

ELECTRIC BELT FREE.
To introduce it the undersigned firm will give away in each locality to those likely to make good agents, a few of their \$5.00 German Electric Belts (U. S. Patent 357,647), invented by Professor P. H. Van Derweyde, President of the N. Y. Electrical Society, and late Professor of Chemistry of N. Y. Medical College. They offer a reward of \$500.00 for any belt they sell that does not generate a genuine electric current. They are making most marvelous cures in cases of Catarrh, Rheumatism, Liver, Stomach and Kidney Diseases, Lung-troubles, Female complaints, Nervous debility, Paralysis and many other ailments in which alling fails. We would advise all who are ailing to take advantage of their offer and write to them at once, addressing German Electric Belt Agency, P. O. Box 178, Brooklyn, N. Y. A letter or postal card sent to them will receive immediate attention.—N. Y. *Weekly Star*, Aug. 29.

The above from the *N. Y. Weekly Star* still holds good. Write us to-day as this will not appear again. **ELECTRIC BELT AGENCY, Brooklyn, N. Y.**
