At the meeting of the Provincial Board of Health a long discussion took place upon the application of the town of Peterboro to be allowed to drain into the Otonabee River. The board decided to allow the town to dispose of its sewage in that way, provided there were no objections from municipalities below the town. If objections were raised the town must adopt another system.

The Roslyn mine is one of the largest in the State, supplying the western division of the Northern Pacific and Union Pacific roads with coal, and has a capacity of 20,000 tons a day. The explosion occurred just as two gangs were shifting at 1:30 o'clock. The cause of it was not known. Two boys who were in the tunnel escaped, but they are the only ones from either gangs so far recovered. Reports so far received indicate that the explosion has closed up the shaft, that

Strike in the State Printing Office at Albany-Contract Laborers Ordered

There is no change in the carpenters' strike at Newburgh, N. Y. Both sides appear firm.

Thirty men employed at the reservoir of the Amherst, N.S., waterworks went out on strike Tuesday. The pipe layers refused to go out.

About 60 compositors employed by J. B. Lyon, State printer, Albany, went out on strike on Tuesday. The cause of the trouble is the discharge of a union hand. The strike of the Durham miners, throwing about 20,000 men out of work, has caused the abandonment of several football fixtures in the North of England.

At Hamilton there is no change in the molders' troubles with the foundrymen. No more non-union men have arrived. Both parties express themselves as confident of success.

Commissioner Weber, New York, has ordered back the three brothers Debo and westernland, as being contract laborers.
The agents of the Westernland (which leaves to-day) will not take the men back, but will contest the matter in the courts.
