## AN INCENDIARY FIRE LAST NIGHT DAMAGED BARN

The Second Incendiary Blaze in Fredericton During Present Week

## SAME FIRE BROKE OUT AGAIN THIS MORNING

Coaches and Sleighs Stored in the Barn Were Then Removed to Safety

For the second time within a few days Fredericton has had a fire of incendiary origin. The first one occurred on Monday evening in the old building on Queen street which was the first legislative building and the second was last night at Mrs. Timothy Jones' barn on Regent street.

About nine o'clock last night an alarm was sounded from Box 32, corner Regent and Needham streets, for a fire in the barn belonging to Mrs. T. J. Jones. On the arrival of the firemen they found that a fire had been set underneath the barn and that it had been smouldering for some time before being discovered. The fire was a difficult one to fight on account of its location but in about a half hour it was extinguished and the "all out" sounded.

At 7:30 o'clock this morning smoke was discovered emanating from the barn and an alarm was rung in from Box 32. The firemen found that the fire which they thought they had extinguished last night had broken out again and apparently had been burning for some time as there was an immense smoke and it had burned several holes in the floor of the barn as well as part of the sills.

The fire did not get into the barn proper where W. P. Edwards had his winter coaches and sleighs stored. These were all removed to a place of safety and about 8 o'clock the fire was all out.

## HOSPITAL THEFT CASE IN COURT

Ray Brewer's Evidence Names Elwood Kitchen and Blair Dennison

In the Police Court this morning Elwood Kitchen appeared before Police Magistrate Limerick charged with the theft of 13 sheets, 6 pillows and 2 blankets, the property of the Dominion Government, from the D.S.C.R. Hospital on October 30th. Kitchen elected to be tried by Magistrate Limerick and pleaded not guilty to the charge.

Capt. John R. Gale appeared for Major S. S. Wetmore and called as a witness William Townsley, the storekeeper at the D. S. C. R., who testified that he had checked up his surplus stores and had collected them on an order from headquarters. The checking up had taken place on Friday and on Saturday he visited the surplus stores room and found everything all right. He had first observed the robbery on Sunday and on reporting to the matron the two had checked the goods and found 76 sheets missing as well as a number of pillows. The door had been opened leading to the store room and the hamp or staple holding the lock had been pried off.

Ray Brewer, who is employed in the engineering branch of the D. S. C. R., was called and stated that on Monday he had asked Kitchen, who was a fireman, if he knew anything about the robbery, and that if he had done anything wrong he might as well "out with it." Kitchen had stated "that damned rum will get me in trouble yet," and when told if he could tell some party of parties who had taken the goods he left the building. He returned shortly with Blair Dennison and the two were called into a room in the lower building by Brewer, who asked them how much of the stuff they had taken. They answered thirteen sheets, six pillows and two blankets and had stated that that was all they had taken and that they did not see how they could get it back. Brewer said he told them that they ought to have no trouble making up the goods taken because they were not very costly.

C. L. Dougherty began the cross-examination and the case was adjourned until this afternoon, when it will again be taken up.

## SCIENCE CLUB MET

First Lecture of Winter Series Given by Miss Matthews on Men of the Old Stone Age.

The first of the winter's series of lectures was held by the Fredericton Science Club last evening at the home of Dr. and Mrs. L. W. Bailey, University avenue.

The lecturer was Miss Christine D. Matthews, research assistant to Prof. Osborne of the American Museum of Natural History, who chose as the title of her lecture "Men of the Old Stone Age, their Art and Industry." Miss Matthews was exceedingly familiar with the subject of her lecture on account of the fact that she had helped Prof. Osborne in the preparation of his book, already a classic, on "Men of the Old Stone Age."

Miss Matthews, who is a very pleasant and entertaining speaker, called her audience back to the very earliest stages of man's history, to an age even when fire was unknown. She very graphically described the dwellings of our early ancestors, how they lived, the weapons employed in hunting, the animals they had to contend with, and the crude arts they practised in those old days.

## Noble's Recovery Believed Likely—Stevenson Has Been Remanded Until Next Week

Penniac Shooting the Culmination of Marital Troubles of a Returned Soldier Who Believed His Wife Unfaithful—Penniac People Tell of Nightly Visitors While Mrs. Stevenson and Her Sister Were Guests at "Uncle Dicky" Donald's—Reports That Second Man Was Shot Proved Untrue—Ultimate Result of Noble's Wounds Still Problematical.

Arthur L. Noble, a local lumberman, is believed to be on the way to recovery today at Victoria Hospital.

Herbert L. Stevenson, corporal in the C. E. F., and Military Medal winner, is in the York County Jail, under remand until November 12th, awaiting the recovery or death of Noble.

Mrs. Stevenson, whose husband was arrested upon her statement that he shot Noble while he was with her and her sister, has returned here from Penniac, but was said to be "too nervous" to talk this morning.

Thus the situation of the three principals in the tragic shooting at Penniac can be briefly summarized today. The case is the most sensational in recent annals in York County and the "Eternal Triangle" is admitted by the authorities to be the explanation of the shooting.

The theory generally accepted is that Stevenson, crazed by the infidelity of his wife, took the train to Penniac believing that his wife and her sister were there for no good purposes or perhaps having knowledge of her meetings with other men and determined to take revenge for his ruined home under the "Unwritten Law."

From numerous sources information has been obtained that the visit of Mrs. Stevenson and her sister at Penniac was marked by the presence almost every night of various visitors who motored to the home of Richard Donald, the old bachelor with whom they were staying, and her husband evidently was made aware of what was going on.

Four or Five Shots Fired.

Already some discrepancies in the early reports of the shooting are cropping up.

While Mrs. Stevenson has told Sheriff Hawthorn that four shots were fired it is understood that Noble told those with whom he conversed at Penniac that instead of four there were really five shots fired. The revolver with which the shooting was done is now in possession of Police Magistrate Limerick, to whom it was turned over by Sheriff Hawthorn yesterday afternoon. There were still fresh odors of powder about the revolver when it was handed over by the Sheriff, to whom it had been given during the morning by W. Harry Allen, of Penniac, a well known guide, who lives near the scene of the shooting.

Stevenson had given the revolver to Mr. Allen, it is said, and he was present when it was given to Sheriff Hawthorn. There were five live cartridges
