

CAPTAINS OF INDUSTRY.

The following items of information, which are classified under the title "Captains of Industry," relate to matters that are of special interest to every advertiser in these pages, and to every concern in Canada interested in any manufacturing industry whatever, this interest extending to supply houses also.

If a new manufacturing enterprise of any kind is being started, or an electric lighting plant instituted, or an electric railroad, or a telephonic, or a telegraph line is being constructed; or a saw mill, a woolen, cotton, or knitting mill, or if any industrial establishment has been destroyed by fire with a probability of its being rebuilt, our friends should understand that possibly there may be something in the event for them. Do you catch on to the idea?

The starting of any such concern means a demand for some sort of machines, machinery, or supplies, such as steam engines and boilers, shafting, pulleys, belting, lubricants, machinery supplies, wood or iron working machinery, ventilating and drying apparatus; pumps, valves, packing, dynamos, motors, wire, arc and incandescent lamps, and an infinite variety of electrical supplies, chemicals, acids, alkalies, etc. It is well worth the while of every reader of the Canadian Manufacturer to closely inspect all items under the head of Captains of Industry.

A Bathurst, N.B., despatch says. The extension of the Gulf Shore Railway towards the Big Tracadie, N.B., river, was commenced recently. It is expected the work will be completed by November. At the terminus of extension, the Tracadie Lumber Company are erecting a large mill which will probably cut twenty million feet annually.

The Winnipeg Heater Company, of Toronto has been incorporated with a capital stock of \$24,000, to manufacture Winnipeg heaters, and all kinds of fuel burners, radiators, etc.

The Hay Island Mining Co., of Rat Portage, Ont., placed an order with the James Cooper Manufacturing Co., Montreal, through the Rat Portage branch office, for a complete mining outfit, consisting of Ingersoll Sergeant air compressor, rock drills, hoisting engine, etc.
