

There is the Same Aristocracy

Among musical instruments as in the circles in which they are used. This is an undeniable fact.

It is equally incontrovertible that the BELL PIANOS occupy the highest position among Canadian products. The very fact that all other piano manufacturers have adopted the phrase, "It's as good as the Bell," proves its value; for a criterion is equally a model for imitation.

The BELL PIANOS are sold by every responsible dealer in the Dominion. Every instrument is guaranteed, and the Company holds itself responsible.
