THE GREAT SECRET

Of the wonderful success of the

WILLIAMS SINGER SEWING MACHINES

See in the fact that the material used in their construction is of a very Superior Quality, and that extraordinary pains are taken to see that every part is properly fitted and adjusted to its position.

Ladies who have used our Machines for fourteen or fifteen years have noticed with extreme satisfaction that they have not been subjected to the irritating annoyances endured by persons using other machines, such as skipping stitches, breaking threads, etc., etc.

The Williams Machines do not take fits or get out of order, or become played out in three or four years like some inferior machines, but with ordinary care will last a lifetime. Thousands of parties who have used our Machines for ten years and upwards are continually recommending their friends and acquaintances to buy the Genuine Williams Singer, and to take no other Sewing Machine.

REMINISCENCES OF ORIEL COLLEGE

And the Oxford Movement.

By T. MOSELEY, formerly Fellow of Oriel, 2 vols. Crown 8vo, 5s. 6d.

Many before now Oakley, Froude, Kennard, not to mention Newman himself, have contributed to the story of this Triennial Movement. None but these, not even the famous Apologia, will compare with the volumes now before us in respect to minute fullness, close personal observation, and characterful touches. Even to the general reader, who knows nothing and cares nothing for the merits of the Oxford Movement, these Reminiscences are in their vivid power and eminent clarity, most possess a great charm. To the few survivors of the tragic media who know the actors and had a personal stake in the issue, they are fascinating. Mr. Moseley can recall incidents and characters, by the score, and acquaintances long passed from the scene, and present them with a life and reality which is a sufficient guarantee of faithfulness. PROF. PATTERSON in the *London Academy*.

We do not know a work which on the whole will so well repay perusal as these Reminiscences of Mr. Moseley. He is an acute observer of character; he can analyse motives with the greatest nicety, and detect a false note, whether ethical or intellectual, in those who are supposed to be giants and above criticism. — *Literary World* (London).

University life has never been more vividly depicted. Almost every page contains an anecdote of this or that Fellow, or an entertaining incident concerning some of the teachers and higher Church dignitaries. — *Philadelphia Bulletin*.

It is in the reminiscences which deal with Cardinal Newman that every reader will be most interested. But there is much besides in these volumes that is interesting, and much that is amusing.

There are good stories about the Wilberforces, about Archdeacon Denison, and about others who were associated with the Oxford Movement.

CONSUMPTION

And all like diseases of the Head Throat and Chest, including the Eye, Ear and Heart, successfully treated at the

Ontario Pulmonary Institute,

No. 135 Church Street, opposite the Metropolitan Church, Toronto, Ont. J. HILTON WILLIAMS, M.D., M.C.P.S.O., Proprietor.

The only Institute of the kind in the Dominion of Canada.

All diseases of the respiratory organs treated by the most improved Medicated Inhalations, combined with the proper constitutional remedies.

Nearly 40,000 cases successfully treated during the past sixteen years for some form of head throat or lung troubles.

CONSUMPTION.

There is a point which we would advert, and that is the unwillingness of those suffering from diseases of the chest to acknowledge themselves in any danger until their disease has reached an advanced stage. This arises, no doubt, in a great degree from the presumed hopelessness of such cases. We would warn all who have a frequent desire to "clear the throat," and who become fatigued and "out of breath" on every slight occasion, that they are on the high road to all those changes and symptoms which constitute pulmonary consumption—that the disease begins in a majority of cases as "cold," ending in "sore throat," that gradually it extends down the windpipe, rendering the voice slightly hoarse and indistinct first observed on reading aloud, and that finally involves the bronchial tubes and the air-cells. The seat of the primary disease is in the mucous membrane of the throat, windpipe and bronchial tubes. The expectoration comes from this membrane, and the tubercular matter is deposited on its surface. If, therefore, they would avoid the dangers which attend consumption in its advanced stage, they will not disregard those signs of impending evil, but by prompt and judicious means seek to restore the offending organ to its former tone and health.

By the system of Medicated Inhalation thousands of cases are cured after all hope of a cure is past. And thousands are to-day living with ease of this very fact.

Consultation free and prices of the Institute are within the reach of all.

If possible call personally for consultation and examination, but if impossible to do so write for a "List of Questions" and "Medical Treatise."
