

NO. 483 BAYNES SPECIAL.

This is the "young man's buggy," with 21-inch body, 3/4-inch tread wheels.

It has a good width of seat, so that two can ride in it comfortably.

We paid considerable attention to the details of this job, and have fitted it up throughout so that it is very pleasing.

While it is light, yet it is whalebone construction, and will stand a lot of racket.

While the wheels are 3/4-inch tread, yet they are strengthened here and there so that you may be assured that they will not only take you there, but bring you home.

If your dealer hasn't any

## BAYNES BUGGIES

in stock, write us direct, and we will see that you have an opportunity to look our goods over.

THE BAYNES CARRIAGE CO., LTD., HAMILTON, ONT.

**THIS IS THE SHEET METAL AGE.**

To make a factory, warehouse, barn, shed or outbuilding of any description, wind, water, snow, fire and lightning proof cover it with

# Galt Corrugated Sheets

which are accurately pressed from the best and most durable British Steel it is possible to procure.

All corrugations are straight and true, assuring an accurate fit at both side and end laps without waste. Special hip and ridge covers make tight, neat joints at these points.

Where warmth is not important "Galt" Corrugated Sheets save three-fourths of the wood sheeting as well as considerable labor, and will give good service for a life time of at least fifty years.

It costs no more for a "Galt" Corrugated Sheet Steel Building than for a wood one. Which do you think is the better investment? Galvanized or painted material always in stock. Complete information in catalog "S-B."

The Galt Art Metal Co., Ltd., Galt, Ont.

Sales and Distributing Agents: Dunn Bros., Winnipeg and Regina.

## You Pay for the Sand On Roofings

When you are offered a ready roofing which is coated with sand, mica, or pebbles, you can make up your mind that you are paying roofing prices for the coating.

For such coating does not help the roof. It is merely a "talking point" to make the roof seem different from what it really is.

Such coating, in fact, is a detriment. For it washes off after a few rains, leaving a roughened surface on the roofing, and choking up gutters and drain pipes.

The reason why coated roofings are offered you is because there are 300 substitutes for the genuine Ruberoid, all looking much the same.

By adding sand to the roofing it is made to appear different—that is all. And you pay for a mere selling feature, when you ought to be getting roofing value.

### The First Ready Roofing

Ruberoid roofing has never been coated with sand or similar "filler." It is the original ready roofing by several years.

The secret of its wonderful properties lies in the Ruberoid gum which we use.

This gum is our exclusive product. No other maker can use it. It is this gum which makes Ruberoid heat proof, cold proof, snow proof, rain proof. Resistant to acids, gases and fumes.

# RUBEROID

(TRADEMARK REGISTERED)

Be sure to look for this registered trademark which is stamped every four feet on the under side of all genuine Ruberoid. This is your protection against substitutes which many dealers brazenly sell as Ruberoid. Ruberoid is usually sold by but one dealer in a town. We will tell you the name of your Ruberoid dealer when you send for our free book.

It is this Ruberoid gum which makes Ruberoid so good a fire resistant. You can throw burning coals on a roof of Ruberoid without danger of setting fire either to the roofing, or to the timbers underneath.

It is this exclusive Ruberoid gum which makes Ruberoid flexible enough to stand the strains of twisting and bending which every roof must bear.

### Seventeen Years of Service

The first Ruberoid roofs ever laid—seventeen years ago—are still flexible, still weatherproof, due to the life of this wonderful gum which is used in no roofing but Ruberoid.

Ruberoid roofing is suitable for any building—from a woodshed to a large factory or public building.

It also comes in attractive colors—Red, Green, Brown—for use on fine homes.

But before deciding on any roofing, for any purpose, send for our free book, "All About Roofings."

This book tells what we have learned in twenty years of roofing tests. It gives the advantages and the disadvantages of shingles, tin, tar, iron and ready roofings.

It is a gold mine of practical information.

## WHY THE PEASE FURNACE COSTS MORE TO INSTALL THAN OTHERS

(THOUGH IT COSTS LESS TO KEEP WORKING)

# ALWAYS INSTAL A PEASE "ECONOMY" FURNACE

Because only the highest grade of materials and the most competent mechanics are employed in their manufacture, and because Pease agents estimate on furnishing furnaces of ample capacity, registers and pipes of correct sizes, and make a special study of each and every contract they secure.
