McGrath's "Godless School" Cry

Sir R. Bond Very Emphatic and Very Strong on the Question.

P. T. McGrath soon shut off his crying and lying about "godless schools," but not before he had insulted every clergyman and every district in the island. His attempt to kindle the fires of sectarianism was a blank failure, and he will suffer in some way or other for the dastardly attempt. Sir Robert Bond is a true man and a gentleman. The Plaindealer says "the name of P. T. McGrath stands for all that is low and base and vile in public life." In contradistinction we can apply the words of Shakespeare to the Right Hon. Sir R. Bond:—

"What stronger breast plate than a heart untaught?
Thrice is he armed that hath his quarrel just;
And he but naked, though locked up in steel,
Whose conscience with injustice is corrupted."

It was a sorry day for Morris when he took McGrath to his breast and he will find it out soon. You intelligent and respectable men of the West End spurn him and the other henchmen and do your duty to give the Tories a quick run out.

There is a Ring About the Outspoken Truth That Cannot be Mistaken.

This is what Premier Bond said when moving the second reading of the Education Bill:—

"There are some who profess to believe that religious instruction is out of place in the ordinary day school."

With such a view I have no sympathy

whatever. When we consider that the business of education is to assert the growth of our spiritual nature, to dispose of the circumstances that affect it in such a way as best to promote the harmonious development of all the faculties then we recognize the importance of an education that is not divorced from religious training. Now Morris and Morrisow, and P. T. McGrath and the rest of your Tory Clique, what do you think of that? These are the words of a gentleman—an educated man—whose genius and penetration can never be approached by puny mortals like you. Your countrymen are ashamed of you. No wonder they are anxious for the time to come to turn you out of office.

Bob Bartlett's Ship Not Damaged.

Editor The Evening Telegram.
Dear Sir,—A sort time ago there was an article in the daily papers saying that the "Korvik" had been damaged by ice at Point Barrow, and as Bob's friends in St. John's were a little uneasy, I would like for you to insert a contradiction to that in this way:—
I had a letter from Bob from Barrow, saying that he had arrived there all well, and the ship was all right only delayed a few days with ice, but he expected to get on first change of wind. He also said that winter had set in with snow and frost. He expected to winter at Prince Patrick Island and that we should hear from him later from Herschel Island.
By inserting the above in The Evening Telegram you will much oblige
Yours very truly,
WM. BARTLETT.

Brigus, Sept. 12th, 1913.

Hand Cut Off.

A man named Dare, yesterday afternoon, working with the Reid Nfld. Co. at their work works, met with an appalling accident. While trying to adjust a saw to his own satisfaction as it was rapidly revolving, his right arm came into contact with it and the hand was completely severed and fell into the dust heap. Men near applied a tourniquet and quickly checked the flow of blood. The man was then rushed to the pharmacy of Mr. Peter O'Mara when Dr. Roberts promptly responded to a telephone call, bandaged the wound and had the man hurried to hospital. The man passed a fairly good night despite the awful accident which happened. The physicians at the hospital hope to save his life.

Girls! Just Try It. Beautify Your Hair

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as young girl's after a "Dandarine hair cleanser." Just try this—glisten a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandarine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Dandarine from any drug-gist or toilet counter, and just try it.

THANKS—The Ladies Committee of the Garden Party, Holyrood, beg gratefully to thank all the kind and generous friends from far and near who by their donations and contributions helped so greatly to make their enterprise a financial success.—adv. 11

Special to Evening Telegram.

MUNSTER, Germany, Sept. 12. Aviator Hans Lorenz was killed here to-day as he was completing a two hours' flight.

SAN FRANCISCO, Sept. 12. Falcon and Hope Islands of the Friendly and Tonga groups in the South Pacific, have disappeared from view, and with them several hundred natives and a few white men.

MONTREAL, Sept. 12. It developed to-day that Drs. Gurd and Beauchamp, physicians engaged as alienists by the Immigration Department of the Board of Inquiry, sitting in Thaw's case, refused to declare him insane.

NEW YORK, Sept. 12. More than fifty youths were arrested during the night for smashing straw hats to emphasize their opinion that the straw season was over. Most were fined \$5 or \$10. The young rowdies were for the most part working on trolley cars.

POUGHKEEPSIE, Sept. 12. District Attorney Conger left for Albany this morning with extradition papers asking for Thaw's return from Colebrook, New Hampshire. As soon as acting Governor Glynn signs the papers, Conger will take them to Colebrook.

LONDON, Sept. 12. The Emperor sailed to-day with the largest number of guests ever on board a ship, 5,019, including passengers and crew. The crew, with nearly 200 extra stewards, numbered nearly 1,400. The Emperor's record cannot be lowered until the new giant Cunarder, Aquitania, is commissioned.

BERLIN, Sept. 12. Death to-day claimed its fifth victim of the aeroplane accident at Buechen Hermin, yesterday, when a military machine, piloted by Lieut. Schneider, crashed into the spectators, four of whom were decapitated by the propellers and two others badly injured. To-day's fatality makes the twenty-fourth death due to aircraft disasters in this country during five days.

LONDON, Sept. 12. Learned experts attached to the Admiralty are investigating a privately built dirigible of 1,500 miles radius, called the Britannia. The airship is stated to have a lifting capacity of five tons. Two years ago, following the collapse of the Mayfly, a British airship of the rigid Zeppelin type, experts in airship construction were reported to have begun to build secretly at Barrow in Furness, another airship similar, but of an improved pattern.

NEW YORK, Sept. 12. The Board of Estimates has been called together by Adolph Kline to arrange for a public funeral to be held here after the arrival of Mayor Gaynor's body aboard the steamer Lusitania, which is due here Tuesday. The recent resignation of John Mitchell, now a candidate for the Mayoralty, from the presidency of the Board, has placed Kline Vice-Chairman, in the Mayor's chair, and so left that body without a head. The new Mayor is a Republican, and will serve until Mayor Gaynor's successor, to be elected in November, is installed on Jan. 1st. He has announced his intention to carry out Mayor Gaynor's policies, so far as he knows them, and to make no changes in the officials, none of whom will probably resign.

Obituary.

The many friends of Col. Rees, head of the social work in Canada of the Salvation Army, will sympathize with him deeply on the occasion of the death of his daughter, Gwenne, and his son-in-law, Capt. Wakison of Peterboro, Ont., says the St. John Globe. Both these deaths occurred in Toronto in the same week and were due to typhoid. Captain Wakison was stationed in Peterboro, Ont., but has been in charge of the Army's fresh air camp near Toronto. Col. Rees was a well known figure in Toronto and here.

MINARD'S LINIMENT FOR SALE EVERYWHERE.

Morris's Boast.

Editor Evening Telegram.

Dear Sir,—We wonder what Morris hopes to gain by flinging in the face of the people all the time that he gave the people \$1.50 a day on the railway. Of course he did not do it, but if he did what is it?

What did a member of the Legislature say about railway employment. He said this: "During the construction of the road the men have obtained only a miserable living, with greater exposure and greater toil than their fellow-fishermen have been called upon to endure. Out early in the morning and home late at night, forced to pay high prices for provisions with other incidental charges and with no time allowance except when their backs have been bent and their brows bathed in perspiration, toiling along with pick and shovel the railway laborers have worked harder and profited less than the fishermen of the Colony."

This picture presents a condition of things that no man can gainsay, and that must be remedied when the new Government takes office. It is but little good to laborers to give them \$1.50 with one hand and take half of it away with the other hand. Bond is the Only Man Who Can Apply the Remedy.

The railway laborers must be protected from imposition—\$1.50 clear of charges for incidentals is not too much for a laborer. There is a great cry about \$1.50 a day, as if our people were overfed beggars, but when they are charged for picks and shovels and other things, what they have to bring home to their wives and families will not pay for their home expenses while they have been away.

This matter must receive proper consideration. Not by Morris, but by BOND. Morris is a Red man, nobody can deny that. The time is come now for the people to ask to have their rights protected. They must get \$1.50 a day with no incidental charges whatever.

I have known of cases where the poor mother and her helpless children have been waiting anxiously for weeks for the bread-winner to return from the line with something to supply their wants, and I have witnessed the disappointment when it was found the means were so small.

Give Sir R. Bond a Strong Hand. We must give Sir R. Bond a strong hand to deal with this matter in the interest of our fishermen and laborers. How can our people live at all under such circumstances, each taxpayer crushing their very lives, while the present public office-holders and are accomplices in extravagance are swamping away every year with hundreds of thousands of dollars. Fishermen, you must stop it quickly by turning the rascals out before your country is cursed with hopeless ruin.

PICK and SHOVEL. Somebody said that it couldn't be done. But he with a chuckle replied: "That 'maybe it couldn't," but he would be on it."

Who wouldn't say so till he'd tried. So he buckled right in, with a trace of a grin. On his face. If he worried, he hid it. He started to sing as he tackled the thing. That couldn't be done—and he did it. Somebody scoffed: "Oh, you'll never do that—"

At least no one ever has done it. But he took off his coat and he took off his hat. And the first thing we knew he'd begun it. With a lift of his chin and a bit of a grin. Without any doubting or quiddit. He started to sing as he tackled the thing. That couldn't be done—and he did it.

There are thousands who will tell you it cannot be done. There are thousands who prophesy failure; There are thousands who point out to you, one by one, The dangers that wait to assail you. But just buckle in with a bit of a grin. Then take off your coat and go to it. Just start in to sing as you tackle the thing. That cannot be done—and you'll do it.

ALWAYS MASTER OF THE ROAD.

Look for the Dunlop Traction Tread trail on asphalt and on mud. It's the "V" line to comfort. No chains; no skidding.

A WEATHERABLE TIRE.

It is just weather like we get here in Newfoundland that gives Dunlop Traction Tread Tires a chance to show their class—and motorists who have them know it.

Created because of the insufficiency of the so-called non-slip or "buttoned" tread.

Marketed only after the most exhaustive tests ever given to an anti-skid tire.

Proven itself the only real anti-skid tire obtainable—bar none. That's

DUNLOP TRACTION TREAD,

The Tire Which Makes Safety Sure.
