GOOD BLOOD WILL SHOW ITS QUALITY, SO WILL BAD BLOOD.

The one in a healthy body and ruddy complexion, the other in ill-health, blotches, pimples, boils and sores, and frequently in interior forms as ulcers, rheumatisms, erysipelas, salt rheum, etc.

Every organ of the body depends on the blood for force and vitality, and is but scantily served when the blood is impure. No remedy is so potent as a blood purifier or more rapidly produces new and healthy blood than

Farm Facts and Fancies

The crop situation shows little change. Canadians will have to be satisfied this year with a below the average yield in most cereals. Prices, however, are likely to rule higher than last year, so that the value of the 1907 crop may not be much below that of 1906. This will apply specially to the West, where farmers will probably receive as much money for this year's crop as they did last year for a larger yield.

No where in the world perhaps are the fall exhibitions of so much educational value to the people who attend them as in Canada. The Canadian National Exhibition

now in progress in Toronto stands almost without a peer in this respect. It is a happy combination of the useful and the entertaining. Every class of sightseer, if he looks for it, can learn something of value and have all the recreation he desires thrown in. In manufactures, in agriculture, in live stock, in horticulture, in poultry, in the dairy, etc., the best that this country produces will be found and displayed so as to present the greatest amount of educational value. Interspersed with these are wholesome forms of amusement, all calculated to make the outing both pleasant and profitable to every visitor.

The combination of the useful and the entertaining is as it should be. "All work and no play makes Jack a dull boy" is a maxim that will apply to people of older years as well as to those on the threshold of life. The fall fair is the annual outing for a great many people. Though eager to learn as much as possible they appreciate a little wholesome amusement in addition. The managers of exhibitions should therefore endeavor to provide such educational features and amusements as will, best conduce to the building up of the districts in which these fairs are held. This will benefit the exhibitions financially and otherwise.

Those responsible for the enforcement of the Seed Control Act this season are endeavoring to make good the promise that this Act would greatly help in ridding the country of impure seeds. In 1906, there were several persons detected deliberately breaking the act. These were let go unpunished and the Seed Branch came in

for some criticism for its leniency in not having those parties punished. This year the law is being enforced, and a couple of seed merchants have been up before the courts for breaking the Act, and fined. Considering the nature of the offence and injury to any community by the distribution of impure seed, the fines imposed were small. Magistrates will do a great injustice to the farming community if they do not mete out punishment to fit the crime upon everyone who deliberately contravenes the Act and offers impure seeds for sale.

Was Weak and Run Down

WOULD VERY OFTEN FAINT AWAY

Mrs. J. H. Armstrong, Port Elmsley, Ont., tells of her experience with

MILBURN'S HEART AND NERVE PILLS.

She writes: "It is with gratitude I tell how your Heart and Nerve Pills benefited me."

"I was very weak and run down, had headaches nearly every day and very often would faint away, in fact, my doctor said that sometime I would never come out of the faint. It was through one of your travelling agents that I was induced to try Milburn's Heart and Nerve Pills and after taking three boxes I am glad to relate it has been a number of years since I had a fainting spell and scarcely ever have a headache. Too much cannot be said in praise of Milburn's Heart and Nerve Pills, for in me they have effected a perfect cure."

Dollars and Dimes, Dollars and Dimes, An Empty Pocket is the worst of Crimes

his individual efforts for his livelihood, is accounted a failure. He no longer commands the respect of the multitude but receives instead their scorn or pity.

Have you ever thought of these things?

What are you doing to make yourself independent?

Your hand or brain devoted to another man's cause can never make you wealthy.

Nor can your dollars.

The man who only saves is at best a plodder.

He should invest his dollars.

Look about you.

There are successful people on every side.

Why don't you ever wondered how they made money while others have not?

Excluding those rich by inheritance, and those rich by fraud, there remains countless thousands of men and women who, starting practically without a dollar, have built up for themselves wealth or a handsome competence, and are no longer dependent on their hands for support.

These people have made money first by working for and earning dollars, and then by putting their dollars to work.

You are cheating yourself and your family when you do not save from your earnings and put your earnings to work.

Suppose you put your savings in a bank. The bank pays 3 per cent. How can it? Because it invests your money so that it will bring much more than 3 per cent—

enough more so that most bank-ers become very wealthy on the difference between your interest and theirs.

And what if they invest unwise-ly and lose all, as they sometimes do? Why, it's your money and your loss—not theirs.

You have not the control of your own capital—do not even know they are doing with your money.

You are making your dollars work for others. Why don't you make them work for you?

The banker invests your dollars; pockets their earning power, and gives you 3 per cent.

Why don't you do your own investing and make the profit for yourself?

You may think you have no opportunity.

But you have.

Opportunities are at every hand. No man or woman exists that has not had some opportunity for financial advancement.

The trouble is: most opportunities wear rubber shoes, and the public sleepily refuse to hear them.

One of the world's most successful financiers, when asked how he made money so fast, replied:

"I have an agent at the elbow of every opportunity and never let one pass without paying me tribute."

Don't you realize that every great fortune had its humble beginning. That just a few dollars have grown to millions?

Look at Andrew Carnegie. He saved up \$500.00 and made his

first investment in Adams Express Company stock. It paid him big interest almost from the start.

You know what it can do for you today.

There are hundreds of similar examples.

"No one ever succeeds except by doing things."—John D. Rockefeller.

To become wealthy—successfully—you must save and invest your savings.

Where were you in the year 1896, and what were you doing? Couldn't you have saved \$100.00 without inconveniencing yourself?

Suppose you did save \$100.00 and invested it in CROW'S NEST PASS COAL MINE STOCK. This stock was sold in 1896 to small investors at 10 cents a share—six years thereafter it was worth \$100.00 a share, and to day is selling for \$285.00 a share, or your \$100.00 invested then would pay you a dividend of over \$10,000.00 a year and be worth \$285,000.00.

Opportunity is always knocking at the door.
