

SIGNALS OF DISTRESS

Newcastle People Should Know How to Read and Heed Them.

Sick kidneys give many signals of distress. The secretions are dark, contain a sediment. Passages are frequent, scanty, painful. Backache is constant day and night. Headaches and dizzy spells are frequent.

The weakened kidneys need quick help. Don't delay! Use a special kidney remedy.

Booth's Kidney Pills cure sick kidneys, backache, and urinary disorders. Newcastle evidence proves this statement.

Mrs. Archie Wright of Green St., Newcastle, N. B., says: "My back was so sore and painful that I could not stoop to lace my shoes and suffered constantly with dull sickening headaches. A dull, bearing down pain had settled across the kidneys and caused me so much suffering that I could not sleep or rest anytime. I became weak and run down and my eyes were sore and felt as though they were filled with particles of sand. I tried Booth's Kidney Pills on recommendation of a neighbor and they cured me of each and every symptom of kidney trouble. I used Booth's Laxatives also and I have never had to use a cathartic of any kind since. I had used many different constipation remedies but had not found other than temporary relief. My son Robert had doctored all over the country for kidney trouble but found no relief until he had used Booth's Kidney Pills. He is stronger and better in every way. Booth's Kidney Pills have certainly been a blessing to our home and I am glad to tell other sufferers what they did for me."

Sold by Dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

Against the request of Kent County Temperance organizations, the Kent County Council have granted two liquor licenses in Harcourt, and seven in Richibucto instead of the four which the Temperance people claim is the legal limit.

Any person who drinks 25c tea and once 30c "salads" will see that it is not only finer in flavor, but that as one pound makes many more cups, it is economical to use.

CAPT. HAINS FOUND GUILTY OF MANSLAUGHTER

FLUSHING, May 12.—Capt. Peter C. Hains, Jr. faces a prison term of from one to twenty years. He was convicted yesterday of manslaughter in the first degree for killing William E. Annis at the Bayview Yacht Club last August. There will of course be the usual motions to set aside the verdict as against the weight of evidence and contrary to law, but the unguarded jury feature is the only departure from the stereotyped proceedings.

CUBA HAS A NATIONAL LOTTERY

HAVANA, May 12.—The House of Representatives by a vote of 52 to 20 today passed the bill authorizing the establishment of a national lottery. The outline of the bill contains 39 articles which will be subject to further discussion in the House. The general terms of the project from which the Government expects to draw an annual revenue of from one million to two million for three drawings monthly, for which the number of tickets and the amount of prizes are to be left to the discretion of the treasury.

Kidney Troubles Attack Newcastle Men and Women, Old and Young.

Kidney ills seize old and young. Come quickly with the warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain.

Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child is to cure the kidneys. Booth's Kidney Pills cure sick kidneys.

Cure all forms of kidney suffering. Newcastle testimony proves it.

Mrs. D. J. Copp of Green St., Newcastle, N. B., says: "For three winters past I had suffered regularly with kidney trouble and my back had become so weak and sore that I could not get up from a chair without supporting myself with both my hands. Severe pains would shoot through my sides and back and leave me in a miserable condition. I was restless and nervous and would wake tired and unrefreshed and very often with a dull dizzy headache. The trouble had begun to show itself this winter when I heard of Booth's Kidney Pills through an advertisement at Mr. Durick's Pharmacy. I began their use and I seemed to build up generally. The pains left my back and I have not had an attack of lumbago or kidney trouble since. I can conscientiously recommend Booth's Kidney Pills as a remedy of great curative merit."

Sold by Dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

ENDINI GETS TEN YEARS

Adams Let Go On Probation And Given One More Chance

BURTON, N. B., May 12.—John Endini, the Italian, who has been on trial here for killing John McKay at minto in November last, was tonight found guilty of manslaughter and sentenced by Judge McLeod to ten years in Dorchester penitentiary, which His Honor said would be greatly shortened by good behavior.

At the conclusion of the Endini trial Samuel Adams, alias Shaw, and who is known under other names, was brought into court and received sentence. His Honor was expected to give Adams three years, and before imposing sentence asked the prisoner if he would like to say anything for himself.

The prisoner delivered an address which for beauty of language, perfectness of grammar and general effect was really sensational. He dwelt at some length on social ostracism which was the result of his confinement in the penitentiary and said that a man was what his environment made him. He told the judge that it was not the confinement he dreaded but the ostracism, and that he would rather go to his death than spend any more time in the penitentiary.

Judge McLeod after some consideration agreeably surprised most of those present by allowing Adams a chance to redeem his past and become once more the man his statement fitted him to be.

TROUT BROOK.

The weather for the past few days has been very fine and some of the men have begun to farm.

Most of the young men of this vicinity have gone to the drive. Some of the young ladies go around looking very sad.

Misses Violet and Mary B. Wayne spent last Tuesday evening the guests of Miss Emaline Lumsden here.

We congratulate Mr. and Mrs. Howard Copp on the arrival of a daughter.

Our teacher, Miss Margaret G. Sobey spent last Tuesday at the River, the guest of Mrs. Edward Wayne.

The little son of Mr. and Mrs. Jerry Mullen, who has been very ill, is, we are glad to hear improving.

Miss Alice M. Cain was the guest of the Misses Wayne on Wednesday last.

WOMEN'S WOFs.

Newcastle Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over when to stoop means torture. They must walk and bend and work with aching backs and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. J. T. McDonald of Mitchell St., Newcastle, N. B., says: "Severe, twinging pains would catch me across the small of my back and extend around my sides. Often these would come on me while stooping and I would be unable to straighten myself up for many seconds and the suffering was almost unbearable. Stooping would also make me so dizzy that I continued the treatment and gradually built up until I had been cured of each and every symptom of kidney trouble that had effected me for years and which all else had failed to cure." Sold by Dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

BIG BICYCLE MEET IN SIGHT

TORONTO, May 15.—Report has it that several bicycle organizations in Toronto with the assistance of the C. W. A. have almost concluded arrangements for holding three big bicycle track meets in Toronto during the coming summer. The question of securing a suitable track seems to be the only thing now to be decided and this will probably be settled during the coming week.

It is announced that the first meet will come off in June, another in July and the last probably during the end of August.

The fact that bicycle racing has remained a high stand in public estimation in the United States, where weekly meets are even now in progress, leads the Canadian promoters to believe that they will succeed here.

MORRIS HAS 26 SUPPORTERS

ST. JOHNS Nfld., May 11.—Practically complete returns tonight from the voting in Saturday's election show that the party headed by Sir Edward Morris has had an overwhelming victory and that Premier Morris will have twenty six members in the Legislature as against ten supporters of Sir Robert Bond, the former head of the government. In the election last November each side elected 18 members, a situation which resulted in Saturday's balloting.

Premier Morris and his two colleagues carried the West division of St. Johns, and Bond and two supporters were elected in Twillingate.

Colonial Secretary Watson of the Morris cabinet and two colleagues were successful in Trinity—a gain of two seats for the Morrisites in that district.

In Fortune Bay Cabinet Minister Emmerson was elected. Attorney General Morris and Surveyor General Blandford were chosen in Bonaville. Four districts missing gave heavy Bondite majorities in the last election, and these are conceded to that party, so that the figures tonight will undoubtedly settle the election.

A QUESTION OF HEALTH.

Without Rich, Red Blood You Cannot be Healthy—How to Obtain This Blessing.

Obtain This Blessing.

If every woman and young girl would realize the danger of allowing blood to become thin and poor, would understand that the majority of common diseases are caused by an anemic (or bloodless) condition, that persistent pallor means that the blood is not furnishing the organs with the required amount of nourishment, there would be awakened interest in the tonic treatment with Dr. Williams' Pink Pills. Thin blood means starved nerves, weakened digestion, functional disorders, headaches, frequently neuralgia, sciatica and even partial paralysis. Dr. Williams' Pink Pills build up the blood, repair waste and prevent and check disease. They fill the system with rich, red blood which means good health and life.

Miss Marie Dionne, St. Angelo, Que., says: "I am deeply grateful for what Dr. Williams' Pink Pills have done for me. My blood had almost turned to water. I was pale, had no appetite, suffered from pains in the back and side, and had a feeling of constant depression. The smallest exertion would leave me breathless, and I was reduced in flesh until I weighed 98 pounds. I got nothing to help me until I began the use of Dr. Williams' Pink Pills. They began helping me after the first couple of weeks, and in a few weeks more I was again perfectly well. The color returned to my cheeks, the pains left me, and I gained in weight until now I weigh 130 pounds. I feel so happy for what Dr. Williams' Pink Pills have done for me that I hope some other ailing, miserable girl will profit by my experience and obtain new health."

These Pills are sold by all medicine dealers or you can get them by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

FRUIT GROWING IN BRITISH COLUMBIA

It is in compliance with numerous requests that I write this article respecting British Columbia fruit farms, and the reason why I have selected a fruit farm in the Kootenays in preference to any other district.

Perhaps the thing that first set me thinking about securing a fruit farm in B. C. was a remark made by a friend of mine at a small social gathering in Winnipeg. We had just had a box of fruit from the Kootenays and when the time for separating came one of them remarked: "What a pity it is that friends must be separated. I suppose that within five years we will all be separated and will never see each other again. I wish there was some place where we could all settle a few years from now and be together the rest of our lives." Instantly another asked: "What is the matter with a fruit farm for each of us in B. C.?"

That is how it began. When I resigned my church in Winnipeg in June, it was agreed that I should go West and find a suitable place in which we could each buy a small fruit farm.

I travelled through Idaho, Oregon and Washington States looking over some of the finest fruit sections of the United States. I saw some magnificent orchards, but the land must be irrigated, an operation that cost an enormous amount of money and is never quite satisfactory; neither is the fruit grown upon irrigated land as good as that grown on non-irrigated land.

The Hood River strawberries are famous throughout the world, but they are in no way superior to those which I have seen along Arrow Lake where land can be bought at one quarter of what it costs in the Hood River district.

I then came to the Spokane and in my tour of inspection, visited Trail, Nelson, East Kootenay, and Boundary District and the Okanogan, after which I took the steamer "Kootenay" for a sail up the Arrow Lakes, which, with the exception of the Whistler Lakes are the finest bodies of water I have ever seen. The grandeur and wild pretension of the scenery, the abundance and almost tropical luxuriance of the native vines and wild flowers, the smiling orchards which fringe each side of the lakes, charm the eye and delect the traveler into believing that he has entered the enchanted gardens of dream land. One can easily appreciate the indignation of Mr. W. R. Hearst when he said: "I have seen the most beautiful lakes of Italy and Switzerland but I have never seen anything finer than the Arrow Lakes."

Landing at the "Noodle" I walked out a mile into the Wharshan Valley and here I found what I had been looking for and what I had been told could not be found in B. C. Several thousand acres of first class fruit land practically as level as a floor and which having been recently swept by heavy fires can be cleared at very small cost. It was a case of "love at first sight." I had found a suitable place at last, where I could do as could live and grapes and orchards and flowering vines.

Fruit growing in this district is still in its infancy but has long since passed the experimental stage. A number of intelligent and prosperous farmers are growing fruit here that is not only winning prizes at the local exhibition but has won the highest awards in the great Fair at Spokane and London. Mr. Faucher sent 28 exhibits to the Nelson Fair and won 20 prizes. I saw these prizes three weeks ago in Mr. Faucher's own home at Needles.

At the recent exhibition of the Royal Horticultural Society in London, England, the silver Banksian Medal was awarded to Kootenay District for its exhibit.

The fruit of Kootenay has called forth unstinted praise from all who have visited her orchard during the fruiting season. Richard Grieg, British Trade Commissioner, said: "I never saw such magnificent fruit nor trees of a farm so nearly perfect as in the Kootenays." Dr. Fletcher of Ottawa, said: "I have again visited a large number of your bearing orchards, some of which have been bearing for many years, and I have made a most careful inspection of trees and fruit, and my judgment is that you have here a combination of soil and climate which enables you to grow all kinds of fruit, which for quality and quantity cannot be excelled on this continent."

Professor Mills of Guelph Agricultural College, said: "I have never seen anything finer than the fruit of the Kootenay District. You have a fruit country unsurpassed by anything in the Dominion." A. McNeil, Chief of the Dominion Fruit Division at Ottawa, said: "The only Province of Canada that can produce apples of the fancy class is British Columbia and I have come to the conclusion that the only district, even in British Columbia, that can produce it is the Kootenay. The soil and climate are wonderful, unequalled anywhere in Canada."

Earl Grey, Governor General of Canada, said: "What I have seen and learned of your fruit industry has in-

led me to believe that it is as the separate streams of wealth that flow from your military, your timber and your fisheries, that fruit and highly valued will be added to the streams of national wealth, of domestic contentment, which is one day destined to grow from out the orchards of British Columbia.

Since the above words were spoken Lord Horthwick, son of Earl Grey, has purchased a tract of land in the Kootenay District and is bringing it under cultivation for fruit growing. The reports of a Kootenay orchard almost surpass belief. I have a photograph of a five year old Northern Spy tree on Faucher's farm that this year produced eight boxes of apples which sold at \$2.00 per box. A Northern Spy Tree in Ontario or Nova Scotia requires from ten to fifteen years to come into bearing.

He was offered \$25.00 per tree for the fruit on his Gravestones before they were loaded, but he refused the offer, picked the apples himself and netted \$900.00 from each tree. Each one of these trees will give as much profit as two acres of the best wheat land on the prairie, and there are 120 of these trees on the farm, besides an equal number of pear, plum, prune, cherry and peach trees which are put in as fillers. Strawberries which are cultivated between the rows of trees will net from \$50.00 to \$80.00 per acre. I picked strawberries at Needles June 17th that measured nine inches in circumference.

In conversation with Mr. Faucher a month ago he told me that he had not sold a box of Northern Spy apples this year for less than \$2 and that the lowest price he had received for any apples whatever was \$1.75 per box of forty pounds. He took two and a half tons of tomatoes from a quarter of an acre and sold them for \$150.00 per acre. He sold \$700 worth of celery this last summer. I visited Mr. Gilbert's farm at Needles and he pointed out to me an acre of land from which he had taken ten tons of potatoes without using any fertilizer of any kind. He told me that some of his potatoes would weigh three lbs. each.

I saw a ten acre apple orchard near Trail, situated on the steep side of a mountain, with soil very rocky and very uneven for which the owner refused \$10,000. His reply to my question as to why he had refused \$10,000 for his small orchard was suggestive—I take five thousand dollars a year from it. In two years I will get my \$10,000 and have my orchard besides. Why should I sell it for \$10,000?

The market for B. C. fruit cannot be surpassed. The orchards cannot supply the local market. I paid ten cents per pound for apples at Nelson and they were very inferior apples at that, having been imported from U. S. I was told by the Nelson Board of Trade that 6000 tons of fruit were shipped to B. C. from the U. S. during the past year. Only 5 per cent of B. C. land can be brought into cultivation and not more than 2 per cent of it is suitable for fruit culture, and although hundreds of thousands of fruit trees will be set out this year,

the supply of fruit is so great that the demand made by the thousands of military towns that are springing up all over B. C. the gigantic logging camps and the thousands of others who are constantly pouring into the country.

Should the local market ever become overstocked, then fruit from the other side of the States to the Rockies will come. That great water farm, 1500 miles long and 1200 miles wide, on whose fertile divisions a great host of industries and happy farmers are raising the golden wheat that is to feed the hungry mouths of three continents and all Canada. With yellow gold, J. J. Hill, the Railroad Wizard, says that in ten years Canada will have a population of fifty millions and he is raising his railroad straight through the heart of Winnipeg houses and churches and factories and shops being moved or torn down, to make way for the great steam monsters, the wheels of another great system that is to run with long threads of steel through the heart of the Prairie, with Vancouver at the sea. J. J. Hill is a prophet. He has had his vision. He has seen Canada as she is to be, the seat of a booming millions of happy workers and industrious people, and he is spending literally of his vast wealth to lay down the lines of travel and traffic for these coming millions.

Two per cent of the land of B. C. must supply fruit for all these. The overstocking of the market is a problem that will not confront the farmer of B. C.

One wrong thought is righted. Two transportation companies will carry a man from Germany, Norway or any part of eastern Europe into B. C. as cheaply if not cheaper than they will carry a man from the Maritime Provinces and across a fruit foreground getting the very cream of our country whilst Canada's own sea route is stony and unproductive soiling through a winter six months long, trying to clear out a scanty subsistence. I wish our railroads would give the people of these Eastern Provinces the opportunity to see, at a reasonable cost, the great legacy of fertile wheat and fruit lands which a benevolent Father has bequeathed to them.

I had two purposes in visiting B. C. this winter. One was to visit some of the best fruit sections of the country and the other to get my own farm of 16 acres which is situated in the fertile and beautiful Whistler Valley, cleared of trees so that I can set out my orchard in the coming spring. From being a colony of six Winnipeg friends the number has grown until now there are between thirty and forty families of us most of them being from the Maritime Provinces and the number is steadily growing until now it looks almost as if it would soon number up into the hundreds. There is room enough in the Whistler Valley for almost four hundred families, and when the land is all in fruit and dotted with neat and comfortable homes, it will be the most beautiful spot on God's green earth.
