ENZYMOL

FAIRCHILD'S PHYSIOLOGICAL SOLVENT

is an extract of the gastric juice, purified, highly concentrated, especially prepared for external application.

ENZYMOL represents a revival of the idea of Spallanzani, and the practice, subsequently, of Senebier, Jurine and others, who found that the gastric juice as a "topical application" gave the "happiest results" in the treatment of foetid ulcers, old sores, gangrene, etc.

ENZYMOL is being used successfully in the whole range of "pus" cases, in diseases of the eye, ear, nose and throat; in abscess cavities, carbuncles, old sores; also in cutaneous diseases, and in genito-urinary practice.

ENZYMOL was originated; and is made, by
