reasons for the wonderful baking powers of the Pan-

One reason why the Pandora oven excels as a baker is because the Fire-Box is amply large enough to provide all the heat the oven requires. Another is because the Sheet Steel Walls of the oven are uniform in thickness. This, together with the Special Flue Construction which carries the heat around the oven twice, assures absolutely uniform distribution of heat in the oven. Still another is because the main bottom of range is protected with a heavy coating of Fire Clay which prevents cold drafts, passing underneath the range, from cooling the oven.

Look at a batch of bread baked in the Pandora oven. The crust on each and every loaf is exactly alike. The Pandora oven is the sure-working, uniform oven that you've long desired. And it's in a range that's guaranteed to satisfy you in every particular.

Go and see the Pandora at our agent's in your locality.
