were the country with Read Commissioners; but to have proposed they though time; in the country with Read Commissioners; but to have proposed they proposely of an early seasoned to require the production of the country of the protection of the protection of the country of the protection of the pressed state of our revenue was attributable to causes the very reverse—unfavorable sensons, failure of crops, and the consequent almost atter destitution of a very large proportion of the new settlers in the Colony, and, on the part of others, not only a want of produce for exportation, but insufficiency for home consumption. As to there having been no necessity for calling the House together at an earlier period than usual, if the manner is which the road-service had, of late, been conducted were fully considered, the great necessity for an improvement in that service which could not fail to appear, would alone shew that there had been cause enough to suggest to Hig Excellency the propriety of an early summoning of

influence. Had I been in the place of the Hon. Mr. Coles, I would have acted with more mo-

NEW BRUNSWICK.

The General Assembly of New Brunswick met at Fredericton on Thursday lagt the 7th, inst. In his opening Speech, His Excellency the Lieutenant Governor, briefly adverted to the general prosperity of all classes engaged in industrial occupations: the exemption of New Brunswick from disease, and the fear of war. He expressed his full confidence in the honor and resources of those who had undertaken the construction of the St. John and Sliediae Railway. Funds had been advanced to remair the way. Funds had been advanced to repair the damage to the roads and bridges by the unexpected freshet last autumn and he urged the necessity for some system of efficient inspection and control over this portion of the public expenditure. He recommended the passage of a Bill for the security of passengers and merchandise on board steamers. He then noticed the prosperous state of the finances of the Province, and the action of the Government in paying off the public debt, and concluded with a reference to the Reports of the Commissioners for consolidating and amending the Provincial Laws.

Laws.

On the three following days, the Lower House was chiefly occupied with the address in reply to His Excellency Speech. Amendments were moved by several members to some of the clauses, but were negatived on divisions. The address was finally agreed to, and ordered to be engrossed, and signed by the Speaker on Monday evening. Yesterday a great number of petitions were presented. The tender of Mesars. Hill and Graham for reporting and publishing the Debates for £290, was accepted. Bills to reduce the fees on Marriage Licences; and to alter and amend the Highway Act, have been brought in, and read a first time.

Rolloway's Pills for the Cure of Sick Readaches, Bile, and Weak and Disordered Elomachs.

—These wonderful Pills have been the means of
restoring to health many persons pronounced insurable by the faculty, both at home and abresd. They
may be taken with perfect safety, and a centainity of effecting a cure, by persons suffering from
general debility, sick headache, diseases of the stemach, bile, or liver complaints, and those who are
predisposed to dropsy cannot use a more effectual
remedy than Holloway's Pills, acting as they do
upon the very main-springs of life, an disease can
resist their influence. The effect they have is mild,
ybt speedy, and as a feasily medicine they are unequalled,
