

PLATE XI

Photo by A. Mitchell, 1909.

This plantation of Manitoba Maple was never pruned. It was nine years old from seed when photographed. Note clean appearance of tree trunks.
Near Gainsborough, Sask.

PLATE XII

Photo by A. Mitchell, 1909.

Pruning of these trees gave the opening for the young trees to get on and at its growth in quantity. The trees will be hindered in growth and probably killed altogether. Plant Green near Saskatoon, Sask.
