BERLIN, Sept. 25—Support for Chancellor Stresemann in his efforts to bring about a speedy termination of the Ruhr and Rhineland conflict is sufficiently crystallized to warrant the prediction that the government will command more than a comfortable majority in approval of its formal declaration to the Reichstag on Thursday by Chancellor Stresemann.

The most convincing argument throughout the extended conversations of the past forty-eight hours proved to be the official admission that passive resistance has been costing Germany eight quadrillion marks weekly towards the end.

WOODEN MOULD FOR AN ARCH BREAKS UNDER WEIGHT OF 230 CUBIC YARDS.

SCHENECTADY, Sept. 17—The bodies of three men are buried in the Mohawk River, near this city, under tons of wet concrete, which forced them under water when wooden scaffolding on the Great Western Gateway Bridge gave way to-night.

About 230 cubic yards of concrete had been poured for the first arch on the northern bank of the river, workmen said, when the wooden framework gave away. The men went down with the soft mass in twelve feet of water.
