# Prominent St. Catharizes Physcian Passed Away To-day.

(Special Despatch to the Times.) St. Catharines, Ont., April 9.— Dr Edwin Goodman, the dean of the medi

cal profession of the Niagara District Guelph, Ont., April 9.—Interest is beginning to awaken in Provincial politics and the Liberals have called a convention for the 25th when a candidate will be chosen to enter the field against Joe Downey, The name of Mr. A. W. Tyson, who ran against Mr. Downey at the last election, is most talked of. Mr. Wm. Laidlaw, president of the Fairs Association, is also mentioned as a likely candidate. Hon. A. G. McKay will be present at the meeting.

This morning a prominent socialist of the city stated definitely that it was the intention of the Socialists to put a candidate in the field for the Provincial House. A branch of the Independent Labor parts has also been recently established with the intention of putting up a man. It is all probable that these two factions may unite in supporting one man and then take up a third corner in the fight. Evidently there will be a hot campaign in South Wellington.

# **MARKETS** and FINANCE

Thursday, April 9.— There was quite a large market to-day, much larger than a mid-week market has been for a long time. Sales were reported good. Farmers are in as optimistic a mood as ever and are predicting first class crops. The recent rains has made the wheat look well. Butter was inclined to be a little easier, a better supply coming in. Eggs are not so plentiful as they were and are getting dearer. Meat has taken quite a jump in prices, but nevertheless found quick sales. Fish was plentiful, this morning, a lovely lot, fresh caught, finding ready buyers. The supply of all kinds of fish for Easter will be plentiful and good. Flowers made a good showing this morning, roses selling as low as 60 cents a dozen, cut.

The grain and hay market remains the same Sales were reported good. Farmers are in as

There is really no wool coming in and will not be before June 1, meantime, prices are nominal. Owing to the decline in the late London sales which closed 25 per cent. lower than the January and February on wool similar to Canadian grown, the local wool market is in bad shape.

Stocks and Bonds New York, April 9.—The market during the morning developed good buying in Union Pacific, but the most influential trading in leading issues was on the seliulg side, traders regarding favorable news as discounted. The showing of B. R. T. of only 3.47 per cent, on the stock for the six months ending Dec. 31 considering that the second hatf of the year will cover a period of financial depression, and will include losses to open the subway, is regarded as very poor. The Interboro Rapid Transit Company to issue \$25,000,000 will probably result in a substantial advance in Interboro bond. There would be a surplus of some \$2,3000,000 over requirements if the net in a substantial advance in Interboro bond. There would be a surplus of some \$2,3000,000 over requirements if the net should show not more than 15 per cent, during the last four months of the fiscal period. This accounts for the low price of the stock. A good bank statement is indicated. The trend is upward.— Ennis & Stoppani.
