

Health Built Up

"I had a very bad cold which settled on my lungs. I was under doctor's care and was not able to get out of the house for eight weeks. I did not gain strength very fast and other remedies failing to help me or improve my ease, I was induced to try Hood's Sarsaparilla. I have taken several bottles and my health is improved very much. Since I have taken Hood's Sarsaparilla I feel very much stronger than for a long time past. I have recommended Hood's Sarsaparilla to others, for it truly has been of great benefit to me." The Big Bonspiel Begins at Hamilton Today.

CURLING.

THE HAMILTON BONSPIEL.
HAMILTON, Jan. 9.—The big bonspiel to be held on Hamilton Bay tomorrow in celebration of the 21st anniversary of the Ontario Curling Association is an assured success. One hundred and twelve rinks are expected to participate in the contest between East and West, 56 on each side. The ice is in magnificent condition.

DETROITERS ON THE WAR-PATH.
DETROIT, Mich., Jan. 9.—Two rinks of Detroit curlers left for Canada today to take a whack at the curlers who are to be at Hamilton at the tournament. Tonight the Detroiters play Simcoe, and tomorrow play with two rinks from Albany, N. Y., at Hamilton.

SIMCOE, Jan. 9.—A friendly game of curling took place here this evening between two rinks from Detroit and the home club. Score: Detroit 27, Simcoe 24.

HOCKEY.
At Montreal on Wednesday night the Shamrock hockey team defeated McGill by 11 to 5.

THE TURF.

ALICANTARA SOLD FOR \$10,000.
New York, Jan. 9.—The only notable sale at today's horse sale was that of the celebrated stallion Alicantara to John S. Clarke, of New Brunswick, N. J., for \$10,000.

THE WHEEL.

BY THE WAYSIDE.
Mrs. Langtry, the "Jersey Lily," rode considerably while in Philadelphia recently. She always appeared in full cloth knickerbockers, with cloth gaiters to match, and wore Russia leather boots. Her tweed skirt reached to her ankles. A colored linen skirt, with dainty markings, and a short coat and waistcoat completed her riding costume. An Alpine hat of soft grey material added to her chic appearance.

SURVEYOR TYRRELL'S TRAMP.

Reached Winnipeg After a 200-mile Walk—Notes by the Way.

WINNIPEG, Jan. 9.—J. B. Tyrrell, Dominion Government geological surveyor, reached the city late last night, after an absence of six months on a journey to the shores of Hudson Bay. The surveyors left for the Chancery exactly 40 days ago, and walked almost the whole distance to Winnipeg, nearly 200 miles.

Speaking of the new territory surveyed, Mr. Tyrrell said that he had been able to locate several timber areas and note the existence of "many interesting rocks," but he would not say whether or not he had discovered any minerals. On the Kazan River he fell in with a tribe of Esquimaux. These people have become alarmed at their brethren on the coast, to whom they originally belonged, and have become an inland tribe. They are mainly on reindeer meat, of which they can obtain an abundant supply with little effort, as reindeer roam through the region in vast herds.

The Cordage Combine.
JERSEY CITY, N. J., Jan. 9.—The annual meeting of the Cordage Company, to have been held today, was indefinitely postponed. The present officers will serve. The company is prospering, and a number of small cordage concerns have been bought out by the company. The annual report showed assets of \$47,163,724.55, including a cash balance of \$572,035.61, and liabilities of the same amount.

Creamery Convention.
CHESLEY, Jan. 9.—The second day's session of the Ontario Creamery convention held here had a much larger attendance than yesterday. Some very able speeches were made by the different delegates. The farmers appeared to take a very keen interest in the instructions given by the different speakers. At the close of the day's proceedings the visitors were entertained at a banquet in the McDonald House by the people of Chesley.

Collapse of Trestle-Work on the New Railroad.

Three Men Seriously and Perhaps Mortally Wounded.

A Scene of Terrible Excitement—The Wounded Men Removed to Hamilton—Great Destruction of Valuable Material.

DUNDAS, Ont., Jan. 9.—A terrible accident occurred today at the trestle-work on the T. H. and E. Railway in Binkley Hollow, causing great loss to the contractors and perhaps the lives of at least three men. The trestle is built by erecting bents made of square timber, some of which are

SIXTY-FOUR FEET HIGH. These bents are raised up to their places by an engine with blocks and pulleys, one block being attached to the bent last put in position, and on this block is the greater portion of the weight and strain of the next bent being raised, although the guy ropes lessen the strain somewhat. At about 5:30 o'clock this evening about 64 feet high had just been raised and positioned and fastened by spiking planks to the bent last raised and the workmen had nearly all gone back from the spot, only three or four remaining to finish, when

WITHOUT A MOMENT'S WARNING, 16 of the 24 bents which had been put up came down with a terrific crash, smashing many of the huge square timbers into kindling wood and making a pile of twisted and broken fragments of what had been the finest square timber ever put into a bridge or trestle.

AFTER THE CRASH. The moment after the crash heartrending cries of pain came from the wounded men, and a rush was made to extricate them. In a few minutes three men terribly mangled were taken out, and immediately medical aid was sent for from Hamilton. Drs. Ross, Bertram and Smith were quickly at the scene, and took charge of the wounded men.

TERrible SUFFERING OF THE WOUNDED. One poor fellow had both legs broken, and his left arm broken in two places, besides other injuries. Another had his left leg broken, but supposed to be injured internally.

CARING FOR THE VICTIMS. The wounded men were quickly chloroformed, placed on mattresses, covered with blankets and taken to the Hamilton hospital. It is thought that one at least cannot possibly recover. Following are

THE INJURED:
Mr. Rogers, married; residence Hamilton; compound fracture of both legs; left arm broken in two places; scalp torn very badly; one eye gashed out.
Mr. Riley, married; residence Hamilton; compound fracture of left leg and injured internally.
John Kerr, unmarried; residence Hamilton; no bones broken, may be badly injured internally.

THE RUINED TRESTLE. This section of the T. H. and E. railway is under Superintendent Skinner's supervision; foreman Finnigan. Both were absent at the time, but had been there through the day. An investigation will be held tomorrow, and perhaps a coroner's inquest. The wreck will be photographed at daylight tomorrow. The damage to the trestle work will run up into the thousands.

ANTI-TOXINE KILLS A HORSE.

The Doctor Gave Him Three Times the Regular Dose.

NEW YORK, Jan. 9.—Dr. Paul Gibier is sending anti-toxine serum to all parts of the country. The supply of horses with which the Pasteur Institute is provided enables the doctor to give the serum to all who request it.

Dr. Gibier made an experiment yesterday. Complaints have been received that in certain cases inoculation with the serum produced hives. It was found that all the serum complained of had been taken from one horse.

It was decided to kill the horse and Dr. Gibier, who wished to try the effect of an over-dose of anti-toxine, gave the horse three times the regular dose. The horse showed signs of blood poisoning immediately.

He seemed to grow dizzy, and fell to the floor of his stall. In five hours he was dead. His death appeared to be painless. Dr. Gibier says, and the experiment proved that the pure anti-toxine from the bacillus of diphtheria is an active poison.

THE OLD STORY.

Treasurer Taylor Falls to Turn Up in Time—A Great Shortage.

PENNSBURG, N. D., Jan. 9.—State Treasurer Taylor, who would have turned over his cash to his successor yesterday, failed to appear, and the Redfield National Bank, of which he is the head, closed its doors. At last accounts Taylor was in New York. On Saturday he should have had \$350,000 and should have paid \$190,000 to take up funding warrants in New York.

It has been known for some time that Treasurer Taylor was hard pressed. He was caught in the Chemical National Bank at Chicago and elsewhere. Altogether he lost \$100,000. If the defalcation is as large as the bondsmen believe it will place the State in a very embarrassing situation. Taylor has always had a high reputation as a financier and a man of integrity. The school fund may lose \$50,000.

Taylor's present whereabouts are unknown. His bond of \$325,000 is said to be good, but it will not begin to cover the amount of the shortage as it appears at present.

Sir Oliver Mowat to Address the Kingston Electors.

Patron Nominations in North Middlesex and Haldimand.

ATLISA CRAIG, Jan. 9.—At a nominating convention held here today by the Patrons of Industry of North Middlesex, Wm. Brock, J. H. Alexander, Mr. Saunders and Mr. Darling were nominated. All resigned but Mr. Brock, who will be the candidate of the party in the coming general election for the Dominion House.

THE PROTESTED PATRON ELECTION. TORONTO, Jan. 9.—Mr. C. A. Mallory, president of the grand board of the Patrons of Industry, said that he believed that the Patrons would not say a word about the Kingston election. "There is a protest against one of our members," said he, "I don't know that the grand board will meet the expenses of the protest. It is our principle that every man shall pay his own expenses. We have no election fund. I don't believe that any deviation from the general rule will be made in this case."

NOTES.
Sir Oliver Mowat will address a meeting at Kingston on Thursday in the interest of Hon. Wm. Mackay.

The Conservatives of South Grenville have renominated Dr. J. D. Reid for the Commons.

The Patrons of Industry of Haldimand met at the Cayuga court house on Wednesday to select a candidate to contest the seat at the Legislative assembly rendered vacant by the resignation of Mr. John Senn. Mr. Senn was again the unanimous choice of the convention.

The New York State treasury receipts during the fiscal year ending Sept. 30, 1894, were \$16,357,948, and the expenditures were \$20,183,911. The pool tax receipts amounted to \$22,752.

In Congress on Wednesday the special rule to bring the currency bill to a vote was defeated on a yeas and nays vote by 122 yeas to 129 nays. This, it is claimed, practically kills the bill. Mr. Springer does not regard this as killing the measure by any means. He says the committee on rules will probably bring in another order within a few days.

STARTLING DOCTRINE.

Pastor Rippere Checks His Fellow-Methodist Ministers in Brooklyn.

BROOKLYN, Jan. 9.—The Rev. John Rippere, of the Kalb Avenue Church, denounced most of his fellow-Methodist ministers in Brooklyn Monday at their regular monthly gathering. When it came his turn to speak he said, "If the standards of the Methodist Church are right, then nine out of ten members are going to hell. Dr. Partridge, the presiding officer, merely assented in his chair at the astounding declaration, and asked the Dr. Kalb Avenue pastor if he had heard him aright."

The Rev. Mr. Rippere repeated his remark with emphasis, and added: "We preach and are taught to preach that without holiness and purity no man shall see God. But that standard up and you must have a purgatory. Our funeral orations are at war with our theology. Our philosophizing cuts the nerve of our conviction."

In the course of the debate which followed the Rev. Dr. Poulson said: "We may differ as to meaning of sanctification, and yet may measure up to the standard. The brother certainly has no means of knowing that nine-tenths of the people are going to the devil, as he says."

The Next C. E. Convention.

BOSTON, Mass., Jan. 9.—It is estimated that when the fourteenth international Christian Endeavor convention is held here next July there will be from 50,000 to 60,000 members and delegates in attendance, which will make it one of the largest religious gatherings ever held.

OTTAWA, Jan. 9.—The Royal Humane Society has awarded its testimonial in volume to Messrs. John C. Dance, his son, W. H. Dance, and Henry Wyburn, all of Warton, for their gallant rescue of three persons who were drowning in Colpoys Bay on the 27th of July 1892. The rescue was effected at considerable risk. Nine persons had been upset from a boat, and the rescuers went out in a very small and leaky craft and succeeded in bringing the three safely to shore.
