Not only the house but the whole province, and we may add the whole Dominion, will await with interest the development of the government's policy attended by the indisputable proposition that everything done for British stands high and the government and the g

yesterday cuts cart for the house considerable work and some of it is of an extremely important character. Reference this creek to Germansen Creek is compared in Canada it means nothing more than that the man is "strapped," and has to begin over again.—Vancouver World, has already been made to what may to called the transportation policy of the government. Of almost eque importance in their more limited way are the proposed amendments at the the Companies Act and to the companies and the companies are the compa panies Act and to promised legislation to encourage promised legislation cost of making a good trail will be about blook for the sum above named, and possibly a legislation to encourage promised legislation cost of making a good trail will be about the sum above named, and possibly a legislation to the sum above named. look for a brisy and highly interesting little more. The highest estimate is

OUR CLAIMS ON THE DOMINION.

East and West Kootenay contributed to trail, because anything that will improve the provincial revenue the sum of \$82, the facilities for transportation into 000. In the same year the Dominion the part of the province now Government received from the Pilot Bay referred to will surely lead to a great insmelter alone the sum of \$70,000. Since then the Hall Mines smelter at Nelson there is no more promising field any and the Heinze smelter at Trail have where. Present appearances indicate

Washington Star.

Mrs. Lightlist—The waiter appeared to be very much offended when you gave him that tip.

Mr. Lightlist (in surprise)—Why, he couldn't have been very much offended; I couldn't have been very much offended when you gave him the very much offended; I couldn't have been very much offen have contributed more revenue to the province to the Rocky mountains will Dominion. Add to these amounts the well repay prospecting. Development great sums paid directly in Kootenay to great sums paid directly in Kootenay to the Dominion revenue and indirectly by the Skeena canon and the outlook is the Skeena canon and the outlook is the Skeena canon and the outlook is very encouraging. The ore at this parallel district to the scheduler will be found to be far and away beyond what it contributed to the provincial treasury. During the next ten years, the probabilities are that the construction of smelters alone will be done promptly. As a small appropriation of \$3,000 or \$4,000 will be sufficient, there is little doubt that it can be done to aid him, besides liberal to the new schools.

The report from Winnipeg to the Skeena canon and the outlook is very encouraging. The ore at this parallel succumbed to Hon. Mr. Laurier's sunny ways and given his assent to the Skeena and on the Omenica waters, and the placers are numerous. It is very obvious, therefore, that anything which can be done to facilitate the prospecting and development of this section ought to be done promptly. As a small appropriation of \$3,000 or \$4,000 will be sufficient, there is little doubt that it can be duties, while as mining development cient, there is little doubt that it can be obtained. The matter is one in which paying goods will grow rapidly. It is a fact of which any one can get convincing demonstration by visiting the mining who go into this particular district the

amps that miners consume per capita more customers for them. 'It is time to more articles which pay either excise or duties than any other class of the population. Money is plentiful in prosperous camps; the people who live there want the best of everything and plenty of it.

Speaking of the mem. It is time to begin a campaign for the development of the Northwest Coast and the interior tributary to it.

of British Columbia means the prosperproposition it will pay the government overnment and Land Notices—published of Nature's production of publication to be specified at that he has seen the consummation of Nature's productive of valuable of Nature's productive of valuable or ordering advertusements; than one fortnight and not more than one week and not more than one stands amazed at the richness which the military aperations now in the proposed railway is idea that he has seen the consummation only in a subordinate sense an enterprise for the benefit of their province.

Readers who are interested in the military aperations now in the military aperation of Nature's production in the military aperation in the military appearance in the military ap ldea that he has seen the consummation of Nature's prodigality in gifts of valuable one formight and not more than one week so cents.

The contract of certs of the certs of certs of the c der if after all he has yet seen the chief storehouses of gold and silver. There are those who think that if the Dominion builds the Crow's Nest Pass railway it will have done all that it can reasonably be expected to do for British Columbia. We shall not stop to discuss just now how much this line, important though it is, can rightly be called a work for the benefit of British Columbia. This is a matter that may need to be discussed by

tribes near the Coast. This is the Benin expedition. The other is the Benin expedition. The other is the Benin expedition. The other is the Benin expedition, is directed against a powerful Mohammedan nation in the interior and is under the direction of the British West Africa Company. The London Times says it is premature to conclude that Lake Tehad is the ultimate point arrived at by the latter.

THERE seems to be a likelihood of Premature to the store of the opposition. The reasons for the delay of a day, he said, would recommend themselves to his honorable friend, or if not, he was sure they would to any reasonable man. The house laughed, and the genial Premier very plainly indicated that he had not intended to get in so severe an oratorical upper-cut at this stage of the contest.

The paragraph in the speech which make is that granting all that can possibly be claimed in this regard, this single line of railroad is by no means adequate to the proper opening of this The language is broad enough to cover railways, highways and water commannial. The people of British Columbia have a cation, and we fancy no injustice will be contented the intentions of the general expression of the content of the federal revenue and of the vaster of the provincial governments.

The federal revenue with the federal that the vast of the vaster of

development of the government's policy strengthened by the indisputable proposition that everything done for British and the government and strengthened by the indisputable proposition that everything done for British and the government and strengthened by the indisputable proposition that everything done for British and the government and the government are strengthened by the indisputable proposition of the Victoria Golf Clubs, what is only after all a simple matter of point on, and therefore it must close so that the committee decided was contend to the proposition of the victoria Golf Clubs, and the covernment are standard to the committee decided was contend to the proposition of the victoria Golf Clubs, and the covernment are standard to the committee decided was contend to the proposition of the victoria Golf Clubs, what is only after all a simple matter of opinion, and therefore it must close so far as the columns of this paper are concerned.

A TRAIL TO OMENICA.

The Rossland Mi sinking fund provided in the loans of 1877 and 1887. This withdrawal was rendered possible by the redemption of those loans, as was explained in the legislature last year when the necessary statute was passed.

It is satisfactory to broom the loans of the season of navigation to Hazelton for between five and six months every year, statute was passed.

Strict enforcement of the Coal Min Regulation act; and also an amendment to certain acts which will give munipalities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the season of navigation to Hazelton on the Skeens, about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing their own of cials. The man who opposes the about 160 miles from the palities, cities and towns the right which is right—of chosing the cities and towns the right which is right and to certain acts which will give munipalities. It is satisfactory to know that the general condition of the province permits the use of the language employed in the speech in regard to some of the principal industries. From year to year speeches from the throne in British legislative bodies are becoming less significant of the business to be transacted during the season; but that with which Lieut.

Governor Dewdney opened parliament Governor Dewdney opened parliament of the last and following its shore.

Try to Badine lake, and following its shore in satisfactory to know that the gent and the province permits miles. This is kept open by the Hud. Nanaume statism the use of the language employed in the son's Bay Co., which receives a grant annually from the government for this purpose. At present the route followed from Babine lake to North Tacla lake is over a difficult of the province permits the use of the language employed in the son's Bay Co., which receives a grant annually from the government for this purpose. At present the route followed from Babine lake to North Tacla lake is over a difficult of the province of the last of the last
