## COALOX, THE GREAT COAL SAVER.

A British preparation which saves coal because it makes combustion more complete, burns the smoke and gives a brighter, hotter fire. One bucket of slack coal treated with Coalox will give as much heat as 1½ buckets without.

Package containing enough to treat 1½ tons of coal, \$1.20; larger packages, \$2.50.

So great has been the success of this wonderful economiser that the manufacturers have had to build three new factories within the past four years.

Recommended by clergy, nobility and by the careful housewife. For sale by
