We propose to meet the prices of the catalogue houses

All we ask is that you deal with us on the same basis that you deal with catalogue houses, and give us the same amount of time to get the goods which it would require to get them from them.

Plank your money down when you order the goods and we will meet each and every price they make and furnish you the same goods at the same prices they offer you.

We will go further.

We don't ask you to take any goods where mistakes are made in ordering.

We'll shoulder the mistakes

If any of you have ever had anything come wrong you know what a nice little job it is to have it corrected, no matter how willing the firm is to do so.

It takes correspondence, stamps and freight on the goods to get them exchanged, to say nothing of the loss of time.

Some people prefer to buy away from home because it sounds big to be able to say they ordered from —, etc.

We know of one party who is actually paying more for goods bought away from — than he could buy them of his dealer here.

This kind of people we can do nothing for, but the kind who are making the dollar go just as far as they can, we can and will do something for.

Give us a trial on the proposition we make, if you are one of those who are buying away from home.

Bring your catalogue with you.

If we fail to furnish the goods without a reasonable excuse don't give us your confidence again.

Try us once.

We don't fear the result.

We are your home merchants.

We help pay the taxes.

We have to live and consume some of your product.

Is our proposition wrong?

The whole trouble about our people is the same with which so many communities are suffering.

That old slow-coach credit.

Some of it so slow we never get it.

No merchant can sell goods cheap on that plan.
