DEATH OF A CHILD WHILE ON A VISIT.

A week ago last Friday C. J. Hickey, wife and two small children came to Jamestown from their home in Alleghany, the state of the stat Cattaraugus county, to visit John Durnin and family on Kent street, for a few days. The first of last week both children were taken sick with scarlet fever and Saturday night the youngest, a girl one year old, died. The father took the remains to Allechany Sunday marning and raturned Alleghany Sunday morning and returned in the evening to Jamestown to care for his wife, who is nearly broken down with fatigue and grief, and the remaining child, who is expected to survive the disease.

Mrs. Hickey was formerly well known in Jamestown as Miss Josie Carrol, and is a sister of Mrs. Durnin. Her husband is the supervisor of the town of Alleghany. Mr. and Mrs. Hickey will receive every mark of sympathy from their friends in

Mr. Durnin has four children who have been exposed to the scarlet fever, although f them have yet shown symptoms of the disease, and it is hoped the precau-tions taken will ward off any attacks.

We extend to Mr. and Mrs. Hickey our

heartfelt sympathy in their bereavement. We have received letters from some of our friends asking about the incorporation and separation of the C. M. B. A. in the Dominion of Carada, and Dominion of Canada, and requesting their

letters published.
One writes: "The C. M. B. A. is kindly received by the greater part of the clergy, but they are anxious to see it incorpora-ted here; some think that its being incorted here; some think that its being incor-porated in the States would prevent its being incorporated in Canada, and that it would be necessary to separate from the jurisdiction of the Supreme Council, and become independent; there is no question but that the Branches composing the Can-ada Grand Council are wholly Canadian, the only foreign element in it being the connecting link which requires the moneys ollected in the Branches here to be sent to the Supreme Council, and when a member's family of a Branch in Canada is entitled to a benefit the money comes direct from the headquarters in the

Some feel that there is strength in numbers and would regret separation from the States, on that account as well as for the social advantages to be enjoyed by so great and extended a communication formed by the 120 Branches scattered through the States. But if the Dominion Parliament by an act requires that in order to exist in Canada as a Mutual Benefit Association, that all connections with the States must be severed, then the Grand Council of Canada could assume the duties of a head office and the 1200 or more members in the Dominion would have to depend upon themselves to carry out the mutual interests of the C. M. B. A. here, I am not sure but that it might be better for not sure but that it might be better for us in Canada. Branches would increase faster in many parts of Canada, the clergy generally would give it a more hearty sauction, and in some parts many more would become members than now on account of the stability such incorpora-tion would give it. Besides it would be much less expensive to us in Canada. hope some of our older members w give an expression of their views on this subject. I would take it as a favor that I would take it as a favor that you do not publish my name.

### THE LONDON MUTUAL FIRE IN-SURANCE CO.

This old, well-established company held their annual meeting on Wednesday last, and the report of the Directors appears in another column. We are very glad to observe from the report that last year's business with this company was more prosperous than usual, and this is saying a good deal, for the able management of the company almost since its first start has induced the most happy results. We observe that the company have taken a new departure, and are extending their busi-ness to the Maritime Provinces, having already appointed a number of agents there and intend placing other agencies. We have great pleasure in recommending the company to our friends in the eastern Provinces, and we congratulate them or now being able to procure insurance with a company of the high standing of the "London Mutual" at fair and equitable

the same patronage and confidence that they have for over 25 years enjoyed in Ontario. We repeat that we trust our friends will support the company. The gentlemen on the Board of Directors are from amongst our leading men. James Armstrong Esq., M. P. for S. Middlesex, being the president of the company, while Mr. Macdonald, the manager, and Mr. Vining, the treasurer, have long occu-pled their respective positions with advan-tage to the company Thomas Robertson, tage to the company Thomas Robertson, Esq., M. P. of Shelburne, N. S., has the general supervision of business in the

## A MODERN RESURBICTION.

MIRACLE THAT TOOK PLACE IN OUR MIDST UNKNOWN TO THE PUBLIC—THE DETAILS IN FULL.

[Detroit Free Press.] One of the most remarkable occurrences ever given to the public, which took place here in our midst, has just come to our knowledge and will undoubtedly awaken as much surprise and attract as great at-tention as it has already in newspaper circles. The facts are, briefly, as follows:

circles. The facts are, briens, a young man Mr. William A. Crombie, a young man A. Dismingham, a subformerly residing at Birmingham, a sub-urb of Detroit, and now living at 287 urb of Detroit, and now living at 287
Michigan Avenue in this city, can truthfully say that he has looked into the
future world and yet returned to this.
A representative of this paper has interviewed him upon this important subject
and his experiences are given to the public
for the first time. He said:

"I had been having most peculiar sensations for a long while. My head felt
dull and heavy; my eye sight did not seem
so clear as formerly; my appetite was un-

so clear as formerly; my appetite was un-certain and I was unaccountably tired. It was an effort to arise in the morn-It was an effort to arise in the morning and yet I could not sleep at night My mouth tasted badly, I had a faint all-gone sensition in the pit of my students that food did not satisfy, while to my hands and feet felt cold and clammy. I was nervous and irritable, and lost all enthusiasm. At times my head would seem to whirl and my heart palpitated terribly. I had no energy, no ambition, and I seemed indifferent of the present and thoughtless for the future. I tried to shake the feeling off and persuade my-self it was simply a cold or a little malaria. But it would not go. I was determined not to give up, and so time passed along and all the while I was getting worse. It was about this time that I noticed I had begun to bloat fearfully. My limbs were swollen so that by pressing my fingers upon them deep depressions would be made. My face also began to enlarge, made. My lace also began to charge, and continued to until I could scarcely see out of my eyes. One of my friends, describing my appearance at that time, said: 'It is an animated something, but I had all the a know what.' In this con-

should like to know what.' In this condition I passed several weeks of the greatest agony."
"Finally, one Saturday night, the misery
"Finally, one Saturday night, the misery "Finally, one Saturday night, the misery culminated. Nature could endure no more. I became irrational and apparently insensible. Cold sweat gathered on my forehead; my eyes became glazed and my throat rattled. I seemed to be in another sphere and with other surroundings. I have nothing of what occurred around knew nothing of what occurred around me, although I have since learned it was considered as death by those who stood by. It was to me a quiet state, and yet one of great agony. I was helpless, hopeless and pain was my only companion. I remember trying to see what was beyond me, but the mist before my eyes was too great. I tried to reason, but I had lost all I felt that it was death, and realized how terrible it was. At last the strain upon my mind gave way and all was a blank. How long this continued I do not know, but at last I realized the presence of friends and recognized my mother. I then thought it was earth, but was not

certain. I gradually regained consciousness, however, and the pain lessened. I found that my friends had, during my unconsciousness, been giving me a preparation I had never taken before, and the next day, under the influence of this treatment, the bloating began to disappear and from that time on I steadily improved, until to day I am as well as ever before in my life, have no traces of the terrible acute Bright's disease, which so nearly killed me, and all through the wonderful instrumentality of Warner's Safe Cure, the remedy that

brought me to life after I was virtually in another world."

"You have had an unusual experience.
Mr. Crombie," said the writer, who had
been breathlessly listening to the recital.
"Yes, I think I have," was the reply,
"and it has been a valuable lesson to me. I am certain, though, there are thousands of men and women at this very moment who have the same ailment which came who have the same aliment which came so near killing me, and they do not know it. I believe kidney disease is the most deceptive trouble in the world. It comes like a thief in the night. It has no certain symptoms, but seems to attack each one differently. It is quiet, treacherous, and all the more dangerous. It is killing more people, to day, than any other one complaint. If I had the power I would warn the whole world against it and urge them to remove it from the system before

it is too late.' One of the members of the firm of Whitehead & Mitchell, proprietors of the Birmingham Eccentric, paid a fraternal visit to this office yesterday, and in the course of conversation, Mr. Crombie's

name was mentioned. name was mentioned.

"I knew about his sickness," said the editor, "and his remarkable recovery. I had his obituary all in type and announced in the Eccentric that he could not

live until its next issue. It was certainly a most wonderful case."

Rev. A. R. Bartlett, formerly pastor of the M. E. Church, at Birmingham, and now of Schoolcraft, Mich., in response to

now of Schoolcraft, Much., in response to a telegram, replied:

"Mr. W. A. Crombie was a member of my congregation at the time of his sickness. The prayers of the church were requested for him on two different occa-sions. I was with him the day he was reported by physicians as dying, and consider his recovery almost a miracle."

Not one person in a million ever comes so near death as did Mr. Crombie and then recover, but the men and women who are drifting toward the same end are legion. To note the slightest symptoms, to realize rates. We trust and believe that the company will meet on their new ground their new ground time by the remedy which has been shown

the same patronage and confidence that to be most fficient, is a duty from which there can be no escape. They are fortunate who do this; they are on the sure road to death who neglect it.

## THE OLDEST AND BEST.

Annual Meeting of the London Mutual Fire Insurance Company.

The annual general meeting of the policy-holders of the London Mutual Fire Insurance Company was held on Friday after-noon. The Fresident, James Armstrong, Esq., M. P., occupied the chair.
The Secretary, D. C. Macdonald, Esq., read the annual report, as follows:

To the Members of the London Mutual Fire Insurance Company of Canada:—

Your Directors, as is their custom and duty, now beg leave to give an account of their stewardship, and to present their twenty-fourth annual report for the consideration of the members, which report will no doubt be as pleasing as its immediate processor, and more so than many that have gone before, although, with scarcely an exception, it has been the lot, annually, of your Board to report substantial progress:—

Losses.—The amount of claims paid was

an exception, it has been the lot, annually, of your Board to report substantial progress.—

370,21,78. They were 344 in number. Three fundred and three of these occurred during the year, amounting to \$62,525.69, and 41 claims that had occurred during the previous year, but which had either not been prevented or inspected at the end of 1882, which had either not been prevented or inspected at the end of 1882, which had either not been prevented or inspected at the end of 1882, which had either not been prevented or inspected at the end of 1882, which had either not been prevented or inspected at the end of 1882, which had either not been prevented or the year have been nearly about the average and are accounted for by the large number of lightning claims made during the year-131 in number—but a vast majority of these were merely damages and for principally occurred in the months of May, line and July, before the crops had each harvested, else, no doubt, the aggregate would have been much beavier. We refer you to the Inspector's Report, and to the loss table, hereto appended, for fuller information in respect to losses.

Policies Issuen—The number of policies issued were 6,683 on the Cash System, and 3,189 on the Premium Note System-in all, 2,852, making the total number of policies in force 40,093, as against 39,719 at the end of the scen opposition hereafter alluded to must prove extremely gratifying to the members.

FINANCIAL STATEMENT.—A full financial

members.

FINANCIAL STATEMENT.—A full financial statement is annexed to this report, showing the standing of the Company at the end of the year, and, not withstanding the increase of losses over the preceding year, the evaluable assets have increased from \$38,845.27 to \$331,741.52. Our re-insurance fund, as reported to the Government in 1852, was \$218.348, while this year it amounts to \$212,938.31, and the net surplus, after deducting the re-insurance reserve, is incressed from \$62.801.11 to \$82,944.27, a state pleasure.

EXTENDING OUR BUSINESS.—For a number of years past influential gentlemen in the Maritime Provides have been soliciting your Board to the company increased the round of the Company increased the country of the company increased the cumber of years past influential gentlemen in the fact that as the business of the Company increased the cumber of yet before taking the step, and not until our President, Mr. Arnstrong, M. P., was last autumn devices of the Dominion, and although your Board finally decide to go down and "spy out the land" du your Board finally decide to go are for business (although being a Dominion Company, we were twitted that were firaid to go outside of Ontario), but Mr. Arnstrong's report was so favorable that he 'departure' was finally decided in the 'departure' was finally decided in the 'departure' was finally decided in procuring the services of Thomas Hobertson, M. P. for Shelbourne, N. S., to watch our interests "down by the sea," and he has appointed an excellent class of agents, who have all given approved bonds for the faithful performance of their duties. A goodly number of applications for insurance have been already received, but no policles have been sixued until the present month of January, so that the business only compences with this year.

Leftslation.—It is to be hoped, now that a new Local Parliament has been elected, that some steps will be taken by our members build in the fire and property. An art regarding the registration of fires with the clerk of each

satisaction during the year, a lact which your Board have much pleasure in testifying to.

RETIRING DIRECTORS. — Messrs. James Armstrong, M. P.; Mr. Sheriff Springer and Richard Biddulph retire by location. They are eligible for re-election.

All of which is respectfully submitted.

J. Armstrong, D. C. Macdonald.

President. Secretary.

INSPECTOR CODY'S REPORT.

To the President, Directors and Members of the London Mutual Fire Insurance Company of Canada—
GENTLEMEN—Your Inspector begs to report that during the past year he inspected and reported on 3ide claims against the Company, amounting in the agregate to \$82,351.48, of which 332, with some deductions on account of over charges, were allowed and paid amounting to \$35,540.73, It of the above claims, amounting in all to \$2,319, were for what the Board of Directors deemed good cause rejected.

Below will be found what has been the cause of the several losses, as nearly as could be ascertained:—

Losses. Amount. Causes.

rtained:—
Amount. Causes.
\$12,718 00 From sparks or cinders falling to roof from chimney,
4,495 20 Defective chimneys,
2,719 15 Stoves and defective stove 4.495 20 Detective chimneys.
2,719 15 Stoves and defective stove pipes.
8 258 74 Building and contents, lightning.
1,702 20 Animals killed in fields by lightning.
21,976 82 Gause unknown.
9,879 89 Incendiary.
2,797 00 Children playing with matches and pipes.
1,068 75 Lamps, lamp explosions and candles.
1,207 75 Old fire places closed up with pine boards.
49 88 Tin thimbles to protect stove pipes in passing ceilings or partition.
700 00 Passing locomotive engines.
2,345 85 From outside exposure.
755 00 Careless disposition of ashes.
1,110 00 Steam engine used in

ashes.

1,110 00 Steam engine used in threshing. \$73,540.73

\$73,510.73

A large portion of the losses are from unknown causes. No doubt the great bulk of them have been from accident, such as matches, pipes, ashes and tramps; probably not a few have been the work of incendiary, and probably some have been fired in the interest of the insured. Another cause of heavy loss to the Company in dwelling houses has been from roofs igniting from sparks or cinders falling to the roof from chimneys. This

class of losses mostly happen in the month of April, as at this season, owing to the action of the frost during the winter, the shingles are coated with fuzz, ready to catch at a spark. This class of losses might be prevented either by having the shingles laid in mortar, or, what is still better have the roof coated with fire-proof paint. Ten dollars would be sufficient for an average sized dwelling, with attachments, and less money than that would put it on. This Company insures at reduced rates where roofs are so protected. Out of several hundred of burnings from this cause, the company has not sustained a single loss where the roofs have been so protected.

een so protected.
All of which respectfully submitted,
C. G. CODY, Fire Inspector

To the Manager :-To the Manager:—

DEAR SIR.—We have much pleasure in handing you the annual balance sheets for 1883 duly certified to. We congratulate your company on the fine financial standing, and bear willing testimony to the excellent system in which your books are kept, and to the great care exhibited by your accountant, Mr. James Vining. Wishing the company every success for the future, we are respectfully yours.

J. HAMILTON. Auditors.

## Mutual Benefit Life Co.

We refer our readers to the advertisement of this Company in another column. From what we have been able to learn of its workings we feel free to say that it stands at the head of all Life Insurance Companies as respects reliability and cheapness.

The interests of the Company have been The interests of the Company have been advanced very materially of late in Canada by the active efforts of Mr. Thomas Leahy, a gentleman of whom, before we had the pleasure of his acquaintance, we had frequently seen complimentary mention in the American Catholic press. He has just returned from the press. He has just returned from the town of Berlin. In one of the local papers of that place we see a very com-plimentary notice of the prompt manner in which a claim had been settled by the payment of a large sum of money to the widow of the late George Howard, together with a letter of thanks to the Company from that lady.

## THE PEMBROKE BAZAAR.

The following is a statement of the moneys made at the recent R. C. Church bazaar: Table No. 1, presided over by Mrs. Thos. Murray, realized \$1,541.51, of which \$602.10 accrued from votes for Mr. T. Murray, M. P. P.; table No. 2, presided over by Mrs. R. White, Mr. T. Murray, M. P. P.; table No. 2, presided over by Mrs. R. White, \$493.60, of which \$160.60 accrued from votes for Mr. P. White, M. P.; table No. 3, presided over by Mrs. J. Thibodeau, \$453.90; table No. 4, presided over by the Society of the Children of Mary, \$1,142.34; table No. 5, lottery, presided over by Mrs. Wm. O'Meara, \$65.30; table No. 6, refreshments, presided over by Mrs. A. J. Fortier and Mrs. B. Teevans, \$276.70, plus \$79.00, collected by Mrs. Wm. Kennedy and \$45.00 by Mrs. Judge Foran. Total, \$397.70. Door money, \$87.95. Thus far, all expenses deducted, the bazaar has given the very satisfactory sum of \$4, given the very satisfactory sum of \$4,012.65. Subjoined is a list of the principal articles drawn for: Gold watch, gift of Mrs. T. Murray, won by No. 164, holder A. B. Leblanc, of Colorado, 164, holder A. B. Leblane, of Colorado, U. S.; gold watch, list of the Society of the Children of Mary, won by Joseph Laverdure, Gower Point; town lot, Mattawa, gift of Messrs. Howe and Coleman, won by Abraham Demers; a set of furs, gift of Mr. Lanthier, Montreal, won by Miss K. Brady, Renfrew. A host of other donations, among which were a handsome child's sleigh, a garden drill, fancy tables, a case of stuffed birds, bannerettes, a silver watch, silver waterpitchers, silver cardof stuffed birds, bannerettes, a silver watch, silver waterpitchers, silver card-cases, designs in wax, and many pieces of needle-work were drawn for and handed over to the lucky ones. The double sleigh, presented by Messrs, Stanley & Desjardins, will be drawn for next week. A twenty-dollar gold piece, gift of Mrs. Judge Doran, and the Mattawa town lot, double by Judge Doran, will not be drawn for until next summer. The delay drawn for until next summer. The delay drawn for until next summer. The delay is occasioned by the absence of Mr. and Mrs. Doran, who are at present seeking improvement of health in California. Parties who have tickets on these articles may rest assured that their interests will be looked after by the committee of management. The Presidents of the different tables return thanks to the ladies who kindly assisted them during the bazaar. Thanks are also extended by the committee to Messrs. Murray for the hall accommodation, to the local press, and to all their benefactors of every denomina-tion, at home and abroad, who generously contributed to bring the charitable work to a most successful issue.—Pembroke Observer.

## **Butter Buyers**

everywhere are refusing to take white lardy looking butter except at "grease" prices. Consumers want nothing but gilt-edged butter, and buyers therefore recommend their patrons to keep a uni form color throughout the year by using

the Improved Butter Color made by Wells, Richardson & Co., Burlington Vt. It is the only color that can be relied on to never injure the butter, and to always give the perfect color. Sold by druggists and merchants.

## The Mutual Benefit Life Co.

OF HARTFORD, CONN. Chartered by the Legislature of Connecticut Authorized Capital, \$100.000

Authorized Capital, \$100.000

Hon. A. R. GOORICH, President,
Treasurer State of Connecticut,
Ex. Lieut. Gov. GEO. C. Sill, Attorney.
Col. DeWITTJ. PEEK, Secretary.
Fire Commissioner of Hartford,
J. H. WELCH, M. D., Medical Examiner.
THOS. LEAHY, GENERAL AGENT.
The Mutual Benefit Life Company, of
Hartford, Conn., is the only mutual Company doing an assessment business chartered
by a State Legislature, and authorized to have a Capital of \$100.000.
It is the oldest mutual or assessment Company doing an assessment of the Company doing business in America.
In membership it is the strongest Assessment Company doing business in America.
It has paid, for death and accident claims,
More Money to the Framilies
of its Members in Canada
and the United States
than any two companies in the country.
That the greatest care is exercised in the
selection of members is proved by its low
mortality during the year 1883, and the cost,
per \$1000, as companed with that of similar
companies or associations.
The fact that no mutual company organized under the laws of the State of Connecticut, with headquarters at Hartford, has ever
failed, is conclusive evidence of the care and
watchfulness exercised over them by the
Insurance Department.
The business of this Company is so scattered throughout the United States and
Canada that it is sure of a fair average mortality, which cannot be affected by epidemics, while its Reserve Fund is a guarantee
of its permanence.
It furnishes protection to its members at
absolute cost.
It is not a secret society. It has no lodge
meetings. It Insures both sexes.
