

**CHRONIC BRONCHITIS**

Cannot be cured with ordinary soothing syrups. The disease must be attacked at the root to eradicate the irritation of the lungs, heal the wounds and strengthen the respiratory organs. The composition of

**MATHIEU'S SYRUP** of Tar and Cod Liver Oil and other Medicinal Extracts marks it amongst all other remedies as the true specific for the diseases of the throat, the bronchial tubes and the lungs. Here are a few conclusive proofs:

**The Evening Chit-Chat**

By RUTH CAMERON

On one of my friends dressing tables stands a little wooden bank. Every time she says the word "bet" a nickel goes into it. When she says "What do you know about that," it tinkles to the tune of a dime. Several minor offences are paid for by pennies. Among them is the use of the word "absolutely." Not that there is anything objectionable in that word. Merely that she has caught herself using it to an absurd degree. When the bank is as full as it can hold its contents are to go to the Salvation Army. How does that strike you as a combination of self improvement and charity? Probably you don't say "you bet," or "What do you know about that," or "absolutely," but you undoubtedly have some such mannerisms of speech that it would improve you to be rid of. And maybe you are not a patron of the Salvation Army, but doubtless you can find some other charity that will know how to use your mannerism money.

The bump of observation is one of the most valuable assets for business or professional success that anyone can have. Do you possess it? If you don't, perhaps you will be interested in a method of acquiring such a bump that a man I know has taken.

**The Fountain Head of Life Is The Stomach**

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment. This "Discovery" is a pure, glyceric extract of American medicinal roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrapper. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

**Fads and Fashions.**

Chamois dyed to match the color of the gown is being used for girdles and belts. The more barbaric looking the girdle, the more stylish it is. Checked opaline taffetas, which reflect the colors of a shattered rainbow, are liked for afternoon wear. Veiled discretely with neutral-tinted mouseline. The cottonball fringe, sometimes quite elaborately knotted, is being much used as a finish to table covers, as well as to bed spreads and for window drapery. The sailor collar of fur has been much favoured this winter and it is not surprising that this marine suggestion should be used on many of the silk and linen suits. Children's styles are strongly Napoleonic. They, as well as their mothers, are wearing the military coat without the capes, fastened up the side, with heavy gold or braided frogs. White cotton crepe will be used quite as much this spring and summer as last year. Some waists of this material are now seen, rich with elaborate designs embroidered in colors. As a happy medium between the high waist line of the Directoire period and the low line of the moyen-age, the girdle, more attractive than ever, has been placed on many of the newest gowns. Elaborations have reached the skirts and in place of the long plain draperies which were so plentiful last year, one finds now skirts that are as much mazes of needlework of one kind or another as the waists.

**Poor Potato Crops.**  
Editor Evening Telegram. Dear Sir,—Last spring we had an Agricultural Society established here under an able President and Secretary. Their first problem was to give out the equal distribution of the sacks of potatoes amongst two thousand people. This they accomplished and emerged from the ordeal unharmed. Heretofore we have had poor crops of potatoes but since the introduction of this seed, people say that the potato crop is going to be poor this year. How would it be for the esteemed Secretary of the Agricultural Society to visit Codroy Valley and see for himself all the improvements inaugurated there. Of course he cannot infringe on Mr. Lowney or the little man's work here. But he could interview Mr. Lowney and talk over with him the very best methods to assure the Sable Island Ponies, and if they agree he could at once put her for the Island and snare all the ponies and mules a man can have them landed at Incauta. This would be the best of all the master-pieces. Some of these men should write a book on agricultural matters not for money, but for pure love of country. Yours truly, T. J. Edens.

**Railway News.**  
Mr. W. D. Reid, who had been out to the end of the branch railway, accompanied by Mr. Pilsboll and Mr. T. A. Hall, Government Engineer, returned by the accommodation train to-day at 12.30. Interviewed by a Telegram reporter, Mr. Reid said that there were 37 1/2 miles of the road graded to within 5 miles of Trinity. Mr. Burton will move his headquarters to Trinity ten-days hence. The ballasting is completed to Southern Bay and the masonry work is done to Goose Bay. The country between Seal Cove and Trinity is very hilly and in several places heavy work is required, so that the progress will be slow for a few weeks. There are about 2,000 men employed and everything is progressing well. No accidents have occurred of any consequence.
