FRANKLIN GULCH IS GOOD.

Although Abandoned by Old Timers, New Benches Have Been Discovered.

g B. Condon returned on Saturday on both sides of the creek. night from a trip covering the country adjacent to Fortymile and Eagle City, Mr. Condon is very favorably impressed with the Fortymile creeks and serifies the statements printed in this paper from time to time that Fortymile to be. will yet become an important producer of gold. At Eagle City he found matters very quiet, but little being done in the town excepting in a social way. There are about 20 ladies in Eagle and on Saturday evenings dances are

A literary society has also been organized which holds meetings on Monday evenings.

The people of the town are enthusiastic over the proposed railway from Valdes to Eagle and feel certain that their town will take a substantial boom Ex-President of United States Is when railway construction is well under

There are from 200 to 300 people in the town and business is very quiet. The trail from Fortymile is in excepare making record time on the run.

The Fortymile country looks very bright, particularly on Jack Wade and the other, creeks in the vicinity. A well defined pay streak has been located dinary coarse gold produced in this dis trict. Occasional pockets containing the well known rounded nuggets are still found, but the miners of Fortymile are jubilant over the fact that a pay streak carrying a uniform amount of gold has been located. This pay streak is known to exist through a width of 90 feet on No. 17, Charley Hall's claim, and extensive preparations for the development of that claim have already been made.

Glacier and Napoleon creeks give evidence of coming rapidly to the front and will be remembered among the good creeks of the district. Franklin gulch, which was the mainstay of the district some years ago, is being worked again and pay has been located on the benches

All the country needs in Mr. Condon's estimation is to have the litigation settled and its development on a large scale will begin immediately.

Fortymile is still the supply point for the district and will continue so

Mr. Condon thinks that U. S. Collector McCarty is an abused man. Mr. McCarty has only carried out the letter of the law in Mr. Condon's opinion and has been unjustly abused on that

Capt. Farnsworth, in charge of the fort at Eagle, has set out with a survey telegraph line from Eagle to Valdes, It is expected that the line will be in operation by mid-summer.

Dan Jonas is in business at Eagle and doing well.

Judge Claypool is on his way to the outside and is accompanied by Messrs. Menzie and Hill of the A. C. Co., who Michael. They will arrive in Dawson today or tomorrow.
