

men An opportunity to secure good Shropshires and Berkshires of either sex, at most favorable prices, will be offered at the sale of W. G. Pettit, on Nov. 1st, 1895. The sale advertise-ment in this issue shows that a great choice can be obtained. Berkshires are good pigs, and are always good property. Shropshires have sold well this season, and there is every indication of better things for them. Our reports of recent sheep sales show what reports of recent sheep sales show what sensational prices they have been bringing in

England. England. From Mr. Hy. Wade, Toronto, we have received a copy of the premium list of the Ontario Provincial Fat Stock and Dairy Show, to be held in Guelph on December 10th, 11th and 12th next, under the auspices of the Agri-culture and Arts Association, the Sheep and Swine Brseders' Association, the Western Ontario Dairymen's Association, and the Guelph Fat Stock Club. Entries are to close on Saturday, Nov. 25th, and all stock is to be in the building by 1 p.m., Saturday, Dec. 10th. The list of regular and special prizes is a most attractive one, and is calculated to make the December gathering of breeders, feeders and dairymen one of the most notable ever wit-nessed in the annals of this show. Mr. John Miller's (of Markham) advertise-

nessed in the annals of this show. Mr. John Miller's (of Markham) advertise-ment will be noticed in our columns, offering a number of choice young bull and heifer calves. This stock is all of Scotch descent, and are, without question, very choice, as nothing but the best could have won the young herd prize at Toronto, which Mr. Miller succeeded in doing. The young stock are all by imp. Aberdeen, a noted prize winner and a grand getter. Aberdeen 2nd =21643= is a wonderfully fine red bull calf that certainly brings no discredit to his sire. He won second in a hotly contested ring, and was closely followed with Master of Arts =21614=, a deep roan of great promise. Marvel, the 2nd prize heifer calf, is a grand one, and at first look one would be apt to think she could not be im-proved upon. She, with her stable mate Coral 4th and others, represent the high breeding and excellent producing qualities of the herd IMPORTATION OF HORSES.

IMPORTATION OF HORSES.

IMPORTATION OF HORSES. Mr. A. B. Holbert, of Greely, Iowa, whose Canadian headquarters are at Woodstock, Ont., writes us from Lincoln, Eng., that he expects to reach Canada some time in October with a valuable importation of stallions, including ten of the best German Coaching stallions to be found in the North Germany Government studs; also a few Belgian Draught horses and a number of English Shires. From England Mr. Holbert was proceeding to Scotland for some good big Clydesdales. In all, he expects to bring over about forty exceedingly valuable stallions.

BOOK TABLE.

BOOK TABLE. We are in receipt of the 1894 annual report of the Farmers' Institutes of Ontario, consisting of two parts: the first giving the proceedings in detail of the Central Institute meeting in Toronto in January last, and the second the first report of the new Superintendent of Institutes, Mr. F. W. Hodson, of Guelph, which is appropriately adorned with a full-age portrait and biographical sketch of Presi-dent Mills, of the O. A. C., Guelph, the father of the Ontario Institute system. Following is a copy of the Institute Act and an admirable set of regulations and instructions for the guidance of delegates, local institute workers, including copies of excellent local programmes secured from Michigan and New York States, given by way of suggestive re-ports from last season's delegations are given, and copies of a few of the more important papers in full. This report by Mr. Hodson should be very helpful in promoting institute work during the coming season.
