All goods have been marked down to meet the drop in prices.

Order your SPRING SUIT and OVERCOAT now.

CHARLES J. ELLIS,

English and American Tailor,
302 WATER STREET.

A gown of black crepe de chine is embroidered in gold and blue beads slashed in panels that the under and has wide sleeves of blue chiffon panels of black silk fringe and jet may appear to advantage.

Chatterton, the Misguided Genius.

Thomas Chatterton, "the marvellous boy who perished in his pride," was born on November 20, 1752, at Bristol, where for 200 years his ancestors had been sextons of the church of St. Mary Redcliffe. When he went to school he was regarded as an absolute dunce, but being attracted by the bright colours of an illuminated manuscript he learned his letters from it, and afterwards read anything he could get hold of. As he had access to a large number of ancient documents, he became familiar from an early age with the antique style of spelling and handwriting. At the age of eight he was sent to Colston's Hospital, the blue-coat school of Bristol, and at twelve he wrote poems which appeared in the local newspapers. He adopted an ancient system of spelling, and could thus easily write poems which appeared to be several hundred years old. His next feat was to forge a pedigree for one Burgum, a pewterer, showing his descent from the De Berghams, who came over with the Conqueror. In 1767 he was apprenticed to John Lambert, attorney of Bristol, but in this situation he was very unhappy, although he had much leisure to fabricate his poems. These he alleged to be the work of one Rowley, a monk, and that he found them in the muniment room of St. Mary Redcliffe. He sent some of them to literary men in London, and they were much admired, many eminent men of letters maintaining that they were forgeries. He was discharged by his employer for threatening suicide, and went to London on April 24, 1770, where he took lodgings in Shoreditch. He interviewed booksellers and wrote for magazines, but the remuneration he received was not sufficient to live on and he was too proud to accept invitations to dinner. When nearly starved to death he took poison, and died in his garret on August 25, 1770.

What Two Subalterns Did.

Two young British subalterns and half-a-dozen sepoy actually "confined to barracks" a Georgian "army of liberation" which came to the Batum Province, then occupied by British troops. "Soon they went outside, and discovered a Georgian force of some three hundred men drawn up in line order. There was a front line, lying flat all round the bungalow, then a reserve line, machine-guns, and so on, and, at the back, the stretcher-bearers. The subalterns stepped through this martial array and ordered the Georgian officer to house his troops in some empty buildings a little farther up the hill-side. The Georgians, bewildered at their reception, retired into the houses, and the British subalterns issued orders that they were to stay there and not to come outside. The Punjabs were posted as sentries over them. At this point the Georgian commander, who, in expectation of a scrap, had taken up a strategical position some miles in the rear, arrived and blankly acquiesced in the arrangements."

"Hill 60" Sold to Brewery.

(From the Pioneer, Toronto.)

The Echo du Nord says: "Hill 60. Everyone remembers the famous hill to the southeast of Ypres, where furious fights took place. On this account it ought to have remained a sacred place. Now this hill has just been sold to a British brewery, for the purpose of erecting a large hotel. Could not the memory of the heroes of Hill 60 be commemorated in a more fitting fashion?"

"A brewery, you will notice!" exclaims the Glasgow Forward. "The fine, delicate capitalists, who urged us out to fight against 'materialism' and for things great and spiritual, stick a booze factory upon Hill 60."

Merchant Says He Has Gotten Rid of Trouble

Alberta Citizen Suffered Twelve Years—At Last He Finds Complete Relief.

Albert M. Blais, a well-known merchant of Villeneuve, Alberta, is now an enthusiastic champion of Tanlac. On a recent visit to Edmonton Mr. Blais said:

"My troubles started twelve years ago with my stomach. From that time up until recently I didn't know what it was to be able to enjoy a hearty meal. Everything I ate seemed to lie in my stomach like a lump of lead. The gas that formed bloated me up so that I could hardly get my breath. My stomach was just as sour as vinegar and I had a mean, sickening taste in my mouth nearly all the time. My nerves gave way and I was about as miserable as a man could be and still keep on his feet."

"The first bottle of Tanlac worked such a change in me that I was amazed. I have kept on improving until now I'm as sound as a dollar. My appetite is keen, nothing I eat disagrees with me. I sleep like a log at night and get up feeling just fine. In fact I'm just like a new man."

"Tanlac is sold by leading druggists everywhere."

When the Sea Bulges.

The rise and fall of large bodies of water—a phenomenon to which we have applied the name of tides—is the result of the influence exerted upon the earth by the moon and sun.

Both pull or attract the earth in varying degrees, the power of the moon being about two and a quarter times as great as that of the sun. This attraction is most evident in the fluid portion of the earth's surface—the oceans and larger lakes, which are so affected that they bulge outward, forming a rising of the water on the side of the earth nearest the moon, and also on the opposite side, with corresponding low water between.

The reason for extreme high tides at the times of the new and full moon is because the moon is then in a line with the sun, and the water reacts to the combined pulls of both bodies. At the time of the first and third quarters of the moon this influence is divided—the single-unit pull of the sun acting at right angles to the two and a quarter unit pull of the moon, thus diminishing materially the attraction exerted upon the earth and producing tides that do not rise nearly as high as the ones occurring during the times of the full or new moon.

As the moon appears to revolve about the earth once every twenty-four hours and forty-eight minutes, two tidal waves continually sweep around beneath her, causing two high tides and two low tides in each approximately day.

Stafford's Prescription "A" will cure that uncomfortable feeling caused by Indigestion and Dyspepsia. Price 35 and 70c. Postage 10 and 20c. extra.—a26.11

Young Men and Young Women--

Possibly you have completed your school course and are now ready to train for a worth-while position in the business world. We own and operate a chain of business colleges extending from Sydney to Vancouver, our wide experience thus enables us to give a service that cannot be surpassed.

Are There Two Moons?

There is a suspicion that we have another moon, quite a tiny affair and not one for poets to rave about.

What gave rise to the suspicion was a large dark object which was seen crossing in front of moon No. 1. As this object must have been far outside the earth's atmosphere, the natural conclusion was that it was spinning round the earth just as our familiar moon does.

As something of the sort had been seen before, there is a feeling that after all there may be a second moon, but one which does not reflect enough of the sun's light to enable us to detect it until it reveals itself against the bright face of the full moon.

A search is being made for this mysterious body, as it is felt that there is no reason why we should not have two moons as well as Mars.

Indeed, we are very badly placed in the matter of moons. Our solitary one (so far as we know at present) is trifling compared with the ten of Saturn, the nine of Jupiter, and the four of Uranus.

"Laugh and grow fat" is an old axiom. We advise the use of a good tonic, named "Brick's Tasteless". Price \$1.00; postage 20c. extra.—spr26.11

A small black satin hat has a shower of black Paradise falling from its top below the shoulders of the wearer.

ARTISTIC UPHOLSTERING AND FABRICS THAT CHARM.

Orders for all kinds of Upholstering will be received by us during the present month, at very satisfactory prices to you.

In a special department equipped for that particular work, new Upholstered Furniture is made to customer's own designs and specifications, and there are Tapestries, Brocades and Damasks of wonderful shades, textures and patterns among our large stock of Upholstery Fabrics. Many beautiful small pieces in dropped patterns—just enough to cover an odd chair—can be picked up among them.

If you have a new home to fit up, or if you want to re-furnish a single room or suite, we can be of valuable service to you. Let us give you estimates.

CHAMPIONSHIP SPORT GREAT SUCCESS

At a meeting of the Newfoundland Athletic Association held at the Champlons Newfoundland team was selected for the athletic meet. The team was selected for a great success, full of putting in appearance. As a consequence of the rain falls the time of the races were not so good as had been, the turf was in a slippery condition. The team opened with a parade to the centre of the field, where the guests were included the Commissioners, officers of the Clubs and Association. Representatives of the city and of these grandstands were present by Mayor McCreary. In the first of the work he had accomplished the A.A.A. When the ground had been put in the best result of the present towards the forward of this country. He then declared the meet open. Mr. G. W. B. Ayre, P. A.A.A., expressed his appreciation of the work of the team and called on him and the Civic Commission to support the programme. Great care had been taken in the courses for the measurements had been taken and were verified by the officials. The meet began by him and the officials. Mr. C. O. Taylor has for many years been out of the duties of the most efficient manner was noted years ago. A record of records of yesterday kept. The presence of the team and Capt. A. McCreary to the enjoyment of the meet.

THE SPORTS.

There were a very large number of the 100 yards dashes, and both these races were run in heats. The 100 yards was run in 11.5 seconds. The 50 yards was run in 6.5 seconds. The 25 yards was run in 3.5 seconds. The 10 yards was run in 1.5 seconds. The 5 yards was run in 0.5 seconds. The 100 yards was run in 11.5 seconds. The 50 yards was run in 6.5 seconds. The 25 yards was run in 3.5 seconds. The 10 yards was run in 1.5 seconds. The 5 yards was run in 0.5 seconds.

Victor Hudson medal. Phelan, who obtained number of points. The 100 yards—1st, F. Phelan; time 16.3-5 seconds. The 50 yards—1st, T. Butler; time 8.5-5 seconds. The 25 yards—1st, T. Butler; time 4.5-5 seconds. The 10 yards—1st, T. Butler; time 1.5-5 seconds. The 5 yards—1st, T. Butler; time 0.5-5 seconds. The 100 yards—1st, F. Phelan; time 16.3-5 seconds. The 50 yards—1st, T. Butler; time 8.5-5 seconds. The 25 yards—1st, T. Butler; time 4.5-5 seconds. The 10 yards—1st, T. Butler; time 1.5-5 seconds. The 5 yards—1st, T. Butler; time 0.5-5 seconds.

THE HALIFAX TEAM

The team to represent the Halifax team was selected. The team was selected for a great success, full of putting in appearance. As a consequence of the rain falls the time of the races were not so good as had been, the turf was in a slippery condition. The team opened with a parade to the centre of the field, where the guests were included the Commissioners, officers of the Clubs and Association. Representatives of the city and of these grandstands were present by Mayor McCreary. In the first of the work he had accomplished the A.A.A. When the ground had been put in the best result of the present towards the forward of this country. He then declared the meet open. Mr. G. W. B. Ayre, P. A.A.A., expressed his appreciation of the work of the team and called on him and the Civic Commission to support the programme. Great care had been taken in the courses for the measurements had been taken and were verified by the officials. The meet began by him and the officials. Mr. C. O. Taylor has for many years been out of the duties of the most efficient manner was noted years ago. A record of records of yesterday kept. The presence of the team and Capt. A. McCreary to the enjoyment of the meet.

Personal.

W. Winsor arrived in the Sagona yesterday. The Rev. H. Gordon arrived yesterday from Cart. Pector General Hutchins. The team was selected for a great success, full of putting in appearance. As a consequence of the rain falls the time of the races were not so good as had been, the turf was in a slippery condition. The team opened with a parade to the centre of the field, where the guests were included the Commissioners, officers of the Clubs and Association. Representatives of the city and of these grandstands were present by Mayor McCreary. In the first of the work he had accomplished the A.A.A. When the ground had been put in the best result of the present towards the forward of this country. He then declared the meet open. Mr. G. W. B. Ayre, P.
