

letter we publish without further comments. The writer is a gentleman of high standing in Costa Rica, and well known among the Central American merchants in this city:

SAN JUAN DE COSTA RICA.

Messrs. DR. RADWAY & Co., 87 Maiden Lane, New York.—*Dear Sirs:*—As a homage to truth and justice I cannot do less than address these few lines to you, authorizing you to make such use thereof as you may think most advisable.

Two years since, in consequence of a fall which I had from a wall of my house, I received a severe blow on the Liver, which was followed by a severe inflammation. A physician who was called in, after administering some two or three aperients without any result, stated to me that this was caused by an obstruction in the mucous membrane, which would prove unquestionably mortal, as the daily evacuations would cease. In such a critical position, and seeing myself at DEATH'S DOOR, I turned to Providence, and in that alone had I any confidence, and from you alone could I hope for any prolongation of life. During one of my vigils in my sickness, and without any consolation than my resignation, I wished to pass an hour away in reading, and God placed within my reach a pamphlet of Dr. Radway's, and I found it stated therein that his medicine acted especially on Liver Complaints. Like a ray of hope, like a plank amidst the shipwreck of my life, I trusted those remedies, and, without hesitating a moment, I had recourse to them in the hope of meeting with hope and life. Adopting your method I undertook my cure with them, and observing the regimen presented in said pamphlet, I took the first day six pills, and to my surprise I found they produced such a great result, whilst I had been unable to obtain any with the three purgatives taken previously. On the sixth day I took only four, and the result was much greater; and on the seventh day, when I took only two, the result continued in the same proportion, increasing as in the former doses. Curiosity induced me to observe the last evacuation, and I perceived that the faeces contained pus and black blood chiefly.

At the end of ten days of your regimen the inflammation had disappeared, and with it the severe pains and stitches which prevented me even from breathing. After my cure had been completed, thanks to your remedies, I went to see my physician, to whom I now could give the assurance that my life was safe, and that I was indebted for my recovery to DR. RADWAY'S PILLS. The physician was not a little surprised at seeing me recovered so completely, when he had foretold my approaching death. At present I am in the enjoyment of perfect health, having gained thirteen pounds in flesh more than ever I weighed in my best state of health.

FOR LADIES ONLY.

It is not at all times pleasant or convenient to a lady to consult a physician for every disagreeable or annoying symptom that may occur. In Dr. Radway's Sarsaparillian Pills, and Ready Relief—as the nature of the ailments indicate—a remedial agent is secured that will at once remove all infirmities, ailments, or sickness that may arise through impaired or disturbed functional secretions, be it Leucorrhœa (Whites), a Suppression of the Menses, Profuse Menstruation, Colorless Discharges, Green-Sickness, or Uterine Tumors. See Letter, in this Almanac, of Hannah P. Knapp.

Many ladies seem to be rapidly losing flesh—and are sensible of a gradual waste—without suffering from cough, or any marked sign of consumption. They feel melancholy, disheartened, fretful, and feel as if they were alone in the world, when surrounded with every luxury the heart could wish, and are, indeed, martyrs to great mental and physical suffering. In these cases (Melanosis) the bile is misdirected, and instead of being properly secreted by the Liver, is retained and becomes a foreign constituent of the blood. In many cases when this takes place the skin becomes of a yellow tinge—the eyes yellow and inflamed, and the face covered with black spots, like worms, etc. Now, if ladies afflicted
