The winter has been a favorable one for lumbering, there being plenty of snow and heavy frosts, and just enough snow on the Miramichi to make lumbering easy.

TORONTO.

Toronto, Feb 27, 1899.

Sir: A large bonfire, about 25 feet high, was made at Bay View on Saturday evening, in honor of our popular and successful M. P. W. Wells, the first Liberal candidate who has broken the Tory record, and led the poll, at this polling booth, the Tory stronghold, since Confederation. Any Liberal might well be proud of their candidate, when they could poll over 4,000 votes in this country, and in the money and man that he of the wealthy Tory firm in Westmorland could successfully bring to bear against them. We thank our Liberal candidates for the honorable way in which they conducted the campaign, each striving to make his colleagues poll as much as himself.

Mr. Foster, we think, will not try to organize another province to fight local politics on dominion issues. The great high priced money and man that he is successful in his organization of this province as he was in Nova Scotia, where he laid Toryism to rest with one blow, never to rise again.

Perhaps the old joker is right, for I think myself we would be better governed if the local legislatures and the municipalities were run with Liberal members.

The Colgate Post uttered a falsehood (which is not such a digression to its general role) when it stated that about two hundred people gathered on Port Eglis bridge to celebrate the election of Messrs. Hamprey and McLaughlin for the municipal celebration and bonfire were in honor of the return of Messrs. Robinson and Wells, who were cheered to the echo. The editor of the Post says that Wells is too good a man to be a grip, but I would tell him the dominion is full of good grips, but the editor is not as well acquainted with them as he is with W. W. who will make himself better acquainted before three years, when perhaps, the Tory name will be forgotten, and the affix to the Liberal will be dropped and we will be one nation of Liberals for the young men are with us, who are the hope of the country.
