A SAVING OF 40%

IS MADE BY USING OIL FOR FUEL
UNDER

The Aerated Fuel Co's
(SPRINGFIELD, MASS.)
SYSTEM

This system uses oil with a higher pressure
of air, and is adopted in the United States and
Canada for all kinds of iron and steel forging,
tempering, welding, annealing, etc.; for gener-
ating steam; for burning lime, cement, sewer
pipes, terra cotta, brick, etc.; for heating
chemicals and asphalt; for japanning; for
oxidizing lead; for drying sand, salt, etc.; for
singeing cloth, etc.

Its advantages over coal and wood are:—A
perfectly even fire, at all times under complete
control, free from gas and dust, and ready for
use in a minute after turning valve, and no in-
crease in insurance rates.

Some of the companies now using this
system in Canada are:—The Massey-Harris
Company, The Wilkinson Plough Company (of
Toronto), The D. F. Jones Manufacturing
Company, The Spring and Axle Company, and
George Gillies (of Gananoque), the Dominion
Bridge Company (of Lachine).
