The mere turning of the Reproducer is all that is necessary to play all Records on the

NEW MODEL "C"

Vanaphone.

Reproductions of the world's greatest Artists at your command for a very small expenditure.

Every sound is reproduced with unusual distinctness—all the colour, resonance and individuality of tone in the singer's voice; the delicate shadings of a violin; the ensemble of a band or orchestra, etc.—a revelation to many people who were under the impression that this was only possible with high-priced Phonographs.

The machine is not slapped together to sell at a price, but really contains the best of materials throughout, and the workmanship is excellent. The body will not warp.

Standardization and quantity production, which keep down the cost of manufacture, enable us to offer this machine at

\$22.50.

We have a sample order of 25 machines on hand.

We are offering a liberal commission to live wire salesmen to handle this machine in the Outports. Write or call.
