TUBULAR--or "Back Breaker?"

When you see the waist low Tubular you can't be driven into buying a back-breaking, "bucket bowl" separator. Can and crank are just the right height on the Tubular. Here is the largest Dairy Tubular along side four "back breakers." The girl with her hand on the Tubular is 5 feet, 4 inches tall. This is an exact reproduction from a photograph. Which kind for you? Makers of "back breakers" try to get their cans low by setting the cranks low. High cans break your back backward--low cranks break it forward. Unless you are a double jointed giant, you'll find a high can is no joke. To show you how high these "back breaker" cans really are, when the machines are set high enough to turn easily, we raised these "back breakers" 'til their crank axles were level with the Tubular crank axle. "Back breaker" makers don't like this picture--it's too true. They try to squirm out of it. You wouldn't like turning cranks as low as "back breaker" makers put them.

The low can is only one of many advantages Dairy Tubulars have over all others. Dairy Tubular bowls are simple--"back breakers" are complicated. Tubulars are self-oiling--no oil holes to fill up. "Back breakers" are oil drippers and oil wasters. To learn a lot more about Tubulars, write today for catalog N-193

GOSSIP.

Messrs. C. J. Gilroy & Son, Glen Buell, Ont., breeders of Holstein cattle, write:

"The year just closing has been one of the best in our history, having disposed of more stock and for a better average price than ever before. The demand for bulls has been very active, and we are closely sold down. It is pleasing to state that we were able to win the second breeder's herd at Toronto this fall, and the week later the same herd won the first for us at Ottawa, which goes to prove that we are keeping pace with the improvement of the times. Our present stock bull, Sir Alta Posch Beets, is going to prove a valuable herd header for us. He won first at both Toronto and Ottawa this fall. His breeding is A1, being sired by a son of Alta Posch, the champion butter heifer of the world, while his grandsire, Paul Beets De Kol, has more daughters in Advanced Registry than any bull in the world. Such breeding and individuality, when coupled with such great cows as the Sylvias have proven to be in test-work, ought to give encouraging results, both for ourselves and the good of the breed. A few of our sales have been as follows: To Mr. Edwards, near Russell, Ont., the young bull that won third in senior calf class at Toronto this fall; to Archie Stewart, Kenmore, Ont., went the first-prize junior bull calf at Ottawa. His grandam, Juanita Sylvia, has been a winner in milk-test competition, winning second at Ottawa, where her record was better than was the first-prize record at Toronto, same year. Mr. John Cruise, Lachute Mills, Que., secured a heifer out of a daughter of Carmen Sylvia, that won first for him at their show. This makes the fourth time Mr. Cruise has bought from us. A young bull we shipped him last spring was the first-prize senior bull calf at Ottawa this fall. To X. Plaunt, North Cote, Ont., went the young bull, sired by Jr. De Kol, a high-bred sire. The dam of this calf was sired by the grand show bull that Messrs. Stevens, of Lacona, headed their show herd with the year they showed at Toronto. Mr. J. J. Riley, Jr., Graham, Que., secured the dam of this young bull, along with the cow, Willas Duchess, bought at Syracuse sale last June, also the young son of Carmen Sylvia to mate with them. Mr. A. J. Daugherty, Beachburg, Ont., secured the first son of our Imp. Posch bull, from the Carmen Sylvia 4th cow, a member of the third aged herd at Toronto this fall, and one of our best females. We recently sold to Mr. Geo. Bellamy, Toledo, Ont., the young bull calf from the Willas Duchess cow. This calf was sired by Canary Mercedes' Son, whose dam tested over 25 lbs. butter in seven days, and milk tested 4.92 per cent. fat. The Canary Mercedes family is one of the richest of the breed for butter-fat tests. There are other sales to report, but we will leave them till a later time. We have on hand a few bull calves born this fall, from our imported Posch bull, and from our best cows, that can be secured at fair prices, quality considered."

Ring-Bone

So common nearly every body knows it when he sees it. Lameness, and a bony enlargement just above the hock, or higher and on the upper pastern bone, sometimes extending nearly around the part, sometimes in front only, or upon one or both sides. Cases like the latter are called Sidebone. No matter how old the case, how big the lump, how lame the horse, or what other treatment has failed, use

Fleming's Spavin and Ringbone Paste. Use it under our guarantee--money refunded if it fails to make the horse go sound. Often takes off the lump, but we can't promise that. One to three 45-minute applications required and anyone can use it. Get all the particulars before ordering--write for Free Horse Book that tells you what to use for every kind of blemish that horses have. FLEMING BROS., Chemists, 65 Front Street, West, Toronto, Can.

Shropshire & Cotswold Sheep

SCOTCH SHORTHORNS and

CLYDESDALES

Choice ram and ewe lambs. Also 50 shearing ewes for sale. Apply to

BELL BROS., The Cedars Stock Farm, Bradford, Ont.

TRADE TOPIC.

A FAMOUS BUSINESS COLLEGE.--Students entered the Ontario Business College, Belleville, the other day from Victoria, British Columbia, on the Pacific Ocean, and from Digby County, Nova Scotia, on the Atlantic Ocean. The provinces between these far-distant points are well represented, including eleven French and many English-speaking students from Quebec. In addition to students from all parts of Canada, there are in attendance students of both sexes from several of the West India Islands, and from various parts of the United States. O. B. C. continues to be what it has been for so many years, the most widely-attended business college in America. This month, the institution entered its 39th year; for over 28 years of that time Mr. J. W. Johnson, F. C. A., has been at its head. The best there is in commercial and shorthand training is imparted at O. B. C. Its three famous textbooks, "The Canadian Accountant," "Joint-stock Book-keeping," and "Negotiable Instruments," are sold throughout the English-speaking world. Send for the college catalogue.
