interested in work overseas. Registration \$3.00. For information call Jack Lakavich, GL 5-6952 or see Gord Weese at S.C.M. House, 11136-90 Avenue.

An exhibition of sculpture will be opened Sunday afternoon by Hon. J. Percy Page, Lieutenant-Governor of Alberta, at 3:30 p.m. in the Jubilee Auditorium. The exhibit features noted Ukrainian sculptor, Alexander Archipenko, who is now living in New York. The artists is described by the director of the Edmonton Art Gallery, as "the first sculptor to use the ideas of the cubists" in this art form. The 30 works will be on display for two weeks.

## Humble Apology

I, Maurice A. LaMothe, on this first day of Feb. 1962, would like to express my sincere apology to Miss

Ellen Sprinkle and Miss Rita McDonnell, the two female members of the Engineering Faculty for barring them from E.S.S. functions (i.e. the queen rally at Pleasantview Hall, Thursday, Feb. first) and dictating to them who they may date. (i.e. by forbidding them to take Artsmen to the Engineers' Ball, Saturday, Feb. 3).

Signed,  
Maurice A. LaMothe  
President  
E.S.S.  
University of Alberta

Varsity Guest Weekend this year will feature bus tours of the campus and a guide and information service for visitors —there is an urgent need for guides. All those interested are asked to contact Dave Shugarman at HU 8-2977 after 10 p.m. or contact him in the Public Relations Office after 3:00 p.m. Tues., Wed. or Thur.

Missing: Violin (John Babt. Schweitzer 1814) and violin bow in black, worn case. Left in Con Hall practice room. Please contact Nick Pulos GR 7-2973 concerning its whereabouts.

Wanted: Tutor for History 210. If interested call GE 3-3502 after 6:00 p.m.

The Geography Club will be meeting in Arts 342 at 2:30 p.m. Wednesday, February 14. Dr. Wonders will be showing slides on his trip to South America.

Room and Board at men's fraternity house. Phone GE 3-3086.

Vacancy—Pembina Hall. First year girls only. Apply 135 Athabasca Hall.

Wanted: Fair Young Bodies to act as Registration Personnel—Varsity Guest Weekend. If you could contribute an hour or two of your time on Saturday, Feb. 24, phone Jeanette Taschuk at GE 9-0840 or Bob Hall at GE 3-2787.

# Careers

WITH  
**CANADIAN CHEMICAL  
COMPANY, LIMITED**

This advertisement will be of most interest to graduates in chemistry, chemical, mechanical and electrical engineering and engineering physics.

What interests you most about a career? *Opportunity* should. Opportunity not only for advancement, but opportunity for professional growth through varied and interesting experience. We firmly believe in diversified experience and, luckily, we can offer it in our fully integrated operation. We find it's best for you (makes life more interesting and provides greater opportunity) and best for us (we end up with senior people who are fully experienced in our business). Now, let's have a crack at answering some of your questions.

**What do we do?** Canadian Chemical Company produces basic organic chemicals, cellulose acetate flake and acetate yarns, fibres and staple.

**Where do we do it?** At Edmonton. We have three plants on a 430 acre site. The first produces chemicals—alcohol, ester and ketone solvents, acetic acid, glycols, pentaerythritol, formaldehyde and other organics. The second produces cellulose acetate flake. The third, acetate and Arnel yarns and fibres.

Sales offices are located in Montreal, Toronto and Vancouver.

**What is our future?** Very bright. (It just happens to be true.) We think of ourselves as a young, progressive, fast-growing Canadian firm with world-wide affiliations. The record bears this out. So does the operation of our Edmonton plant. And the fact that our engineering department is one of the largest and most diversified in Canada.

Our raw materials are basic Canadian natural resources: petroleum by-products from Alberta and cellulose from the forests of British Columbia. Our markets are worldwide, and through our affiliate; we have a strong alliance with companies in the textile, chemical and plastics industries:

**What would you do?** As a qualified chemist or engineer you could be working on *product development, research, process engineering, plant design, construction* or some aspect of production. This is exciting work in many completely new fields. As a chemist or chemical engineer you could choose also a career in *sales or technical service*.

**What else should you know about us?** Lots more. You can get more information and literature by writing to Department "A" at 1600 Dorchester Blvd. West, Montreal 25, Quebec. Or to the Personnel Department, Canadian Chemical Company, Limited, P.O. Box 99, Edmonton, Alberta.
