FREQUENT HEADACHES

People with thin blood are much more subject to headaches than full blooded persons, and the firm of an anæmia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs. Whenever you have constant or recurring headaches and pallor of the face they show that the blood is thin, and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively and the rich red blood made by these pills will remove the headache.

More disturbances to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
