The Cream Separator You Want In Style, Price and Size, Is In THE EMPIRE LINE

We make the two types of separators that are recognized as standard and we make each type in all sizes. That means that here, at headquarrs, we don't have to claim everything for one style and condemn all other condents are presented. in order to make a sale.

We can state facts about each style. It doesn't matter to us which style you buy. One style costs less to make than the other style, and we give you the benefit. That's another good reason for coming to headquarters.

Both styles in the Empire Line are the same in quality. And all Empires are backed by the Empire guaranty—as good as a Government Bond. THE FRICTIONLESS EMPIRE

or the EMPIRE DISC

will make more money for you, save you more work and pay for itself over and over again for more years than any other separator made at any price. Hundreds of thousands of cow owners using the Empires will tell you to get an Empire if you want the most dollars from your dairy. Send for names of Empire users in your state.

No matter what you have planned to buy in the way of a separator, don't decide until you have seen the Empires.

EMPIRE CREAM SEPARATOR CO.

WHICH WILL YOU HAVE?

GRAIN SEPARATORS

The Most Popular Fanning Mill on the Market

The reason for the superiority of the Hero Mills is in the cloths. These cloths are made of special glazed cambric, and are so arranged that they make the oats slide through the gang over the holes. the oats are all the time, either sliding on a cloth or under one.

on a cloth they certainly cannot go through the zinc sieve, and if under the cloth they are prevented from tailing up and dropping through, by the weight of the cloth resting on them.

This arrangement constitutes the most perfect device ever invented for separating wheat from oats or other kinds of grain. In addition to this, the Hero Mills are sent complete with screens for cleaning all kinds of grain.

Sold by good live dealers in all sections of the country. If not handled in your town, write
