, where he remained until this spring, when he wrote home that he was about to be married, but did not tell where he intended going.

C. M. B. A. GRAND COUNCIL. — The C. M. B. A. Grand Council of Canada will meet in this city on August 21st. The grand council will bring into the city altogether in the vicinity of about five hundred visitors representing the North West Territories, British Columbia, Manitoba, Ontario, Quebec, and the maritime provinces. The sessions of the grand council will extend over three days. The two branches of the association in this city, assisted by the one at Miramichi, have had committees at work for some weeks arranging a programme of an entertainment. The visitors will include distinguished archbishops, bishops and members of the Catholic hierarchy throughout Canada.

REFUSED TO SUPPORT HER. — Information was made at the police court on Saturday by Nellie Dunham, the seventeen year old wife of Samuel Dunham, charging him with refusing to support her. It is said that the young woman, who has a child some four months of age, has not had sufficient to eat and that she has been neglected by her husband for some time. Her health, according to her own statement, has been endangered by her husband's neglect of her. Dunham, who is a blacksmith by trade, was arrested. He says he is willing to care for his wife, but that he does not feel like supporting her mother too. The young woman is staying with her mother at present.

WEDDING BELLS. — There was a quiet wedding at Fairville on the 20th inst. assisted by the Rev. Dr. MacKay and Miss Annie Metcalfe. The ceremony was performed by the Rev. John Shenton of Queen street Methodist church, at the residence of Geo. Barzillai. The bride and groom were present.

The bride is a lady well known in St. John and very popular with her many friends. The groom is a member of the legal firm of MacKay, Barzillai & Chapman. The happy couple left at night on a trip through the north provinces. The Sun joins in the congratulations.

The residence of John MacKay, Delhi street, was the scene of a pleasant event that evening, when the daughter, Miss Jennie MacKay, was united in marriage with William H. Arnold of the Stanley College, York county. Rev. W. O. Ray, a most successful and popular clergyman, officiated at the ceremony in presence of quite a number of relatives of the contracting parties. The bride received many handsome presents, including a fine parlor lamp and a silver berry spoon from the choir of St. Mary's church.

THE FURNACE LINE Halifax City, Capt. Harrison arrived Sunday afternoon from London via Halifax. She has a large cargo for this port, which will be discharged at the Pottsville pier.

A new automatic whistling buoy was put down at Pottsville Levee Friday by the steamer Lansdowne. The old one was completely played out.

The corner stone of the new Methodist church at Harland, N. B., will be laid with appropriate ceremony on July 11th. Rev. Dr. Wilson, accompanied by several other Methodist clergymen in St. John, will assist in the exercises.

JEFFRIES' CORNER. — The new cheese factory which was opened a few weeks ago at Jeffries' Corner, Kings county, is receiving on an average 3,000 pounds of milk daily. A number of the farmers will drop in gradually. Those who are now patronizing it are highly pleased with the new venture.

TO BUILD A NEW CHURCH. — The members of Main Street Baptist church have decided to build a new edifice. The old one, which either be torn down or removed back and used as a hall. The new building that is proposed will be 80x100 feet. This church is in the vicinity of 800 members now, and they have decided that the new church shall not only be a credit to the congregation, but to that portion of the city.

ST. GEORGE. — John O'Brien, James Boggs, J. Stinson Clark and others are applying for incorporation as the St. George Electric, Light and Power Co., the object being to supply the village of St. George and neighborhood with electric light and power. The head offices of the company will be at St. George.

THE JOGGINS MINES' STRIKE. — The difficulty between the management of the Joggins mines and the miners continues. No work has been done since last Tuesday. The management declare that they will not give in. The horses have been taken out of the pits, and apparently all arrangements made for a suspension of operations for a long time.

BANK OF NOVA SCOTIA CHANGES. — Several changes have been made in the staff of the Bank of Nova Scotia. There will be new managers in St. John, Fredericton and Woodstock. T. B. Blair of Fredericton takes the place of Mr. Hunt at Woodstock. Mr. Hunt has gone to Jamaica, and Mr. Savert, formerly agent at Moncton, but recently in Kingston, Jamaica, will assume the management at Fredericton.

ARRESTED FOR INDECENT ACTIONS. — Capt. Jenkins and Detective King have been for some days watching John A. Phillips, whose actions on Union street had been most reprehensible to the chief of police as most indecent. On Saturday night Phillips was arrested by the officers as he was standing in an alley off the street. Phillips, who is about 45 years of age, is said to belong to Nova Scotia, but he has resided here for some years. He deposited \$50 with the police and was allowed to go.

BAY OF FUNDY FISHERIES. — The New York Fishing Gazette of last week contains a three page article from the St. John correspondent of that excellent journal, describing in a very comprehensive manner the fisheries of the Bay of Fundy — the various kinds of fish, how and when taken, how they are marketed, besides containing a large amount of general information relative to this great industry. The Fishing Gazette is published weekly at 317 Broadway, New York, by G. E. Jennings & Co., the editor being the veteran Joseph W. Collins.

DONOR BROS' MILL AT GRAND BAY. — Donor Bros' steam mill at Grand Bay is giving employment to over sixty men and boys. They began operations on May 1st. The building is 60x150 feet. They have a gang saw and out on an average 60,000 feet of lumber per day. Their lathe machine is running at about 40,000 daily. A young man of that name left Pocomoke a few years ago for Philadelphia, where he remained until this spring, when he wrote home that he was about to be married, but did not tell where he intended going.

A SERIOUS ACCIDENT. — Patrick McGoldrick, one of the oldest and most respected citizens of the North End, met with a very serious accident on Saturday. He was driving up Main street when his horse, frightened by an electric car, shied. The carriage collided with the express wagon of H. W. Baxter & Co. and Mr. McGoldrick was thrown to the pavement with great violence. When picked up he was found to be so badly injured that he had to be sent home in a coach. He is suffering intense pain from injuries about the body, but it is hoped he will be all right again in a few days. Both wagons were considerably damaged.

BURGLARY AT THE I. C. R. DEPOT. — Two vans owned by the I. C. R., and which are allowed to remain in the yard near the depot, were on Friday night broken into and two or three coats and hats or trunks and pants taken. The cars are used by the employees of the railway to contain their wearing clothes, and at times their supplies are placed in them. It is quite the most serious of the kind ever known in this city. A key was used by the person who obtained an entrance into the cars, and it is also quite evident that the person was pretty familiar with the general arrangements. A window of one of the cars was found open, but it is thought this was allowed to remain so as a bluff.

A SAILOR KILLED BY A FALL. — Thomas Roddy, one of the crew of the ship Fairview, was killed on board the vessel on Saturday morning. She was at anchor at the Island at the time, and Roddy started up the ladder of the wheel strain, his foot catching in the wheel strain, him knocking him off the ladder down into the hold of the vessel. His death was instantaneous, the body being terribly cut up. Roddy represented himself to Capt. Danahy as a St. John man, but the captain does not believe that he belonged to this city. The deceased was about 27 years of age.

THE C. P. R. and the B. O. Flood. — One of the Sun's subscribers at Kamloops, British Columbia, in renewing his subscription, sends the following under date of May 31st:

"We are having very high water in the Thompsons at the Fraser river, the highest for many years. The C. P. R. has suffered very heavy loss in the way of washouts, bridges carried away and serious delay of trains. The difficulty is along the Fraser river, below Yale about 80 or 90 miles. Every officer and every employee of the company is doing his utmost for the comfort and safety of their passengers, who in turn are not at all satisfied in their present mode of treatment of them. Owing to the care and intelligence exercised by the C. P. R. and its officers, no life has been lost, nor has there been any serious delay. Indeed, this line has been remarkable for the exemption from wrecks or other accidents ever since its construction."

FREDERICTON SENSATION

Rev. Finlow Alexander, Sub-Dean of the Cathedral.

And Prof. Stockley, of the University, to Join the Catholic Church.

FREDERICTON, June 19. — Rev. Finlow Alexander, who for years has been the trusted sub-dean of Christ Church Cathedral here, has left the Church of England and will join the Roman Catholic church here. Mr. Alexander was formally suspended as a clergyman of the Episcopal church and his authority as such entirely null and void. In consequence of Mr. Alexander's intention to publicly explain the reasons for his change of views the first opportunity that a parish in Fredericton could not allow this to be done, and has caused his late sub-dean to be summarily suspended, pending further action.

Professor Stockley also severs his connection with the Church of England for the same purpose, but this occasion no surprise, as Prof. Stockley was originally a Catholic, and it is hardly to be wondered at that in that direction. He has resided with Mr. Alexander for the last nine months, and the influence of his strong and vigorous mind upon that of the sub-dean is given as the chief cause of this transference of religious views and principles. Whether this be true or not, it remains that Mr. Alexander has left the Church of England, but the greater part of his clerical life has been spent in Fredericton, where he soon won the esteem of all classes and the love of the poor, to which he was a practical friend as well as a spiritual counsellor. Mr. Alexander is well versed in church music, and a paper which was published a few years ago in the Globe and Courier, and which was written by him, is a religious view. This afternoon at Trinity college, Dublin, is generally admitted to be one of the ablest men who ever held a religious view. This afternoon at Trinity college, Dublin, is generally admitted to be one of the ablest men who ever held a religious view.

FREDERICTON, June 20. — The suspension of Rev. Finlow Alexander, sub-dean of Christ Church cathedral, yesterday afternoon, caused a feeling of discussion about the city today. Everybody is surprised and not a few at first refused to credit the report that Mr. Alexander had been suspended on account of any change in his religious views. This afternoon the report was current that Mr. Alexander had changed his views again and would remain with the Anglican church. In order to get the truth as to the matter, a lady called on the Rev. Mr. Alexander, and lay representation which was in arrears with their assessment to the bishop's stipend. They will be deprived of representation when he is next elected to the position of the synod.

HALEFAX, June 22. — The Anglican synod met today in twenty-sixth annual session. Sixty-six clergies delegates were in attendance, with a proportional number of lay delegates. Bishop Courtney's address took over two hours in delivery. The bishop declared himself strongly in favor of dividing the diocese of Nova Scotia, taking the position that it is too extensive for the oversight of one bishop. He dwelt at length upon the condition of King's college, expressing regret at the action of the governors in seriously proposing to close the college, but he hoped that better counsel would be given to the trustees. He closed the fact that the professors had offered to give up ten per cent of their salaries in order to make a balance expenditure. Bishop Courtney spoke of his pleasure at the prosperity of the church school for girls at Windsor, and took opportunity to express regret that a proposal had been made to close a church school for girls in New Brunswick. "Imitation," he said, "is the sincerest flattery." If church people in New Brunswick did decide, however, to start a school of this kind, he would be glad to see them, but he hoped the proposal would be abandoned in the meantime at least.

At the evening session the synod refused to consider a petition to deprive parishes of the clergy which was presented by the representatives of the synod of the province of the church school for girls at Windsor, and took opportunity to express regret that a proposal had been made to close a church school for girls in New Brunswick. "Imitation," he said, "is the sincerest flattery." If church people in New Brunswick did decide, however, to start a school of this kind, he would be glad to see them, but he hoped the proposal would be abandoned in the meantime at least.

HALEFAX, June 24. — The Anglican synod on Saturday appointed a committee to look into the system of book-keeping in the office of the synod. The clerical secretary and treasurer of the synod.

A committee was appointed to report upon the status of P. E. Island, it having been stated at the meeting that the province does not form part of the Diocese of Nova Scotia and that the Island delegates have no legal standing in the synod. The committee is to report on the position occupied by the Island and suggest what should be done in the matter.

An influential committee was appointed to look into the system of book-keeping in the office of the synod. The clerical secretary and treasurer of the synod.

Moncton contains no small number of individuals who believe that at some time or other vast fortunes enclosed in iron chests are to be dug from the bowels of the earth in this vicinity and disclosed to the covetous eye of man. Consequently it is not an uncommon thing to see and hear tell of various places toiling in the still hours of the night to unearth the riches supposed to be hidden in the manner referred to. Killam's hill, Fox Creek and a number of other spots easily penetrated by the leeches are made the scene of operations, but so far the diggers have been able to carry away all the money found without extra help. Rufus Parsons is said to have a few holes to have unearthed anything at all besides gravel. Mr. Parsons has in his possession samples of metal and a gun barrel, which he claims to have found in one of these money searching expeditions. Rufus, it is said, makes the mineral rod very dexterously, and several times, so eye witnesses say, he has had several narrow escapes from being buried alive through the over-zealousness of the rod to indicate the exact location of the hidden wealth. — [Moncton Times.]

ABOUT PEOPLE AT HOME AND ABROAD. — The many friends of Rev. D. C. Lawson of Westmorland Point, N. B., will regret to hear that owing to continued ill health and mental depression his family have deemed it advisable to send him away for medical treatment. He left by Friday's train for St. John, accompanied by James Dixon. Rev. Mr. Lawson has been preaching in New Brunswick for upwards of fifty years, and during that time has made a host of friends, who will deeply sympathize with him in his ill lot.

James Gilliland, station master at Brownville Junction, came to town Saturday on a brief visit. Count and Countess DeBury and three children left for Europe Monday on an extended tour.

LT. Col. Tucker is whipping the waters of the Tubique. Judge and Mrs. King spent Sunday at Redwood with St. Leonard Valley.

Rev. and Mrs. R. J. Houghton are spending the vacation with her parents, Dr. and Mrs. J. T. Steves.

Edwin Carvell, brother of the late governor of P. E. Island, passed through the city on Saturday en route for home. He had been spending a few months in the north. W. F. Fisher, Mrs. Eio, organist in St. Andrew's church, left the express Saturday night for Montreal, where he will take the steamer for England. Mr. Fisher will be absent about a month.

H. E. Povey, M. P. for York, left last night for England.

SATURDAY'S THUNDER STORM.

St. Andrew's Church and St. Malachi's Hall.

Struck—Trees Blown Down. — At noon on Saturday there was not a cloud in the sky. There was little or no wind and the sun was making pedestrians think seriously about bathing. Between 1

and 2 o'clock heavy dark clouds were seen looming up rapidly from the north. In half an hour they had completely obscured every bit of blue sky, and ominous peals of thunder warned every person that a heavy shower was approaching, and would probably strike the city in a very few minutes. People were seen hurrying along the streets as fast as their legs could carry them, and the bus and cart drivers yelled if possible more loudly than ever and applied the lash with greater dexterity to the sides of their lagging horses. It became quite dark even on the streets, and the electric lights had to be turned on. The peals of thunder grew louder, lightning flashed across the sky, and in less than half an hour from the time the first cloud appeared the rain began falling. For a period of perhaps half an hour the rain fell in sheets, every water pipe was overflowed and the sides of the streets resembled miniature brooks. During the storm lightning struck St. Malachi's hall, partly demolishing the cross upon it. It also made a hole in the roof and scattered the slate upon the sidewalk. An ornamental iron railing on the stairs was broken. A tree on the western side of the old burial ground was blown down.

Adjoining the residence of James S. Gregory at Ladwade was a large number of fine trees. They were very much damaged by the storm, the lilacs being almost burned off the trees. All along the Mahogany road trees were blown down and fences laid low. Telegraph poles were torn up and almost obstructed the road near Mr. Manchester's residence.

Up along the river the hail stones nearly as large as hens' eggs fell heavily. No damage is reported.

ANNUAL SESSION

Of the Church of England Synod of Nova Scotia.

The Bishop Hopes a Church School for Girls will Not Be Started in New Brunswick.

HALEFAX, June 22. — The Church of England synod met today in twenty-sixth annual session. Sixty-six clergies delegates were in attendance, with a proportional number of lay delegates. Bishop Courtney's address took over two hours in delivery. The bishop declared himself strongly in favor of dividing the diocese of Nova Scotia, taking the position that it is too extensive for the oversight of one bishop. He dwelt at length upon the condition of King's college, expressing regret at the action of the governors in seriously proposing to close the college, but he hoped that better counsel would be given to the trustees. He closed the fact that the professors had offered to give up ten per cent of their salaries in order to make a balance expenditure. Bishop Courtney spoke of his pleasure at the prosperity of the church school for girls at Windsor, and took opportunity to express regret that a proposal had been made to close a church school for girls in New Brunswick. "Imitation," he said, "is the sincerest flattery." If church people in New Brunswick did decide, however, to start a school of this kind, he would be glad to see them, but he hoped the proposal would be abandoned in the meantime at least.

H. E. Povey, M. P. for York, left last night for England.

OAK HALL, King street, Corner Germain.

The Big Store.

Grand Manan.

GRAND MANAN, June 22. — There is an unusual amount of house building and weir building going on on this island this summer. A number of nice cottages are now in course of construction, and some are to be commenced soon. A large number of fine herring weirs are now in course of construction, and it is to be hoped that they may meet all the expectations of the fishery.

The stock of smoked herrings is now about cleaned up, and it will take some new fish to start up business again in that line. The line fishermen at North Head are not getting any fish inshore and have to go on the offshore grounds. They find it exceedingly hard to obtain the requisite amount of bait for prosecuting the fishery with. The boats at White Head are taking some pollock now, but it is still rather early for any great success of such fish. Lobster fishing all over the island is played out. Capt. Alf Stanley of North Head got a good fare of fish on the Nova Scotia shore, landing his catch. Dreadful plenty of codfish reported in Dark Harbor pond.

School Inspector Carter came to the island on the 19th inst. and has been making his annual inspecting tour of the schools of the island. Inspector Carter is a high school teacher, and has been in the service of the department for some years. He is a very capable and energetic man, and his visit to the island is a very welcome one. He is a very capable and energetic man, and his visit to the island is a very welcome one.

On the 19th inst. our Normal school students, Robbie Wooster, Staudish Fraser, Roy Carson and Minnie Fraser, returned home. Capt. George Foster's wife is very seriously ill at Grand Harbor. Robert Carson, who is also seriously ill, is not improving at all. On the 20th inst. at the residence of H. Perry at North Head, Turner Ingalls and Mrs. Nettie Parker of Grand Harbor were called to a marriage. We congratulate Mr. and Mrs. Ingalls.

The Parish Sunday school association of Grand Manan held a convention at Woodville Cove on the 23rd inst. Coastwise trade with St. Stephen and St. John seems very fair. A merchant lately remarked to your correspondent that at the rate business was going on here, Marichie of St. Stephen would own half of the island.

Leavitt Newton, of the firm of Newton Bros., will build a fine cottage near his father's residence at Grand Harbor this summer. Fishery Overseer F. J. Martin has an interest in one of the new herring weirs at Two Islands. It is expected to be a fine weir, and will be completed.

Miss Hastie Price, sister of Dr. L. H. Price of North Head, is visiting her brother at North Head. G. E. Newton, Councillor Russell and Sylvester Watt, three of our leading young merchants, were on a business trip to St. John on the 18th and 19th inst.

The hay and root crops here up to date are looking fine, and a good season for hay is expected. People are preparing for the seventh district meeting of the F. O. Baptists that convenes at White Head on July 14th. A fine meeting is looked for and anxiously awaited by F. O. Baptists here.

June 22. — Our schools have closed for the summer vacation. The school flag was flying on the school house at Grand Harbor all day on the 22nd inst. in honor of the visit of Inspector Carter. Mr. Carter is very popular on the island. For several days a heavy electrical tempest, accompanied with heavy showers of rain, which will all be very beneficial to the crops, as, although we have had a long spell of foggy weather, the ground was very dry.

Mrs. Jackson L. Gupitill and her daughter, Miss Pearl Gupitill, have returned from a visit to Quebec, Mr. Gupitill reports that on Captain Alvah Gupitill, as doing nicely now.

SUSSEX NEWS.

The Orangemen Listen to a Sermon from Rev. Mr. Little in Trinity Church.

SUSSEX, June 25. — As previously announced in THE SUN, the members of Admiral Nelson Lodge, Londonderry, and Beaconsfield Lodge of the Loyal Orange Association held a church parade yesterday, being St. John's day. The weather was all that could be desired, and the attendance was very large. In fact it was one of the finest displays of members of the association ever made in Sussex. The country brethren with their friends came in early in the morning, Markhamville and Waterford being well represented. About 10 a. m. the lodge formed in line opposite the Freemasons' hall, in full regalia, headed by Geo. W. Fowler, past grand master of the order, and other officers. A citizens' band, who kindly gave their services gratuitously on the occasion, under the leadership of George W. Warren led the procession to Trinity church, where a special sermon was preached by Rev. Mr. Little from a text found in 17th verse, 2nd chapter, 1st Peter.

At the close of the service the procession returned to their lodge room, the visitors being afterwards entertained by the local brethren at their homes. The church was filled to the utmost by an attentive congregation, and the service was most impressive. It is rumored that Mr. Little will be asked to preach a special sermon at Markhamville in the near future.

Our store is here to sell you just what you want; and if we talk about a particular kind of clothing it is because we have in mind some fact that you do not know about or have forgotten.

Serge suits, for example, are cooler than you'd think, the wind blows through them freely; they look cool; they are cheerful and summery. Will you help brighten up the street?

All this talk is about summer serge. Men's suits, \$5 and \$7.50.

SCOVIL, FRASER, & CO.,

How a Lot of Money Leaks Out.

What does a man do when he finds a hole in the pocket where he carries his money? Anybody can answer that question. He has it sewed up, of course, directly, and good and strong, too. I suppose it is with you just as it is with me. When I spend money, even foolishly, I can tell where it went, and may be I had some sort of pleasure out of it. But I do mortally hate to lose money; lose it out and out, you know, and have no satisfaction from it, or know how or where my life is passing.

Well now, let me show you the worst and biggest hole any man ever had in his pocket; a hole that lets the cash leak away like water through a sieve, a hole that is the hardest in the world to sew up. A short story will show it best.

"Drummers South Cottage, "Muselburgh, near Edinburgh, 1891.

"Gentlemen,—Up about 1885 I was always strong and healthy. About this time I got to feel bad. I was tired, languid, dull, and listless, and everything was a burden to me. I had no desire for company, and what had come over me I could not make out. My tongue and mouth were dry, and I had a deal of phlegm on my stomach. The whites of my eyes next became discolored, and my skin was yellow. I had no appetite, and after eating I had great pain at my chest and sides, also across my stomach. After a time the pain settled in my left side, and my heart would beat and jump in a manner that alarmed me. By-and-by I got so weak that I was not able to go about the house, and I felt that I ought to be in bed. The pains at my side and stomach became so bad that I had to remove my clothing (every thing seemed so tight), and I used to press my stomach and hold my sides to try and ease the pain. Getting worse I saw a doctor at Muselburgh and was under him for three months, but his medicine gave me no relief. After this I went to a clever doctor at Freetown Fane who said I was suffering from indigestion and dyspepsia. He sent me to London for some celebrated medicine which was packed in small phials, and I felt easier for a time, but I gained no strength or real benefit, and after persevering with his treatment for six months, I gave it up and fell into my old state. I next went to a doctor at Muselburgh, but all his medicines did me no good. After this I saw another doctor (that is a fourth doctor) but with the same result; none of them gave me anything that reached my complaint. I now lost all faith in physic, for I had spent a deal of money and taken so much medicine "that I lost all my teeth through it" and was no better for it. In great misery I lingered on month after month, always saying, when I reached my end, "I wish I had a bottle of Selge's Syrup, and I would have been all right."

One day I saw a bottle of Selge's Syrup, and I bought it, and I found some relief from the first bottle, and by the time I had taken four bottles I was well, and strong as ever. I was in my life, and have since kept in good health. I tell every one who Selge's Syrup has done for me. I never thought to get better again, and I consider it has saved my life. (Signed) "J. Watson."

Look back to about the middle of the above letter and again read what the writer says: "I had spent a deal of money for medicine, and I was no better. I wish I had a bottle of Selge's Syrup, and I would have been all right." Yes, and money she could pour by afford to spare. Illness and the expense of illness in the great hole in the pocket that I alluded to. It costs so much, and what does it give us in return? Pain, weariness and misery. There is another consideration besides. When we are ill we not only have to bear the increased outlay, but manage to meet larger demands out of a decreased income. Our candle is burning at both ends. "Yes," you say, "but how can we keep from falling ill?" You cannot always, but in view of the fact that most illnesses arise from indigestion and dyspepsia, a timely use of Mother Selge's Curative Syrup will prevent it. A few shillings thus invested will save pounds in money and perhaps months of wretchedness. Think over the striking points in Mrs. Watson's excellent letter and you will think the same.
