THRILLING EXPERIENCE.

Steamer Struck Tower of Submerged Submarine and Keeled Half Over.

Submarine and Keeled Half Over.

The London Dally Charonicle, just to hand, on the 16th Feb., says:

"The submarine Ab narrowly escaped disaster while out manceuvring off Flymouth yesterday.

"After a war lecture at the War Course College, some officers proceeded into the Sound in the cruiser Theseus to witness a marine attack on the cruiser by the Devonport submarine fictilla, consisting of five vessels.

"Whilst the submarine Ab was submerged, the coasting steamer Coath, from Penzance, struck her on the conning tower, smashing the front part of the casing binding the periscope, also the sight of the periscope, a small hole being made in the conning tower.

"After she was struck the submarine rapidly assumed her normal surface position and indicated to her consorts that nothing untoward had happened. In the meantime on the Theseus and Torpedo-boat No. 86, on board which were Capt. Lees, inspecting captain of submarines, and Flag Captain Hall of the Forth, the parent ship to submarines, the greatest consternation prevailed. The A9, however, was able to proceed unassisted to her moorings alongside the Forth.

The constructive a member of the cases was proceeding as an interview a member of the cases was proceeding as the content of the cases, which proved to be the Coath, going into Piprouth Sound. The submarine was knocked half over by the impact, and, although perfect coloniess prevailed on board, it was feared that the boat was doomed the content of the case of the relief of the crew which we cause, the content of the case of the relief of the crew which we can be aliant that to be blown, whereupon, to the relief of the crew where content was doomed to the relief of the crew where were taking place at the time. "It was not deemed advisable for the remaining tower hatchway. Man occurs were taking place at the time." The Coath also heeled over several feet as a result of the collision and the capital was thrown off the bridge on to the deck."

The Band is the link between man and man: it signs the pledge of every social bond, its symbolism plays an important part in all the functions of putch and man and man; it signs the pledge of every social bond, its symbolism plays an important part in all the functions of putch and the capital was through the sanctity of an oath Clasped hands are the emblem of the alliance of nations as of individuals; the rank grasp of the hand is the token of loyal friendish; the recondiliation which puts an send to a bitter life-long redd is attested by the capital was a considered the capital was allowed the capital was a considered the capital was allowed the capita expressions relating to the hand to pass into our delly speech; to go through life "hand in hand" has become synonymous of the most entire union in thought and deed; we speak of those who are unduly influenced by others as having fallen "into their hands," and the expression "to lend a hand" is equivalent to giving help in any form—not necessarily of a material nature. Above all, the supreme beauty of the hand, its instinctive abhorrence of the teuch that contaminates, of all base, unworthy action, its shrinking from aught that might sully its native purity—is not all this admirably summed up in the popular acceptation of "clean hands" as the symbol of unstained honor?—"Carmen Syiva," Queen of Roumania, in Lloyd's London Weekly.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the invalids Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from on American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering silments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the 'lood by putting the stomach and live into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel fashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."
