For the treatment of Nervous, Chronic, and Obsolete Diseases, not cured by other kinds of treatment (nor by the unskilled and inexperienced). Diseases that follow nervous exhaustion (a lack of vitality or nerve force) from various causes, as over brain work, over physical work, excesses—abnormal secretions and exertions producing various phases of disease and suffering in mind and body.

Those who wish the treatment at home may have it by ordering one of Prof. Vernoy's Improved Family Batteries, and follow the instructions given with it, which are plain and simple.

The cures made with these Improved Batteries scientifically used, according to the new system practiced by Prof. Vernoy, are not limited to any particular class of diseases. It is wonderful to see how such radical changes are so quietly and agreeably made. Acute diseases are often cured as by magic in one or two applications.

Female diseases, hopeless cases by other means, displacements and other weaknesses—nervous debility (abnormal evacuations in either sex) permanently cured after years of suffering with other kinds of treatment. Neuralgia, Rheumatism, Catarrh, head, lung, heart, liver, kidney and other organic troubles and derangements of the system changed to a healthy state as readily as the hard frozen earth is melted by the genial rays of the sun by nature's means, in harmony with her fixed laws. Bad cases thus cured will inform you how marvellous the cure is. Address given if you wish it. See the *Electric Age* with testimonials and references like the following:—

**DR. VERNOY,**  
Dear Sir,—I consider it my duty to you and to the public generally to give a short history of my case. I found myself gradually failing physically, although my mental powers, so far as I or my friends could judge, remained intact and undisturbed. Soon I began to recognize the alarming fact that I was gradually sinking into the grave, having lost forty pounds of flesh in four months. I suffered severe neuralgia in one or both temples, shooting down into the shoulders occasionally, of the most excruciating character, accompanied by morbid sensations in my extremities. After other means had failed I thought I would try electricity, knowing it was a powerful remedial agent when cautiously and skillfully applied; and having ascertained that you were the most successful electro-therapist in Ontario, I thought I would, if possible, obtain your services, and you very kindly and promptly visited me and proved on that occasion your complete mastery of nervous diseases. Through your instructions as to the application of the battery, and from several treatments received at your office after I was able to visit Toronto, I am now in very good health.

I remain, as ever, thankfully yours,
