Wide Width ALL-SILK COLORED CORDED RIBBON, regular 15c, for 8c yard. Come to our Ribbon Sale—it will pay you.

DISCUSSING PROHIBITION

Letter From Principal Grant, of Queen's.

The Referendum Is the Only Proper Course for the Government—All Should Vote.

To the Editor of The Globe:

The Dominion plebiscite of 1895 was well worth the cost of taking the vote. It showed that Canada, in the judgment of the moderate men who constitute the center of the prohibitionist as of every party, is not ripe for a prohibitory law. We have had little or no talk of Dominion legislation on that line ever since. It thus incidentally proved that, in the judgment of all moderate men, a mere majority of the votes polled is not enough to warrant the passing of such legislation. Striking evidence of this was recently given in your columns, when out of all the representatives of the universities, colleges and theological halls in Toronto interviewed by you, not one thought that a mere majority would be enough. The chancellor of McMaster added the suggestive remark that a very small minority might weigh more than a very large majority, and would therefore in the end prevail with all who are swayed by reason; the moral being that that minority would not be a very large majority, and would therefore prevail universally in 1898 and generally in 1899. That is an unspeakable gain. Seeing that we all profess to be temperance men and to desire, therefore, temperance, we should divide the forces which are warring against sin? To do so any longer is not only pure waste, but inexcusable wickedness.

FACING THE QUESTION.

As we are now faced with the question "Should we may congratulate ourselves on having the decks cleared to the extent I have indicated, and on having a fair platform for discussion, it is understood, will submit a measure to the legislature, which, if passed in the house, will be submitted to the people before it becomes law. The government could do nothing else. Having regard to its pledges, it must take the responsibility of preparing a measure, and it being all-important to know, not what the people thought on the subject in 1895, but what they think in 1898, and to know also what their opinion is not merely on a general principle, but on the concrete form in which the principle is to be embodied, it would be an act of wisdom to give the people the measure of the force of law without submitting it to the electorate for their judgment. We then shall be called to judge, and I am so near to us, that no one who respects himself and who values the moral life of his country will be guilty of the contempt which is involved in not voting. It may be that many abstained from voting in 1895, because they could not be raised into the least enthusiasm for or against a general principle the exact application of which to their own lives they had not imagination enough to picture.

THE SMALL MANITOBA VOTE.
Some explanation is needed to account for the smallness of the vote in a province like Manitoba, where prohibition sentiment is so strong, and where a law could be far more easily enforced on account of there being only one city, than in Ontario. The record shows that of every 100 on the list 18 voted for and 82 against prohibition. Evidently the people generally were indifferent whether or not the prohibition organizations could get only 18 per cent out to the polls, even with such an inspiring goal as the vote to study the measure of the importation, manufacture and sale of liquor.

Were a concrete measure submitted to the people, we imagine that the vote would be exactly what it meant, and they would be more likely to take the trouble of voting. Before the vote is taken in Ontario we will have time to study the measure and its probable effects on the province. I propose, therefore, with your permission, to give in ten or three letters my views on the prohibition question, as it now appears to me, as well as on the particular measure which may be offered us, with the special object of endeavoring to arouse the public to its indifference and to induce every man with whom I have the slightest influence to make up his mind and to vote for or against it.

G. M. GRANT.
Queen's University, Feb. 1.

ROBBERS BOLD AND BRUTAL.
New York, Feb. 5.—Early today four masked men entered the office of Geo. Hill, a contractor of Elizabethport, N. J., and after gagging a watchman, carried off \$2,500 in baggage. The robbery was a surprise, and the watchman, struck him over the head with a piece of iron because he was trying to free himself from his bonds. The man was badly hurt.

\$1,200 FOR A HUSBAND.
Toronto, Feb. 5.—The suit of the widow of Ryerson Meyer, of Toronto, against the Grand Trunk Railway, occupied the attention of Mr. Justice MacMahon and a jury all day at the winter assizes. She claimed \$5,000 damages because of the death of her husband, who was killed on the Esplanade by one of the defendant's engines in January of last year. The company claimed that the accident was due to the negligence of Meyer, who, they maintained, failed to take proper care while crossing the track. The jury returned a verdict in favor of the plaintiff, awarding \$1,200 damages.

NEW MINISTER OF JUSTICE.
Ottawa, Feb. 5.—Indications seem to point to the appointment of Hon. David Mills as the supreme court bench before parliament meets. There is a strong impression that Hon. Charles Fitzpatrick will succeed Mr. Mills as minister of justice. There was much speculation over a visit paid to Rideau Hall yesterday afternoon by Mr. Fitzpatrick, but it turns out that the visit had reference to the Quebec carnival, which the governor-general opens this evening. Hon. Charles Fitzpatrick has accepted an invitation to attend the Canadian Club dinner at Hamilton on April 3.

The Vienna municipality has agreed to purchase the Metropolitan Tramway Company for it is said, \$20,000,000. The tramway lines to be municipalized are nearly 104 kilometers in extent.

BEAUTIFUL WOMEN

Miss Lenore Allen, 407 Dowell street, San Francisco, Cal., writes:
"I consider Peruna an infallible remedy for catarrhal diseases. For several years I have been troubled with influenza, especially during our rainy season. I used to catch cold so easily that I was afraid to be out when the weather was the least bit inclement, or in the evening air. But since I have used Peruna I have nothing the matter with me."
"I am in perfect health, and find that Peruna acts as a tonic, and seems to throw all sickness and disease out of the body. I go anywhere now and in all kinds of weather, seem to have an iron constitution and enjoy life because I enjoy perfect health."

Miss Mattie Douglass, 138 Thomas avenue, Memphis, Tenn., writes:

"From my early womanhood I have been troubled with occasional headaches. I took different powders and drugs, at times getting temporary relief. One of my friends advised me to try Peruna, which I did. I soon found that my general health improved, and my entire system was toned up. I felt a buoyancy of body and lightness of mind I had not known before, and my headaches have completely disappeared, and I have enjoyed perfect health for over a year. I gladly endorse Peruna."
MATTIE DOUGLASS.

Women from all parts of the United States and Canada are testifying daily to the virtue of Peruna. Only a few

of these letters can ever be published. Write for a book of testimonials of the cures Peruna has made.

Peruna Makes Clean, Healthy Mucous Membranes—Catarrhal Diseases Disappear Permanently.

The mucous membrane is to the inside of the body what the skin is to the outside of the body. It lines every organ, duct and cavity. Catarrhal inflammation attacking one part is liable to spread to other parts. A neglected cold or slight catarrh is often the cause of lingering and dangerous catarrhs. Women are naturally more susceptible to the inclemencies of the weather than men. With them a cold is often the starting point of some severe pelvic derangement, causing much pain and suffering.

Every woman needs a remedy upon which she can rely to keep her system fortified against the trying weather of winter and early spring. If Peruna is taken at the first symptom of a cold, it will cure it before it develops into some annoying catarrhal derangement.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
