

6. So far the work has been purely voluntary & has been supported by a few private friends. But in its scope it is essentially a national work & as such is entitled to receive some help from the Government.

7. I have been closely associated with Mr. Os Meara in the work & with him I have had the honour of interviewing members of the Government of Canada & many influential people in England. I have had ample opportunity to see the zeal, the devotion, the tact & the success with which he has pursued his labours. I beg most respectfully & most earnestly to ask that his application be granted.

I am, Yours most truly,  
L. Norman Tucker, Rector
