Local Market.

London, Tuesday, Sept. 18. A small attendance was noted on the market this morning, and in most lines business was slow. An abundant amount of fruit was offered, but even in this much-sought commodity business could not be called active. Prices were slightly too high to suit the majority of purchasers, who are waiting apparently for a decrease.

The only other line in which there were changes in prices was in eggs, which have made a sharp incline. For other commodities quotations

Together POLITICAL POINTS ANOTHER DEATH

Bulk of Pennsylvania Miners Pull One Way.

Not Many of the Collieries in Operation - Companies' Officials Say They Do Not Look for a Compromise.

Philadelphia, Sept. 18.-If, as President Mitchell, of the United Mine Workers, claimed last night, 112,000 of the 141,000 mine workers in the Pennsylvania coal fields were idle yesterday, it is certain that this number has been considerably augmented today. The weather has grown much colder since yesterday, and this change is greeted with joy by the mine workers, who believe it will greatly increase the demand for coal, and thus force an early adjustment of the differences between them and their employers.

TAIK OF ARBITRATION is so persistent that the hope is growing that this method of settling the strike may eventually be adopted. However, the mine owners declare that they will deal only with their employes as individuals, and the strike leaders say they will insist upon formal recognition of the union.

MINERS STICK TOGETHER. Hazelton, Pa., Sept. 18 .- The second trict. What little change there was in exodus from the hall was resumed. the situation was in favor of the striking miners. As far as reports had been received from all parts of the region, there had not been one break in the ranks of the strikers, and in many mines there were fewer men working than on yesterday. Some of the collieries are so short of men that it is doubtful if they can continue

work during the entire day. Every official connected with the United Mine Workers now in the district, with the exception of President Mitchell, started out before 6 o'clock this morning for picket duty at various collieries. All had returned to head-quarters by 8 o'clock, and reported that they had been successful in inducing men to stay away from various workings. A number of the leaders also reported that several of the mines are being guarded by watchmen to prevent union men from attempting to induce non-strikers to quit work.

Pottsville, Pa., Sept. 18 .- All the Schuylkill region collierles resumed work this morning, with the single exception of Morea, operated by Dodson & Co.

The Vulcan and Buck Mountain, near Mahoney City, are short-handed, however. The Lehigh Coal Company's Centralia colliery, which shut down at terday. It was said the work would be suspended at noon again today, or perhaps earlier.

COAL FAMINE. Oswego, N. Y., Sept. 18.-The miners' strike in Pennsylvania threatens Oswego with a coal famine. Only one firm has any coal on hand to supply trade, and that will soon be exhausted. That concern is selling hundreds of tons daily, for which people are glad to pay cash. The big trestles here have been closed down, because of the scarcity of coal. Unless the strike is soon settled, much suffering will be caused here.

STEEL WORKS RESUME. Pittsburg, Sept. 18 .- Oliver's south side plant of the American Steel and University, in Dr. Trenholme. Wire Company has resumed operations, and orders have been issued to start the Anderson plant and the Reed mill of the same concern, within a week. The mills have been closed since last April. The resumption is caused by the return of confidence in the iron and

steel trade, and the heavy demand for wire and nails. Employment will be given to several thousand men in this district. Farm Laborers Wanted.

Manitoba is in need of 1,000 farm laborers, and the C. P. R, will run an excursion on Thursday of this week to Winnipeg and all points west, southwest and northwest, the fare having been placed at \$10. Upon surrender of certificate at destination, properly filled out and signed, ticket will be issued good to return to original starting point on or before Nov. 20, on payment of \$18. Information can be secured from Mr. W. Fulton, passenger agent, 161 Dundas street, corner Richmond street, or any C. P. R. agent.

CONSERVATIVE LEADERS AT

GUELPH. Guelph, Sept. 17 .- Coincident with the visit of Sir Charles Tupper and his traveling companions here today came a change in the weather. The sky became overcast, a blustering wind blew, and the atmosphere grew chilly in the extreme. In anticipation of an attendance of 5,000 persons, the local Conservative executive engaged the Petrie Rink. They did not nearly succeed in filling the huge structure, the audience not exceeding 2,500 by the most liberal estimate. At one end was a long array of seats and a gallery, which had but a few occupants. The place was very cold.

SHUT OUT. It was a mistake to unduly prolong the meeting on such a raw, wintry day, but the trouble was that Sir Charles delivered an exhaustive address of an hour and three-quarters, and the remaining speakers seemed to be unable to condense their remarks. The Conservative chieftain failed to hold the interest of the audience, and many persons retired from the meeting while he was on his feet.

THE BRAMPTON MEETING. Brampton, Sept. 17.-Hon, Hugh John Macdonald, N. Clarke Wallace, M.P., and Mr. W. F. Maclean, M.P., addressed a large meeting in the skating rink tonight in the interest of Mr. Richard Blain, the Conservative candidate. The meeting was not entirely unanimous in its Conservatism. Mr. Macdonald received more applause when he rose than when he concluded his speech, which appeared to be rather a disappointment. The speeches were all retrospective, the only two propositions that dealt with the future being Mr. Wallace's proposal that colonial wheat The colliery at Mocanaqua, operated and beef should have a preference in the West End Coal Company, which the British market, and Mr. Maclean's suggestion of government ownership of

A POPULAR APPOINTMENT

Dr. Trenholme Made Professor of English Literature and History at the Western University.

The friends of the university in this city will be pleased to hear that an excellent appointment has been made to the position of professor of English literature and history, at the Western Dr. Trenholme is a son of W. N

Trenholme, Q. C., of Montreal, until recently dean of the faculty of law in McGill University. He graduated at McGill in 1895, with first-class honors in English and history. Proceeding to Harvard University he graduated M.A. with highest honors in history and political science. In 1899 he received the degree of Doctor of Philosophy at Harvard, and was appointed examiner in history. He then gained the traveling fellowship there, and has during the last year visited and studied the educational methods in Oxford and Cambridge, the universities of Paris, Lausanne and Italy.

The university and the citizens of London generally are to be congratulated on the prospect of so distinguished an acquisition as one of our residents, and no doubt a warm welcome will be given to Dr. Trenbolme. His lectures will commence Tuesday, Oct. 2, when the university term begins.

GOVERNMENT'S ADVANTAGE. Processes are as rapid here as they are in the United States, and when the government of the day is bent upon hustling, there is the quickest possible transit from one parliament to another. The mechanism in this instance favors the government. The Liberals have not made up their lists of candidates, and as there will not be time for completing them, an unusually large number of boroughs and districts will be uncontested, the Unionists going in without a struggle. another striking proof has been offered that, with the sanction of the Queen, public attention will be centered dur-

New Yory, Sept. 18.—The London correspondent of the Tribune says Lord Salisbury receives credit for recom-mending the royal journey of the Duke and Duchess of York to Australia, to open the first parliament of the new confederation; but without doubt Mr. Chamberlain has inspired the policy. He has lost interest in old age pensions and other socialistic experiments and is rounding out his career as the greatest of English imperialists, and displaying his ingenuity in emphasizing in every possible way the worldwide interests which have been involved in the war with South Africa and
