(CONTINUED.) tations for the day on the Bald mounoccasional green shrub to be seen.

fuel to the flames which broke ut during the dry season of the year before
and everything that was left was a few
ly wounded. He started on a run in
the direction the deer had taken expectsucculent grass had sprung up, affording ly wounded. The hill was very steep are teed for game and the whole hill up to where the first shot struck the sides were covered with innumerable deer and it required careful manage deer tracks and afforded the man who ment to avoid bruised shins and tumble put out the dog to get a stat in a very over the boulders in the path. He

proportions of the animal were admired As mentioned in the opening of last the graceful curve of the neck and the hapter Doc. and the Scribe were given grandly spreading antiers were noticed stations for the day on the Bald moun-stains at the foot of the lake, and Ed. in every outline. The fro hing wouth brought the wounded buck back. Geo. wind you of the respect and esteem in was to guard the end of the lake near and the distended nostril gave evidence M., who had a watch in the vicinity which you are held by us. We all He got a fine doe which came in that the race had been a sharp one. On the opposite shore from where the and on he bounded and still the Scribe gs were put out and no coubt was stood and gazed at the fleeing figure riven there by the dogs of other parties without moving a muscle or raising his unting of across the country in the rifle to his shoulder until the deer got ed on shore and just as it was raising inity of other lakes. The Doc. to within ten or a dozen rods of where out of the water he fired a couple shots rided to go to a watch he knew down he stood. The animal whether scenting but without effect. He was satisfied the shore of the river a mile or danger ahead or intent on locating his from its action that the deer had been from where the Scribe was to pursuers halted for an instant and turn watch for the day. The Scribe worked ed his body directly broadside to where his way up the side of the mountains the Scribe was standing. For a full e reached an elevation from winute, at least it seemed that long to which he could see a long way in every the Scribe, the animal remained motion-less. With an effort the Scribe recovered hills for miles during the previous summer and there was only an occasional green shrub to be seen. Years before, shortly after the pine the deer's heart. Simultaneous with timber was taken off, the fire made a the report the deer gave a bound into Ed. was considered a fair day's work olean sweap, burning up everything the air and toppled over against a big and the boys had a jolly time in camp oughly enjoyed themselves. be, which being damp and slow to instant and gave a half dozen jumps experiences of the day. burn did not all burn up at the time.

asseond growth of poplar, white birch and balted again. Quick as a flash the rifle was up to the shoulder again and balsams, and a dense growth of willows and stunted cedars had grown on to its knees and then sprang up and aince in the hollows. These added away. The Scribe noticed, as he bound Thursday evening, January 23rd. The

smaller trees. A thick growth of tender ting to find it either dead or bad reached the top of the hill and gazed

On reaching the position selected, down into the little valley but could see the Scribe made a shelter from the no signs of the deer.

off in an exactly opposite direction, the deer stood when the first shot was ienced by the hunter on his watch, see the Doc. coming up the side of the when listening to the hounds as their hill. They wasily traced the deer by sharp sonorous voices break on the ear, the blood marks on the stones and that causes the blood to tingle in his ground at each spot where the animal veins and the pulsations of his heart to was shot and from there on to the brink be distinctly felt against his vest. But of the hill where it had disappeared it is when the game bounds into view from view. Here they found that the and he braces himself for action that proverbial cunning of the animal had forget for the moment that he is there clamoring up the rocks, and sped on to do his part in securing his quota of towards the lake. The trail was easily game and glory. It was so with the marked by the spots of blood to be oribe on that particular morning. He seen along the route taken. The hounds must have seen the deer as it bounded along the top of the hills masters. He saw the deer bounding which accounts for their not stopping from hill to hill and coming in a direct when they came to where the shots had in the beautiful struck the animal.

winds, as well as a screen to hide him | From where he stood he could se from the sharp eyes of the deer, by pil- the hills, valleys and the river, meandering up a few pieces of burned logs ing through the hills almost at his feet and half burned brush. With a big but hundreds of feet below. For sever boulder for a seat he sat for hours keen al minutes he cast anxious glances ly alive to catch any sound of braving around in every direction, hoping to hounds or fleeting deer. It must have catch a glimpse of the wounded animal been well on to the noon hour before or locate the place where it had fallen his ears heard the first indication of or crawled to escape observation. The game being started. The sound came dogs came through on the track and from the direction where the game was never halted where the deer had been supposed to be driven from and he was fired at but scampered away in the once all attention, in order to get direction of the lake. The Scribe was the first glimpse of anything that came surprised at this as he hop d to secure his way. The dogs and the game circled the dogs assistance in locating the way around amongst the hills for some time, the deer had gone. He now began making a closer examination of the hills in the timber and then leading ground, retracing his steps to where There is a peculiar sensation exper- fired He was agreeably surprised to unless he has been there before and stood in good need as it had swung can overcome the buck fever sensation around the brow of the hill, and that will at times almost unnerve the pas ed on the opposite side, within three most skilled hunter, he is liable to or four rods of where the Scribe was J. ## Scrofula

This is generally and chiefly indicated by utaneous eruptions; sometimes by paleness, nervousness and general debility.

The disease afflicted Mrs. K. T. Snyder,

Union St., Troy, Ohio, when she was eighteen years old, manifesting itself by a bunch in her neck, which caused great pain,

was lanced, and became a running sore,
It afflicted the daughter of Mrs. J. H.
Jones, Parker City, Ind., when 13 years old,
and developed so rapidly that when she
was 18 she had eleven running sores on her
neck and about her ears.
These sufferers were not benefited by
professional treatment, but, as they voluntarily say, were completely cured by

Hood's Sarsaparilla This peculiar medicine positively cor-ects the scrofulous disposition and radi-
