The Furness liner Cundall, Captain Kidd, from West Hatlepool via Falmouth, arrived on Thursday morning. The passage out was by far the worst the steamer ever had. Capt. The steamer rolled and pitch-ed so that he was afraid the funnel would go out of her. It was started and will have to be secured before she starts on her voyage to London, Capt. the wind; it was so strong that it would take one's breath away. On one occasion, finding that his vessel could not face the gale, Capt. Kidd let her drive before it. The Cundall's speed is about ten knots. Driven by the gale, with her engines working the log. Strange to say, she did not sustain any serious injury. A number of things were started and the machinery will require some attention as a result of the boat's rough experi-ence.
