Asthma Victims.—The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought relief to many. It is known and prized in every section of this broad land.

## Androck Corner

Most of the trouble around here is produced by those who don't produce anything else.

Excellent progress has been made with the heating system and we are promised that steam will be in our radiators within a week which will put the building in fine shape for laying the cement floors.

It took 3200 square feet of glass to glaze the steel sash which constitute the larger part of the sides of the new work room and office. This means an exceptionally well lighted factory.

There is no such thing as "soft money". Have you ever noticed that the chap who boasts of his soft job and how he is putting it over on the boss always wakes up some morning and finds he has no job?

A very interesting meeting of the Androck Association was held in the Wire Works office last Friday evening at which the business problems of the present were discussed and plans outlined for future betterment of the works.

Mr. G. M. Haldane of the Strathroy Branch was present and reported that his department was now producing 24,000 Horse Nose Guards per week which is a very creditable showing and cinches for them the title of "The Largest Horse Nose Guard Factory in the World."

The Annual Employees Party will not be held until January this year to allow time for completion of the new building. Mr. Bate assures us that this party, which will also be a "house warming" for the new building, is going to be one long to be remembered.

Provincial Factory Inspector S. J. Mallon called recently and intimated that if every factory tried as hard to make working conditions right as we did he would soon lose his job which we assumed as a compliment and must admit it did make us feel a bit chesty for the time being.

A farmer near Waterbury, Conn., it is said, has dumped his peach crop into his well, poured in several boxes of raisins, corked up the top, and is sitting by, so to say, awaiting developments. This looks like another Waterbury watch case.—Orillia Packet.

## Do You Know What DOMINION LIGHT is?

IT IS AN ELECTRIC LIGHT AND POWER UNIT, specially designed for farms and rural localities, where it is impossible to obtain the pleasures and advantages of Hydro.

It is a full Kilowatt plant, which means it is rated to carry 1000 Watts or fifty 20 Watt lamps with the engine running without drawing energy from the batteries.

It has an overload capacity of 20 per cent. which gives you in reality 1200 Watts or Sixty 20-watt lamps without drawing on the batteries.

Dominion Light will carry for a period of from seven to eight hours continuously using from both battery and engine from 70 to 80 20 Watt lamps.

Does this mean anything to you. Think it over. Can you get another plant for the same money which will give you the same results as Dominion Light.
